Directions: Any student interested in taking La Charla, the interdisciplinary course in Spanish language and culture for students in Health Affairs and Social Work must provide the information requested below.

Completed forms must be returned by January 24, 2000.

Name:

Degree Program and Year:

Department or Program
(if applicable):

Email address:

Telephone number:

Home address:

Campus address:

Indicate (by checking the appropriate space below) which description sounds most like you. Remember that this course is geared toward beginners. Conversation groups will be formed based on this classification.

I have no prior experience studying Spanish or I have had some experience but would like to start from scratch and be in a group with other "true beginners."

I have studied some Spanish either in high school or college and can communicate on a very basic level only.

I have studied several years of Spanish and may have had an immersion experience for a short time. I consider myself an advanced beginner but I still feel somewhat rusty when it comes to speaking.

Briefly describe below any experiences (class time or otherwise) you have had with the Spanish language, the Latino culture and working with other disciplines in health affairs (allied health sciences, dentistry, medicine, nursing, pharmacy, and public health) and social work.
