## Grants

***Active***

*North Carolina Translational and Clinical Sciences (TraCS) Institute*
*Research Ethics Core*
Sponsor: NIH National Center for Research Resources
9/1/2008 - 8/31/2013
Part of the Clinical and Translational Science Awards consortium, the TraCS Institute will transform the way research is performed in North Carolina by partnering with communities to more rapidly and efficiently "translate" scientific discoveries into improvements in the health of citizens. The Research Ethics Core focuses on bioethics curriculum at UNC-Chapel Hill, research ethics consultation, and empirical projects in research ethics.
Role: Core Faculty
Core Director: Gail Henderson
Principal Investigator: Etta Pisano

*Center for Excellence on ELSI Research: Center for Genomics and Society*
Sponsor: NIH National Human Genetics Research Institute
10/1/2007 - 9/30/2012
The Center for Genomics and Society focuses on the Ethical, Legal and Social Implications of Large Sample Gene Discovery and Disclosure. The "'E' in 'ELSI'" project within the Center, which Walker leads, focuses on understanding, critically assessing, and offering models for, the methods, aims, and framing of ethics within ELSI research.
Role: Co-Investigator
Principal Investigator: Gail Henderson

***Completed***

*Southeast Regional Center of Excellence for Emerging Infections and Biodefense (SERCEB) - Policy, Ethics, and Law (PEL) Core*
Sponsor: NIH National Institute of Allergy and Infectious Diseases
10/1/2009 - 2/28/2010
9/1/2003 - 8/31/2009
Research, clinical care, and public health interventions related to emerging infections and biodefense raise critically important ethical, legal, and social issues. Advisory Committee members consult with researchers, clinicians, public health and government officials, experts in biosecurity and health policy, epidemiologists, bioethicists, and the senior scientists serving as SERCEB investigators.
Role: Advisory Committee Member
Principal Investigator (PEL Core): Robert Cook-Deegan

*Strengthening Bioethics Capacity and Justice in Health*
Sponsor: NIH Fogarty International Center
06/01/04 - 05/31/08
To build bioethical training and research capacity at the Kinshasa School of Public Health, Democratic Republic of Congo through expansion of its partnerships with the University of North Carolina, Chapel Hill and the Catholic University of Louvain, Belgium.
Role: Consultant
Principal Investigator: Frieda Behets

*Center for Excellence on ELSI Research: Large Sample Gene Discovery and Disclosure*
Sponsor: NIH National Human Genetics Research Institute
7/1/04 - 6/30/07
Exploratory grant to conduct the planning necessary to create a Center of Excellence on the Ethical, Legal and Social Implications of Large Sample Gene Discovery and Disclosure.
Role: Co-Investigator
Principal Investigator: Don Bailey

*Community Genetics Forum 2006: Group Benefits and Harms of Genetic Research*
Sponsor: NIH National Human Genetics Research Institute (NHGRI)
October 2005 - October 2006
Contract to host the Community Genetics Forum 2006 in connection with the Education and Community Involvement Branch of the NHGRI. Contract activities included the continued development, implementation and evaluation of a model Community Genetics Forum through community conversations, ELSI training, and a two-day colloquium on the topic of group benefits and harms related to genetic research.
Role: Key Personnel
Principal Investigator: Barbra Rothschild
