BIOSKETCH

Cynthia Feltner, MD, MPH, is a board-certified general internist and is board eligible in preventive medicine. Dr. Feltner has had a diverse clinical experience, with prior work in community, academic and VA health care systems; she joined the UNC faculty in 2012. After completing medical school at West Virginia University, she began her training is a dual-residency program at Duke University in both psychiatry and internal medicine in 2002. The majority of her clinical work has been in adult primary care and women's health – with a focus on the integration and coordination of psychiatry within primary care. In 2010, she entered a preventive medicine fellowship in occupational and environmental medicine at Duke University. Through this fellowship, she pursued training in public health and clinical research. She completed her MPH (with a concentration in Health Care and work-place injury among Duke University employees. As chief resident in 2011-12, she completed a documentary entitled "Work-Related: One Coal-Miner's Story of Workplace Health and Safety" in the Documenting Medicine Program sponsored by Duke GME and the Duke Center for Documentary Studies.
