

FACET Meeting
October 3, 2002, 4:00 - 5:00 PM
238 MacNider

AGENDA

Introductions

Action

- [Computer requirement](#): For the first time since the requirement was instituted in 1999, two students have declined to purchase the OIS-configured CCI laptop. In one case the student had already purchased a laptop prior to enrolling and insists on using it. In the other case, a student plans to share the computer already purchased by her sister, a 2nd year student.
Question: Should we recommend changes to the existing computer requirement?

Planning: specify issues (including others not listed below) and set priorities & timelines

- [PDA requirement](#):
- LCME accreditation survey
- Technology needs for Berryhill renovation and MSRB
- Student technology fee allocation

Administrative

- FACET meeting frequency, time
