BIOSKETCH

Dr. Weil is an Associate Professor of Medicine. She grew up in New York City and graduated from Yale College in 1986 with a degree in History and Psychology. During 4 years between college and medical school she worked in a psychiatric hospital, as an advocate for women and participated in family genetic research. After graduating from the University of Rochester School of Medicine she returned to Connecticut where she completed her residency and chief residency at the Yale Primary Care Internal Medicine Residency. Dr. Weil moved south to UNC in 1998 where she cares for patients and teaches medical students and residents. Since 2003 she has been a Medical Co-Director of the Beacon Child and Family Program. In 2006 she and her family spent the year in Sri Lanka on a Fulbright, where she taught medical humanities and studied Gender Based Violence. Dr Weil enjoys getting to know her patients well and partnering with them to come up with plans to improve their health that they can implement. Her husband is a microbiologist at UNC and they have 2 sons. In quiet moments she enjoys hiking, cooking, yoga, swimming and reading.

Amy Weil, MD, has been awarded Recognition by the National Committee for Quality Assurance Diabetes Physician Recognition Program.

EDUCATION

MD, University of Rochester, 1994

BOARD CERTIFICATIONS

Internal Medicine, 2007

CLINICAL INTERESTS

Women's health, primary care psychiatry, humanities in medicine, ambulatory curriculum development.

RESEARCH SUMMARY

My research interests include gender based violence, ambulatory CQI in women's health and qualitative study of curricula in culture and communication.
