BBSP 610 - Introductory Statistics for Lab Scientists

Time: Tues/Thurs from 11:00 am to 12:15 pm.
Start Date: Tues, Aug 29 and proceeds for 10 weeks.
Location: Koury 4615

- The course lectures are recorded and you are expected to listen to them before coming to class
- Tuesdays will include questions about the lectures and discussions on various biostatistical concepts
- Thursdays will include time to work together on problems (uploaded to Sakai earlier in the week) and then afterwards you will present answers to the problems to the whole class

You will be able to use Prism for many of the problems instead of (or in addition to) using R
