Have you had a stroke?

Did it cause any speech problems?

If you are a stroke survivor who would like to participate in a research study about different types of speech problems, please contact:

The UNC Center for Aphasia and Related Disorders
(919) 843-3699
card@med.unc.edu

Participation requires one 90-minute session. It can be held at your home or at UNC. An optional second session is offered.

Participants receive a $10 gift certificate for each completed session.
