J. Please include any additional information or feedback you would like to include for students engaging in future international rotations:
This experience is primarily for teaching and growing with the children at the orphanage, with the added perk of being able to visit the local clinic and learn about medicine in the rural, developing world. The hospital learning experience is focused on clinical judgment and physical exam practice. Living in Chitambo is not for the faint of heart. It is very difficult living in the bush of Zambia, but definitely worth it!

K. What could the OIA have done differently or better to support you in your international elective?:

   ______
