The University of North Carolina School of Medicine Department of Radiology has unexpected openings for two fellows in our one-year Abdominal Imaging Fellowship beginning July 1, 2016. These positions are based at UNC Hospitals and offers rotations incorporating the areas of Body CT, Body MRI, GI/GU, and Ultrasound.

The Abdominal Division is comprised of 9 faculty. Currently, members of the faculty are involved in research in ultrasound contrast agents, cardiac MR imaging, pancreatic cancer and MR of prostate cancer and hepatobiliary MRI. The Department of Radiology is located in a beautiful facility at UNC Women’s and Children's Hospital with state-of-the-art imaging equipment. Currently, we have two 16 slice, one dual source, three 64 slice and two 128 slice spiral CT units and 3 combination PET/CT scanners. We have 11 clinical MR systems, including two 3T MRI units. 3T and 7T MR/PET units are housed in our research building. There are 13 ultrasound machines with state-of-the-art software, including pulse inversion harmonics, elastography and 3D. We perform approximately 150 image-guided soft tissue biopsies each year. The entire Department is fully PACS-integrated.

With the approval of our Division Chief, fellows may tailor the year to include special areas of interest, including: Advanced Body MRI; 3D imaging lab; Interventional Abdominal procedures with our IR faculty; Breast imaging and interventions; Cardiovascular imaging with 3D CT and MRI (including fulfilling the requirements for Cardiovascular Computed Tomography and CBCCT certification).

If you would like more information regarding our program please visit our web site at: http://www.med.unc.edu/radiology/fellowships/abdominal-imaging

To be eligible for consideration, a candidate must be:

a) enrolled in or have completed a residency in Diagnostic Radiology

b) board-eligible or Board-certified by the American Board of Radiology.

c) pass the core ABR Examination by July 1 2016, if not board certified

d) able to qualify for a current NC Medical License, individual DEA License and a NPI # (National Provider Identifier) by July 1 2016.

e) legally able to work in the United States

We regretfully cannot accept applicants on J1 and H1 visas.

Each fellow has one or two months of elective time that can be spent in any other division of the Department.

If you are interested in applying for our fellowship program please submit required materials via the following link:
