The PROMISE Study is seeking racially/ethnically underrepresented postdoctoral fellows for peer mentoring research

You may qualify to participate in the PROMISE study if you identify as:

- Black or African American
- Hispanic or Latinx
- American Indian or Alaska Native
- Native Indian or other Pacific Islander
- Multiracial

And are involved in **biomedical research**

(The investigation of biological/behavioral processes that advance the diagnoses, treatment, or prevention of disease)

and must be U.S. citizens or permanent residents.

Incentives:

- Peer groups facilitated by senior underrepresented researchers.
- Professional development and skills building to enhance scholarly outputs.
- Monetary compensation up to $500

Join in a **national effort** with the National Institutes of Health (NIH) to bolster **diversity** in the **biomedical workforce**
