

PPG Monthly Meeting Schedule for 2008-09

Please Post

Please find below a schedule of meetings for participants in the "Pharmacodynamics of Genes and Oligonucleotides" Program Project Grant. This academic year we hope to have three to four outside speakers, one administrative meeting (PIs and co-PIs only), and several monthly sessions where students or postdocs from the various PPG labs will present their research. Participation in these meetings is expected for everyone who is supported by the PPG, while others who are interested in this area of research are welcome to attend.

Through Fall 2008 the meetings will take place at UNC: Thursdays at 12:30 pm in the Pharmacology Library (1102 ME Jones) Locations for Spring 2009 meetings will be announced.

Free pizza and soft drinks will be served.

Students and postdocs are welcome to meet with visiting speakers. Please contact R. Juliano. Updates on schedules and more exact presentation titles from outside speakers will be available on our web site:
<http://www.med.unc.edu/wrkunits/3ctrpgm/mmther/seminars.htm>.
