Congenital Diaphragmatic Hernia: Past, Present, and The Future
Thaddeus Puzio, MD
General Surgery Resident
UNC School of Medicine

Value of Surgical Resection in Children with High-Risk Neuroblastoma
Aimee Kim, MD
General Surgery Resident
UNC School of Medicine

Wednesday, August 10, 2016
7:15 AM
CLINIC AUDITORIUM
University of North Carolina School of Medicine
Objectives: At the conclusion of this educational activity, participants should be able to:

- describe local, national, and international issues regarding surgical care of patients
- utilize new treatments and techniques where appropriate
- incorporate management advances into individual specialty practices

Americans With Disabilities Act: The University of North Carolina at Chapel Hill is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees on the basis of race, color, religion, sex, national origin, age, disability, sexual orientation, or veteran’s status. If you require reasonable accommodations for a disability in order to participate fully in this continuing education activity, please contact Teri Augustine at 919/966-4321.
