Additional Comments:

Depending on the research work that's involved, you can try to incorporate more or less clinical time (as you see fit and desire). There are a number of clinics that are associated with Kamuzu Central Hospital (KCH) and UNC Project, including an STI clinic, HIV clinic, maternity hospital, and other hospital wards.

I think this set up is great for someone who is comfortable working independently. That said, all the UNC and KCH faculty and staff were incredibly helpful throughout my time there, so you won't be lacking mentors, guidance, or good cheer.
