

The Department of Microbiology and Immunology
School of Medicine
University of North Carolina at Chapel Hill

Fall 2013 Seminar Schedule

All seminars are held on Tuesday at 9:30 a.m. in 1131 Bioinformatics unless otherwise noted.

DATE	SPEAKER AND SEMINAR TITLE	HOST
August 27	W. Ian Lipkin, MD/Ph.D., Columbia University Medical Center, " Small Game Hunting. "	Ron Swanstrom
September 3	Chris Buck, Ph.D., NIH/NCI, " Polyomavirus vaccines: easy to make, amazingly immunogenic, and possibly life-saving. "	Cary Moody
September 10	Wesley Burks, M.D., UNC Chapel Hill, " Food allergy: Why all the fuss? " **Joint Faculty Candidate**	Bill Goldman
September 17	Susana Valente, Ph.D., The Scripps Research Institute Florida, " A novel Tat inhibitor prevents HIV-1 reactivation. "	Victor Garcia
September 24	Rachel Caspi, Ph.D., NIH/NEI, " Immune privilege, commensal microbiota and autoimmunity in the eye. "	Roland Tisch
October 8	Christine Jacobs-Wagner, Ph.D., Yale University, " Inside bacteria: Where both spatial order and disorder are actively pursued. "	Matt Wolfgang
October 15	Brian Hammer, Ph.D., Georgia Tech., " The regulatory network for horizontal gene transfer in naturally competent <i>Vibrio cholerae</i>. "	Rita Tamayo
October 22	Richard E. Lenski, Ph.D., Michigan State University, " Dynamics of Phenotypic and Genomic Evolution during a 50,000 Generation Experiment with <i>E. coli</i>. "	Bob Bourret
October 29	Joseph Mougous, Ph.D., University of Washington, " Recognition of diverse effectors by the type VI secretion system. " <i>Co-sponsored by the Burroughs Wellcome Fund</i>	Peggy Cotter
November 5	David Weiss, Ph.D., Emory University, " CRISPR/Cas-mediated regulation of bacterial gene expression and pathogenesis. " <i>Co-sponsored by the Burroughs Wellcome Fund</i>	Tom Kawula
November 12	Sallie R. Permar, Md/Ph.D., Duke University Medical Center, " The antibody repertoire following maternal HIV/SIV infection and vaccination. "	Kristina Abel
November 19	Paul Duprex, Ph.D., Boston University, " Illuminating virus pathogenesis: the cell-associated lives of paramyxoviruses. "	Ray Pickles
November 26	R. Lee Reinhardt, Ph.D., Duke University Medical Center, " Visualization of cytokine production and regulation reveals two distinct arms of allergic inflammation. "	Ed Miao
December 3	Larry Schlesinger, M.D. Ohio State University, " Immunoregulatory factors in the interplay of <i>Mycobacterium tuberculosis</i> and macrophages in the human respiratory system "	Miriam Braunstein
