FROM THE CHAIR'S OFFICE

This week I'd like to follow up on our column from last week about Match Day. The Residency Program submits a report to the National Residency Matching Program (NRMP) every year following the results of the match, and we have made this report available to you online. Our Residency Program received a 1446 categorical applications and 575 preliminary applications this year. Fifty-three percent of all categorical candidates and 38% of all preliminary candidates applied to our program. I hope you will take a few minutes to read the report.
