

*The Nathan A. Womack
Surgical Society Meeting*

May 1-3, 2014

*The University of North Carolina
at Chapel Hill*

The Nathan A. Womack Surgical Society

The University of North Carolina at Chapel Hill

NATHAN A. WOMACK, MD

Nathan Anthony Womack, MD, was a surgical educator who espoused excellence in surgery and basic and clinical investigation. Born in Reidsville, North Carolina, he graduated from the University of North Carolina in 1922 with a BS in Medicine, subsequently receiving his MD from Washington University at St. Louis in 1926.

Following completion of a residency at Washington University under Dr. Evarts Graham, Dr. Womack visited European medical schools as a travelling fellow. He returned to Washington University in 1930 as an assistant in surgery where he made many contributions to the science, art, and craft of surgery. In 1947, Dr. Womack became Professor of Clinical Surgery at Washington University. In 1948 he was appointed Chairman of the Department of Surgery at the University of Iowa School of Medicine.

In 1951, medical school dean Dr. Reece Berryhill recruited Dr. Womack as the first Chairman and Professor in the Department of Surgery at the newly established UNC School of Medicine. He served with distinction in this capacity until 1966, and continued as Professor of Surgery until his death in 1975.

Dr. Womack's insistence on surgical excellence, coupled with his caring approach to his patients, set standards perpetuated by subsequent Chairmen Dr. Colin Thomas, Dr. George Sheldon, and Dr. Anthony Meyer.

Our Society was initiated in 1969 to honor Dr. Womack. In accepting this honor, he hoped the organization would stress the elements of surgical excellence, integrity, and continuing education. He was pleased that the Society intended to create a forum for faculty, house officers, and former residents to meet in congenial, scientific, and social fellowship.

Dr. Womack anticipated change and growth. We have changed. We have grown. However, we, as surgeons, continue to appreciate his values as well as those promulgated by his successors.

The University of North Carolina at Chapel Hill

Thursday, May 1, 2014

- 6:00 pm **Reception for residents and faculty**
Carolina Inn
“Women In Medicine”
Julie A. Freischlag, MD

Friday, May 2, 2014

- 7:00 am **Welcome and Introduction of the
Colin G. Thomas Lectureship**
Anthony A. Meyer, MD, PhD
Andy C. Kiser, MD
Clinic Auditorium

Colin G. Thomas Lecture
“Clinical and Personal Comparative Effectiveness”
Julie A. Freischlag, MD
Dean of the School of Medicine
University of California, Davis

- 8:00 am **Breakfast Reception**
4050 Burnett-Womack

- 9:00 am **Tour of Medical Campus**

- 9:30 am **Executive Council Meeting**
4050 Burnett-Womack

- 10:30 am **Resident Research Competition**
Bruce Cairns, MD, Moderator
Clinic Auditorium

- 10:30 am Presenter: Robert J. Torphy

- 10:40 am Questions—Discussant: Kendall Jones, MD

The Nathan A. Womack Surgical Society

The University of North Carolina at Chapel Hill

- 10:45 am Presenter: Megan T. Quintana, MD
10:55 am Questions—Discussant: Walter Scott, MD
- 11:00 am Presenter: Nicholas P. Schaub, MD
11:10 am Questions—Discussant: H.J. Kim, MD
- 11:15 am Presenter: Amita Shaw, MD, PhD
11:25 am Questions—Discussant: Noel McDevitt, MD
- 12:00 pm **Resident Lunch with Dr. Julie Freischlag**
4050 Burnett-Womack

Invited Lectures

Clinic Auditorium

- 1:15 pm **Is a Vascular Anastomosis Necessary Anymore? State of Endovascular Therapy**
Kellie Brown, MD
*Associate Professor of Vascular Surgery
Medical College of Wisconsin, Milwaukee, WI*
- 1:45 pm **Being Prepared: The Impact of Training in the Real World**
Eric Strand
Special Operations from Ft. Bragg
- 2:15 pm **When Stop, Drop, and Roll is Not Enough: The Initial Management of Burns in your Practice**
Sam Jones, MD
Assistant Professor of Surgery
- 2:45 pm **The UNC Global Health Initiative-Malawi Surgical Care: A TarHEAL Bridge to Africa**
Anthony Charles, MD
Associate Professor of Surgery

The Nathan A. Womack Surgical Society

The University of North Carolina at Chapel Hill

- 3:15 pm **Closing Remarks**
Andy C. Kiser, MD
President, Nathan A. Womack Surgical Society
- 3:30 pm **Academy of Faculty Educators**
Clinic Auditorium
- 5:00 pm **Tour of the UNC Basketball Museum**
- 6:00 pm **Womack Surgical Society Reception**
AT THE DEAN DOME
Featuring UNC Basketball legend **Phil Ford**
Announcement of 2014 Sheldon Surgical Research Award
Announcement of 2014 Womack Scholar

Saturday, May 3, 2014

- 7:00 am **Breakfast**
Clinic Auditorium
- 8:00 am **Training The Surgeon of Tomorrow: Are we doing it right?**
Panel Discussion Lead by Andy C. Kiser, MD
Clinic Auditorium
Panelists:
Amy Alger, MD
Staci Beamer, MD
Tim Farrell, MD
Joe Jenkins, MD
Lem Kirby, MD
- 9:30 am **Drawing for Weekend for Two at Carolina Inn**

Julie A. Freischlag, MD is the Vice Chancellor for Human Health Sciences and Dean of the School of Medicine at UC Davis. She oversees UC Davis Health System's academic, research and clinical programs, including the School of Medicine, the Betty Irene Moore School of Nursing, the 1,000-member physician practice group, and UC Davis Medical Center, a 619-bed acute-care hospital. With nearly 10,000 employees, more than 815 students, an operating budget of more than \$2 billion, \$230 million in outside research funding, and 860,000 outpatient visits each year, UC Davis Health System is a major contributor to the health care and economy of the Sacramento region and a center of biomedical discoveries that help advance health around the world.

Freischlag is one of the most prominent leaders among the nation's academic health centers. For more than 15 years, she has led education and training programs at top medical schools in her role as professor and chair of surgery and vascular surgery departments. Freischlag also has more than 30 years of experience leading patient-care services as chief of surgery or vascular surgery at nationally ranked hospitals. Before joining UC Davis Health System, she served as professor, chair of the surgery department, and surgeon-in-chief at Johns Hopkins Medical Institutions. She led initiatives to expand research, add specialty clinical services, improve patient-centered care and patient safety, redesign the surgical training program, and enhance academic career paths for faculty.

Her national leadership includes serving as a former governor and secretary of the Board of Governors and a regent and present chair of the Board of Regents of the American College of Surgeons. She is the current president of the Society for Vascular Surgery and a past president of both the Association of VA Surgeons and the Society of Surgical Chairs. Freischlag is the editor of JAMA Surgery and a member of the editorial boards of the Annals of Vascular Surgery, Journal of the American College of Surgeons, and British Journal of Surgery.

She has published more than 200 manuscripts, abstracts, and book chapters, primarily addressing the treatment of abdominal aortic aneurysms, carotid artery disease, and peripheral vascular disease utilizing outcome data and clinical trials. Freischlag is an internationally recognized expert in the treatment of thoracic outlet syndrome which can require a specialized surgical procedure. Her present research involves a prospective randomized trial that tracks more than 800 patients from 34 Veterans Affairs Medical Centers across the country to compare outcomes in patients who received either open or endovascular repair of their abdominal aortic aneurysm.

Freischlag received a bachelor's degree in biology from the University of Illinois and a medical degree from Rush University Medical College in Chicago. She completed her surgical residency and vascular fellowship at the David Geffen School of Medicine at UCLA.

Freischlag has received numerous teaching awards and an achievement award from the Department of Veterans Affairs. Baltimore Magazine named her "Top Doctor" and Working Mother Magazine selected her as one of the "10 most powerful moms in health care."

She has mentored students, residents, and young faculty, and is a frequent speaker on topics ranging from her expertise in vascular diseases, teamwork and patient safety, leadership and work-life balance to women succeeding in health professions. Freischlag has dedicated her career to serving as a role model for her students, a respected colleague across health professions, a strong community leader, and a national voice for improving health and health care.
