Our Services

We provide subspecialty services in the following areas:

- Stroke
- Epilepsy*
- Movement Disorders
- Multiple Sclerosis
- Neurofibromatosis
- Neuromuscular Disorders*†
- Sleep Disorders
- Dementia
- Neurofibromatosis
- Neuromuscular Disorders*†
- Sleep Disorders
- Dementia

*If requesting procedure-only referrals such as EMG and EEG/Video EEG, please call (984) 974-1686.
† Our capacity is currently limited, but we will be adding a new faculty member with expertise in muscle and nerve disease later this summer.

Due to limited staffing and other considerations, we are currently unable to provide services for the following conditions: chronic pain management, low back pain, chronic headache, primary psychiatric disorders, chronic vertigo, TBI/PTSD and fibromyalgia. Please see “Provider Resources” on the reverse side for the contact information of specialists who may be able to provide you with expertise for these conditions.

If you are seeking a consult for a disorder not listed above, please submit a referral request and we will review our ability to provide you with assistance. For the most up-to-date listing of services, please visit our web site at www.med.unc.edu/neurology.

Who Can Make a Referral

We currently are accepting requests for new patient appointments from outpatient clinicians to whom we will send a report and recommend appropriate follow-up care with us or elsewhere. We are unable to accommodate self-referrals or referrals directly from emergency departments.

How To Make a Referral

In order to expedite the care of your patient, please provide the specific reason for the consult request and fully complete the referral form. Also, please include the patient’s current contact and insurance information.

- Providers who have access to UNC CareLink may submit a referral request online at UNCCarelink.org. If you would like to enroll, visit UNCCarelink.org and select “Request an Account.”
- If you do not have a UNC CareLink account, please FAX a completed referral form and pertinent medical records to (984) 974-2285. The form is available at http://tiny.cc/NeurologyReferralForm or on our web site at www.med.unc.edu/neurology. If you have any questions, please call (984) 974-4401.

June 2016

(Continued on back)
The Referral Process

Referrals are first reviewed to determine the level of urgency and UNC’s ability to fulfill the consult request. We have streamlined our processing of urgent referrals to be completed within 48 hours of receipt should the referring provider/office contact our office to inform us of the reason for urgency. We ask that the referring provider be available to discuss the reason for urgent consideration with one of our reviewing physicians, as this will ensure proper triaging and timely scheduling when appropriate.

Non-urgent referrals are otherwise processed within three to five business days often by a clinician to ensure the patient receives the most appropriate care within our clinic. Our staff will contact the patient directly to schedule an appointment.

Clinic Location

The UNC Hospitals Neurology Clinic is conveniently located just off of NC Highway 54. The facility is easily accessible and offers free on-site parking for patients.

- 194 Finley Golf Course Road, Suite 200, Chapel Hill, NC  27517

Provider Resources

The following provides the contact information of specialists who may be able to offer expertise for services that we are not equipped to treat at this time.

**Low Back Pain** - UNC Hospitals Imaging and Spine Center or UNC Hospitals Pain Management Center

1.) The Center prefers referrals to come electronically via UNC Carelink. Start the process by entering an *Ambulatory Referral* to the Spine Center. There is an option after this to specify a specialty if desired. (The Center has spine specialists from PM&R, Ortho and Neurosurgery.) If you do not have UNC CareLink, you may submit a referral by faxing (919) 966-9094 or by calling (984) 974-4200. Please note that referrals are not necessarily required. 2.) Submit referrals for UNC Hospitals Pain Management Center through UNC CareLink or fax a referral form to (984) 974-6793. For more information, call (984) 974-6688.

**TBI** - UNC Department of Physical Medicine & Rehabilitation
Submit a referrals through UNC CareLink or fax a referral form to (984) 974-9786. For more information, call (984) 974-9747. Download a referral form at [http://www.med.unc.edu/phyrehab/files/standard-referral-form-for-crc](http://www.med.unc.edu/phyrehab/files/standard-referral-form-for-crc).

**Chronic Pain & Fibromyalgia** - UNC Hospitals Pain Management Center
Submit referrals through UNC CareLink or fax a referral form to (984) 974-6793. For more information, call (984) 974-6688.

**Chronic Headache** - Carolina Headache Institute
Call (919) 942-4424 or visit the website at [http://www.chi09.com](http://www.chi09.com) to download a referral form.
