

1) Personal Information

Name: Sarah D. Linnstaedt, PhD
 Work Address: 109 Mason Farm Road, Taylor Hall Room 120
 Chapel Hill, NC 27514
 Phone: (919) 576-6179
 Email: sarah_linnstaedt@med.unc.edu

2) Education

<u>Institution and Location</u>	<u>Degree/Program</u>	<u>Year</u>	<u>Degree/Focus</u>
Duke University Durham, NC	Post-Doctoral Fellow	2012	RNA biology
Georgetown University Washington, DC	PhD	2008	Microbiology and Immunology
Virginia Tech Blacksburg, VA	BS	2003	Biology
Brooke Pointe High School Stafford, VA	Diploma	1999	

3) Professional Experience – Employment History

2022-	Associate Professor with Tenure, Department of Anesthesiology, University of North Carolina at Chapel Hill, NC. Effective date: March 25, 2022.
2019-2022	Assistant Professor (Tenure Track), Department of Anesthesiology, University of North Carolina at Chapel Hill, NC. (Transitioned to Tenure Track). Effective date: July 1, 2019.
2017-	Member of the Curriculum in Genetics and Molecular Biology, University of North Carolina at Chapel Hill, NC
2012-2019	Research Assistant Professor, Department of Anesthesiology, University of North Carolina at Chapel Hill, Chapel Hill, NC
2011	Lecturer, Department of Biology, University of North Carolina at Chapel Hill, Chapel Hill, NC
2003-2008	Research Fellow, Department of Microbiology and Immunology, Duke University, Durham, NC
1999-2003	Teaching Fellow, Department of Microbiology and Immunology, Georgetown University, Washington, D.C.

Society Memberships:

2020 – Present	USASP (replaced the American Pain Society)
2016 – Present	Society of Biological Psychiatry
2015 – Present	Society for Neuroscience
2013 – Present	RNA Society
2013 – Present	International Association for the Study of Pain
2013 – Present	American Society of Anesthesiologists
2012 – 2019	American Pain Society (replaced by USASP)

4) Honors and Awards

- 2023 NIH HEAL Director's Trailblazer Award from Dr. Rebecca Baker, Director of the National Institutes of Health Helping to End Addiction Long-term Initiative. This was a competitive award that recognizes HEAL-funded researchers in the early to middle stages of their careers who are applying an innovative approach or creativity in their research or are expanding research into addressing the pain and opioid crisis in new directions.
- 2020 Rita Allen Foundation Pain Scholar Award, Rita Allen Foundation. This is a competitive award that funds between two and four proposals each year. Past recipients of the award comprise many leaders in the pain field.
- 2020 Best Poster Award from the UNC School of Medicine Center for Women's Health Research, University of North Carolina at Chapel Hill, Chapel Hill, NC. This recognition and monetary award was presented to Undergraduate student mentee, Esther Son (role: mentor, senior author)
- 2018 Federal Work Study Supervisor of the Year Award Nominee (being nominated places you in the top 2% of Federal Work Study Supervisors), University of North Carolina at Chapel Hill, Chapel Hill, NC
- 2015 Future Leader in Pain, American Pain Society. This award is highly competitive (<10% success rate) and is awarded to two pain researchers in the US each year. My application entitled, "MicroRNA mechanisms mediating chronic pain development after motor vehicle trauma" earned me this distinction in 2015.
- 2015 Special Recognition (and plaque) from the Basic Science Shared Interest Group of The American Pain Society for excellence in research, American Pain Society Annual Meeting, Palm Springs, CA
- 2014 Top abstract award (out of ~450) from the Pain Genetics Committee American Pain Society Annual Meeting, Tampa, FL
- 2011 Top Oral Presentation at the Annual Center for AIDS Research Retreat, Duke University, Durham, NC
- 2008 Gertrude Maengwyn-Davies Award for Most Outstanding PhD Thesis, Georgetown University, Washington, D.C.
- 2005 Best Poster Award at the Centers for Infectious Disease Conference, Georgetown University, Washington, D.C.

5) Bibliography

Refereed Articles

Published Original Research and Review articles

1. Hinojosa CA, Liew A, An X, Stevens JS, ...**Linnstaedt SD**, ... Fani N. (in press). Associations of alcohol and cannabis use with change in posttraumatic stress disorder and depression symptoms over time in recently trauma-exposed individuals. *Psychological Medicine*. Accepted May 16, 2023
2. Branham EM, McLean SA, Deliwala IH, Mauck MC, Zhao Y, McKibben LA, Lee A, Spencer AB, Zannas A, Lechner M, Danza T, Velilla MA, Hendry PL, Pearson C, Peak DA, Jones J, Rathlev NK, **Linnstaedt SD**. CpG methylation levels in HPA axis genes predict chronic pain outcomes following trauma exposure. *Journal of Pain*. 2023 Mar 10:S1526-5900. PMID: 36906051.
3. Zannas AS, **Linnstaedt SD**, An X, Stevens JS, Rubinow DR, Binder EB, Kessler RC, Koenen KC, Ressler KJ, McLean SA. Epigenetic Aging and PTSD Outcomes in the Immediate Aftermath of Trauma. *Psychological Medicine*. 2023 Mar 23:1-10. PMID: 36951141.

Published Abstracts – poster presentations

1. Pang G, Kim R, Lin T, Liu Y, Hendry PL, Kurz MC, Peak DA, Jones J, Rathlev NK, Swor RA, Robert Domeier R, Velilla MA, Lewandowski C, Datner E, Pearson C, Lee D, Mitchell PM, McLean SA, **Linnstaedt**

- SD.** Derivation and validation of risk prediction for posttraumatic chronic pain. *The US Association for the Study of Pain annual scientific meeting*. Durham, NC, April 2023.
2. Arora R, McLean SA, Son E, Lobo J, Zhao Y, Albertorio-Saez L, Wanstrath BJ, Benavides S, Gaither R, Mickelson J, Beaudoin F, **Linnstaedt SD.** Data from humans and animals implicating 17 β -estradiol as a promising therapeutic strategy for the prevention of chronic posttraumatic musculoskeletal pain. *The US Association for the Study of Pain annual scientific meeting*. Durham, NC, April 2023.
 3. Sim J, Monahan K, Sugimoto C, McLean SA, Albertorio-Saez L, Zhao Y, O'Guin E, Dagenais A, Inyang K, Bernard M, Folger JK, Robison A.J., **Linnstaedt SD,** Laumet G, Peripheral Interleukin-10-producing Monocytes Contribute to Sex Differences in Pain Resolution in Mice and Humans. *The US Association for the Study of Pain annual scientific meeting*. Durham, NC, April 2023.
 4. **Linnstaedt SD,** Albertorio-Saez L, Yao X, Zhao Y, Bhatia S, Son E, Kessler R, Koenen K, Ressler KJ, McLean SA. Blood-based biological sample collection and processing in the AURORA study. Poster presentation at the *2023 Society for Biological Psychiatry Meeting*, San Diego, CA. April 2023
 5. McKibben LA, An X, Li Q, Lin T, Burnham L, Ressler KJ, Koenen K, Kessler RC, **Linnstaedt SD,** McLean SA. Derivation and Validation of a Brief Emergency Department-Based Prediction Tool for Persistent Severe Pain after Motor Vehicle Collision Trauma Using Data from the AURORA Study. Poster presentation at the *2023 Society for Biological Psychiatry Meeting*, San Diego, CA. April 2023
 6. McKibben LA, Zhao Y, Mickelson J, Burnham L, Lin T, Wang TW, Lee S, Shih YI, Harnett N, van Rooij S, Stevens J, Jovanovic T, Koenen K, Kessler RC, Ressler KJ, McLean SA, **Linnstaedt SD.** Early life adversity increases risk for posttraumatic chronic pain via enduring hippocampal changes: preliminary evidence from the AURORA cohort and a reverse-translated rodent model. Poster presentation at the *2023 Society for Biological Psychiatry Meeting*. San Diego, CA. April 2023
 7. McKibben LA, McLean SA, Zhao Y, Geranton S, Florea R, Wanstrath B, Kuhl-Chimera S, Deliwala I, Hausch F, **Linnstaedt SD.** RNA expression signatures of the physiological response to traumatic stress exposure in rats reveals insight into *Fkbp5*-mediated posttraumatic chronic pain development. *Poster presentation at the 4th Annual National Institutes of Health HEAL Initiative Investigator Meeting*, Bethesda MD. February 2023.
 8. Stevens JS, **Linnstaedt SD,** Michopoulos V, Seligowski AV, Harnett NG, Lebois LAM, van Rooij SJH, Murty V, Mclean SA, Jovanovic T, Ressler KJ. Estradiol influences on threat neurocircuitry in trauma-exposed women and men. Poster presentation at the 2022 Conference of the *International Society for Traumatic Stress Studies*. Atlanta, GA. November 2022.
 9. McDermott TJ, Webber TK, Noble NC, Merker JB, Hinrichs R, Davie W, Wiltshire C, Ressler KJ, **Linnstaedt SD,** McLean SA, Jovanovic T, Seligowski AV. Estradiol is associated with greater sympathetic activity in trauma-exposed women. Poster presentation at the 2022 Conference of the *International Society for Traumatic Stress Studies*. Atlanta, GA. November 2022.
 10. McKibben LA, Mickelson J, Kuhl-Chimera S, Wanstrath B, McLean SA, **Linnstaedt SD.** microRNA-19 influences posttraumatic chronic pain development via sex-dependent regulation of sleep/circadian rhythm and innate immune pathways: results of a preliminary analysis in humans and animals. Poster presentation at the 2022 Bi-Annual Meeting of the *International Association for the Study of Pain*, Toronto, Canada, September 2022.
 11. McKibben LA, Zhao Y, Mickelson J, Wang T, Lee S, Shih I, Stevens J, McLean SA, and **Linnstaedt SD.** Early life adversity increases risk for posttraumatic chronic pain via enduring hippocampal changes: preliminary evidence from the AURORA cohort and a reverse-translated rodent model. Poster presentation at the 2022 Bi-Annual Meeting of the *International Association for the Study of Pain*, Toronto, Canada, September 2022.
 12. Wanstrath BJ, Deliwala IH, Mickelson J, McLean SA, Zhao Y, Bauder M, Hausch F, **Linnstaedt SD.** Duration of reduction in enduring stress-induced hyperalgesia via FK506-binding protein 51 inhibition depends on timing of administration relative to traumatic stress exposure. Poster presentation at the 2022 Conference of the *US Association for the Study of Pain*. Cincinnati, OH. May 2022.

13. Branham EM, Deliwala IH, Mauck MC, Zhao Y, Lee A, Zannas A, McKibben LA, Spencer AB, Cairns BA, Lechner M, Danza T, Kurz MC, Velilla MA, Hendry PL, Pearson C, Datner E, Peak DA, Jones J, Rathlev NK, Lewandowski C, McLean SA, **Linnstaedt SD**. DNA methylation levels in hypothalamic-pituitary-adrenal axis genes predict chronic pain outcomes following trauma exposure. Poster presentation at the 2022 Conference of the *US Association for the Study of Pain*. Cincinnati, OH. May 2022.
14. Kim R, McKibben LA, Lin T, Pang G, Liu Y, Tungate AS, Hendry PL, Kurz MC, Peak DA, Jones J, Rathlev NK, Swor RA, Domeier R, Velilla MA, Lewandowski C, Datner E, Pearson C, Lee D, Mitchell PM, McLean SA, **Linnstaedt SD**. Risk prediction for posttraumatic stress symptoms following trauma exposure. Poster presentation at the 2022 *Society for Biological Psychiatry Meeting*, New Orleans, LA. April 2022.
15. Polanco K, Li Q, An X, Beaudoin F, Zeng D, Stevens J, **Linnstaedt SD**, Jovanovic T, Neylan T, Clifford GD, Ressler K, Koenen K, Kessler R, McLean SA, for the AURORA Study Group. Anxiety sensitivity is a leading risk factor of severe or widespread pain three months after motor vehicle collision. Poster presentation at the 2022 *Society for Biological Psychiatry Meeting*, New Orleans, LA. April 2022.
16. Lobo JJ, Ayoub L, Moayed M, **Linnstaedt SD**. Hippocampal volume, FKBP5 genetic risk alleles, and childhood trauma interact to increase vulnerability to chronic multisite musculoskeletal pain. Poster presentation at the 2022 *Society for Biological Psychiatry Meeting*, New Orleans, LA. April 2022.
17. Son E, Lobo J, Zhao Y, Arora R, Albertorio L, Stevens J, Jovanovic T, Koenen K, Kessler R, Ressler K, McLean SA, **Linnstaedt SD**. MicroRNA-Mediated Protective Effects of Peritraumatic 17 β -Estradiol on Posttraumatic Chronic Pain in Women. Poster presentation at the 2022 *Society for Biological Psychiatry Meeting*, New Orleans, LA. April 2022.
18. Hernandez H, Rawls A, Wang Y, Zhang X, Chen J, Pan Y, Dang H, Slade G, **Linnstaedt SD**, Parisien M, Diatchenko L, Nackley A. Tissue-specific regulation of miR-374a-5p and its mRNA targets associated with pain in humans and mice. Submitted for presentation at *Society for Neuroscience*, Chicago, IL October 2021.
19. Ayoub LJ, Lobo JJ, **Linnstaedt SD**, Moayed M. Hippocampal volume, FKBP5 genetic vulnerability, and childhood trauma compound risk for chronic multisite pain in the UK Biobank cohort. Submitted for presentation at *Society for Neuroscience*, Chicago, IL October 2021.
20. Son E, Tungate AS, Mauck MC, Pan Y, Witkemper KD, Kurz MC, Hendry PL, Pearson C, Lewandowski C, Datner E, Cairns BA, McLean SA, **Linnstaedt SD**. Peritraumatic Circulating 17 β -Estradiol As a Resiliency Factor for Chronic Pain Outcomes in Women Following Trauma. *Poster presentation* at the 2020 Society for Biological Psychiatry Meeting, New York, NY May 2020.
21. Lobo JJ, Tungate AS, Peak DA, Swor RA, Rathlev NK, Hendry PL, McLean SA, **Linnstaedt SD**. Examination of genetic overlap in vulnerability to posttraumatic chronic pain, stress, and depression symptoms following motor vehicle collision using polygenic risk score analyses. *Poster presentation* at the 2020 Society for Biological Psychiatry Meeting, New York, NY May 2020.
22. Wanstrath BJ, Pazhayam NM, Bauder M, Hausch F, McLean SA, **Linnstaedt SD**. Timing of FKBP51 inhibition following stress exposure influences the duration of reduction in enduring stress-induced hyperalgesia. *Poster presentation* at the 2020 Society for Biological Psychiatry Meeting, New York, NY May 2020.
23. Kim R, Pan Y, Kurz MC, Hendry PL, Pearson C, Lewandowski C, Datner E, Liu Y, McLean SA, **Linnstaedt SD**. Prediction of co-morbid chronic pain and posttraumatic stress: results of a pilot analysis of clinical and microRNA data from a longitudinal cohort of African American trauma survivors. *Poster presentation* at the 2020 Society for Biological Psychiatry Meeting, New York, NY May 2020.
24. Barton C, Mauck MC, **Linnstaedt SD**, Kurz MC, Hendry PL, Pearson C, O'Neil B, Lewandowski C, Datner E, Liberzon I, Domeier R, McLean SA. Immune profile in the immediate aftermath of MVC and its prediction of APNS. *Poster presentation* at the 2020 Society for Biological Psychiatry Meeting, New York, NY May 2020.
25. An X, Ressler KJ, Koenen K, **Linnstaedt SD**, Kessler RC, Zeng D, Mclean SA. Methods of the Aurora Study: A Large-scale, In-depth Study Of The Development Of Chronic Pain And Other Neuropsychiatric Sequelae After Traumatic Stress Exposure. *Poster presentation* at the 2019 American Society of Anesthesiology. Orlando, FL, October 2019.

26. Williams JH, Pan Y, Blount J, Datner E, Hendry PL, Lewandowski C, Pearson C, McLean SA, **Linnstaedt SD**. 17 β -estradiol predicts chronic musculoskeletal pain development following trauma exposure and influences the expression of pain-associated genes. *Poster presentation* at the 2019 American Society of Anesthesiology. Orlando, FL, October 2019.
27. Blount J, Pan Y, Mauck MC, Datner E, Kurz MC, Hendry PL, Lewandowski C, Pearson C, McLean SA, **Linnstaedt SD**. 17 β -estradiol as a predictor and potential mediator of chronic musculoskeletal pain development in women following trauma exposure. *Poster presentation* at the 2019 American Pain Society Meeting in Milwaukee WI, April 2019.
28. Mathew A, Yu S, Pan Y, Kurz MC, Hendry PL, Pearson C, Domeier R, **Linnstaedt SD**, McLean SA. Sex-dependent expression of opioid receptor gene mRNA predicts the development of chronic musculoskeletal pain following motor vehicle collision trauma. *Poster presentation* at the 2018 American Society of Anesthesiologists Meeting in San Francisco, CA, October 2018.
29. **Linnstaedt SD**, Pan Y, Kurz MC, Pearson C, Hendry PL, Lewandowski C, Domeier R, McLean SA. Sex-dependent risk factors of persistent axial pain development following motor vehicle collision trauma: results of a preliminary analysis. *Poster Presentation* at the 2018 International Association for the Study of Pain, Boston MA, September 2018.
30. Chen C, Yu S, Pan Y, Kurz MC, Pearson C, Hendry PL, Lewandowski C, Domeier R, McLean SA, **Linnstaedt SD**. Genes known to escape X chromosome inactivation predict comorbid musculoskeletal pain and posttraumatic stress symptom development in women following trauma exposure. *Poster Presentation* at the 2018 International Association for the Study of Pain, Boston MA, September 2018.
31. **Linnstaedt SD**, Pan Y, Borde A, Mathew A, Kim D, Kim R, Kurz M, Hendry PL, Pearson C, Vililla MA, Lewandowski C, Datner E, Domeier R, Liberzon I, McLean SA. Sex differences in incidence and predictors of depression and posttraumatic stress symptoms among African Americans experiencing motor vehicle collision. *Poster Presentation* at the 2018 Society for Biological Psychiatry Meeting, New York, NY, May 2018.
32. Yu S, Pan Y, Datner E, Kurz MC, Hendry PL, Lewandowski C, Pearson C, Domeier R, McLean SA, **Linnstaedt SD**. *OPRM1* gene expression differentially predicts posttraumatic chronic pain in women and men. *Poster Presentation* at the 2018 American Pain Society Meeting, Anaheim CA, March 2018.
33. **Linnstaedt SD**, Riker KD, Kurz M, Pearson C, Hendry PL, Lewandowski C, Zimny E, Velilla MA, Damiron K, McLean SA. miRNA-320a regulation of *FKBP5* mediates chronic posttraumatic pain vulnerability in an allele-specific manner. *Poster Presentation* at the 2017 Annual American Society for Anesthesiologists Meeting, Boston MA, October 2017.
34. **Linnstaedt SD**, Rueckeis CA, Riker KD, Yu S, Chen C, King T, Lewandowski C, Hendry PL, Pearson C, Kurz M, Damiron K, Domeier R, Liberzon I, McLean SA. microRNA -19b acts as a sex-dependent regulatory hub for PTSD and chronic widespread pain development following trauma exposure. *Poster Presentation* at the 2017 Annual Society for Biological Psychiatry Meeting, San Diego, May 2017.
35. **Linnstaedt SD**, Jung LS, Zhou CY, Mauck MC, Kurz M, Zimny E, Pearson C, Hendry PL, McLean SA. Genetic variants in the circadian rhythm pathway predict PTSD symptoms following trauma exposure. *Poster Presentation* at the 2017 Annual Society for Biological Psychiatry Meeting, San Diego, May 2017.
36. **Linnstaedt SD**, Yu S, Chen C, Kurz M, Pearson C, Hendry PL, Lewandowski C, Domeier R, Damiron K, McLean SA. Expression levels of *XISTRNA* predict PTSD and chronic pain outcomes in women experiencing motor vehicle collision. *Poster Presentation* at the 2017 Annual Society for Biological Psychiatry Meeting, San Diego, May 2017.
37. **Linnstaedt SD**, Harmon E, Riker KD, Nyland JE, McLean SA. Common genetic variations in ADRA2A that influence stress-induced analgesia might be mediated by microRNA-34a. *Poster Presentation* at the 2016 Annual American Society for Anesthesiologists Meeting, Chicago IL, October 2016
38. McLean SA, Wu A, Gonzalez M, Harmon E, Zimny E, Lewandowski C, Hendry PL, Damiron K, Pearson C, Velilla MA, Swor R, Domeier R, **Linnstaedt SD**. The influence of microRNA on chronic pain development after motor vehicle collision may be sex-dependent. *Poster presentation* at the 2016 Bi-Annual Meeting of the International Association for the Study of Pain, Yokohama, Japan, September 2016

39. **Linnstaedt SD**, Wu A, Green P, Levine J, Riker K, Rueckeis C, Yu, S, Zimny E, Lewandowski C, Hendry PL, Damiron K, Pearson C, Velilla MA, Jones J, Swor R, Domeier R, McLean SA. Sex-dependent expression of microRNA -19b predicts chronic widespread pain and posttraumatic stress disorder development following trauma exposure. *Poster presentation* at the 2016 Annual Meeting of the American Pain Society, Austin TX, May 2016
40. Bortsov AV, **Linnstaedt SD**, Velilla MA, Damiron K, Pearson C, Jones JS, Hendry PL, Kurz MC, McLean SA. Vitamin D deficiency is associated with worse overall pain outcomes over time among African Americans experiencing motor vehicle collision. *Poster presentation* at the 2015 Annual Meeting of the American Pain Society, Palm Springs CA, May 2015
41. **Linnstaedt SD**, Riker KD, Nyland JE, Zimny E, Lewandowski C, Hendry PL, Damiron K, Pearson C, Velilla MA, Jones J, Swor R, Domeier R, McLean SA. microRNA 320a is a potential mediator of chronic widespread hyperalgesia development after stress exposure. *Poster presentation* at the 2015 Annual Meeting of the American Pain Society, Palm Springs CA, May 2015
42. **Linnstaedt SD**, McCarthy KR, Riker KD, Kutchko KM, Laederach A, McLean SA. A genetic variant in the glucocorticoid receptor co-chaperone *FKBP5*, associated with chronic pain vulnerability, changes RNA structure and alters binding by miR-320a. *Poster presentation* at the 2014 Bi-Annual Meeting of the International Association for the Study of Pain, Buenos Aires, Argentina, October 2014
43. **Linnstaedt SD**, Walker MG, Parker JS, Sons RL, Velilla MA, Pearson C, O'Neil BJ, Zimny E, Lewandowski CL, Damiron K, Hendry PL, Barnes S, Rosenber M, Hammond SM, McLean SA. Circulating microRNA evaluated in the early aftermath of motor vehicle collision predict widespread pain development in African Americans and provide potential pathogenic insights: results of a preliminary analysis. *Poster presentation* and *Selected for Oral presentation* at the 2014 Annual Meeting of the American Pain Society, Tampa FL, May 2014
44. **Linnstaedt SD**, Walker MG, Bortsov AV, Swor RA, Jones JS, Lee DC, Peak DA, Domeier RM, Rathlev NK, McLean SA. The ADRA2A genetic variant rs3750635 influences extent and severity of acute pain after motor vehicle collision and may do so by regulating microRNA function. *Poster presentation* at the 2014 Annual Meeting of the American Pain Society, Tampa FL, May 2014
45. **Linnstaedt SD**, Walker MG, Bortsov AV, Sons RL, Swor RA, Jones JS, Lee DC, Peak DA, Domeier RM, Rathlev NK, Hammond SM, McLean SA. A genetic variant in ADRA2A is associated with acute pain severity and is a determinant of miR-34a binding efficiency. *Poster presentation* at the 2014 RNA silencing Keystone Meeting, January 31 – Feb 5, Seattle, WA
46. **Linnstaedt SD**, Bortsov AV, Walker MG, Swor RA, Jones JS, Lee DC, Peak DA, Domeier RM, Rathlev NK, McLean SA. A genetic variant in ADRA2A predicts extent of acute pain after motor vehicle collision. *Poster presentation* at the 2013 American Society of Anesthesiologists Annual Meeting, October 12-16, San Francisco, CA
47. **Linnstaedt SD**, Bortsov A, Swor R, Jones J, Lee D, Peak D, Domeier R, Rathlev N, Hendry P, McLean S. Among women with substantial pertraumatic distress after minor motor vehicle collision (MVC), the presence of one or more G alleles at OPRM1 A118G is protective against developing persistent moderate or severe pain. *Poster presentation* at the Annual Meeting of the American Pain Society, New Orleans, LA, May 2013
48. **Linnstaedt SD**, Gottwein E, Luftig M, Cullen B. Virally induced cellular miR-155 plays a key role in B cell immortalization by EBV. *Poster presentation*, The 14th biennial Conference of The International Association for Research on Epstein-Barr Virus and Associated Diseases, Birmingham UK, September 2010.
49. **Linnstaedt SD**, Gottwein E, Luftig M, Cullen B. Epstein-Barr virus (EBV) encoded miR-BHRF1-1 and cellular miR-155 are important for the growth of EBV transformed B cells. *Poster presentation*, 12th International Conference on Malignancies in AIDS and Other Acquired Immunodeficiencies, NIH, Bethesda MD, April 2010.
50. **Linnstaedt SD**, Gottwein E, Luftig M, Cullen B. Epstein-Barr virus (EBV) encoded miR-BHRF1-1 and cellular miR-155 are important for the growth of EBV transformed B cells. *Poster presentation*, Keystone Symposia on RNA silencing: Mechanism, Biology and Application, January 2010.

51. **Linnstaedt SD**, Gottwein E, Luftig M, Cullen B. Epstein-Barr virus (EBV) encoded miR-BHRF1-1 and cellular miR-155 are important for the growth of EBV transformed B cells. *Poster presentation*, CFAR annual retreat, Durham North Carolina, 2009.
52. **Linnstaedt SD**, Casey J. HDV RNA editing, deconstructed. *Poster presentation*, Centers for Infectious Diseases Conference, Georgetown University, Washington DC, 2005.
53. **Linnstaedt SD**, Casey J. The split personality of Hepatitis delta virus. *Poster presentation*. Student Research Days, Georgetown University, 2004.
54. Weaver A, **Linnstaedt SD**, Reichert E, Manfredi M, Street J, Dean A, Meader-Parton J, Popham D. Spore Peptidoglycan synthesis in *Bacillus subtilis spoIV* and *spoV* mutant strains. *Poster presentation*, American Society for Microbiology, Washington DC, 2003.

Invited/Professional Talks

International/National

1. **Linnstaedt SD**. FKBP51 as a promising therapeutic target for posttraumatic chronic pain: insights from humans and animals. Invited research presentation at the annual international FKBP51 meeting. Max Planck Institute of Psychiatry in Munich, Germany. March 16, 2023.
2. **Linnstaedt SD**. Promising therapeutic strategies for the prevention of chronic posttraumatic pain: insights from translational studies in humans and rats. USASP annual meeting, Symposium speaker. Cincinnati, OH. May 20, 2022
3. **Linnstaedt SD**. FKBP51 antagonism to prevent posttraumatic persistent hyperalgesia. 51TaValP meeting. Virtual meeting hosted by investigators at the University of Darmstadt, Darmstadt Germany. April 25, 2022.
4. **Linnstaedt SD**. FKBP51 as a promising therapeutic target for the prevention of chronic posttraumatic pain. 3rd Annual National Institutes of Health HEAL Initiative Investigator Meeting. Symposium speaker. April 12, 2022
5. **Linnstaedt SD**. FKBP51 antagonism to prevent chronic pain. Translational Pain Research Consortium of the Gulf Coast Consortia and the Texas Pain Research consortium. This is a virtual symposium attended by 200-250 scientists each month. March 19, 2021
6. **Linnstaedt SD**. Sex and stress specific molecular mechanisms of chronic pain development following traumatic stress exposure. Invited research presentation to the Neural & Behavioral Sciences Department, Penn State College of Medicine, Hershey PA, February 27, 2020.
7. **Linnstaedt SD**. Predictors and mediators of posttraumatic chronic pain development. Invited research presentation given to the Stanford Department of Anesthesiology, Palo Alto CA, January 23, 2019
8. **Linnstaedt SD** (moderator), Price T (UT-Dallas), Geranton S (UCL). Sex differences in chronic pain: mechanistic insights from humans and animals. Workshop presentation at the 2018 International Association for the Study of Pain (IASP) Meeting in Boston, MA, September 2018.
9. **Linnstaedt SD**. microRNAs as stress and sex dependent mediators of posttraumatic chronic pain. Invited research presentation given to the OHSU Department of Physiology & Pharmacology, Portland OR, January 25, 2018.
10. **Linnstaedt SD**, Riker KD, Kutchko KM, Lackey L, Kurz M, Lewandowski C, Pearson C, Hendry PL, Laederach A, McLean SA. *FKBP5* variant rs3800373 alters *FKBP5* RNA secondary structure and prevents stress-induced microRNA-320a downregulation of *FKBP5*, resulting in glucocorticoid resistance and increased vulnerability to chronic posttraumatic pain. Selected research presentation at the 2017 Annual Society for Biological Psychiatry Meeting, San Diego CA, May 2017.
11. **Linnstaedt SD** (moderator), McLean SA (UNC-CH), Levine J (UCSF). Stress-Induced Persistent Pain: Mechanistic Insights from Humans and Animals. Symposium presentation at the 2016 Annual Meeting of the American Pain Society, Austin TX, May 2016.
12. **Linnstaedt SD**. A genetic variant in the glucocorticoid receptor co-chaperone FKBP5, associated with chronic pain vulnerability, changes RNA secondary structure and alters binding by miR-320a. Invited research

presentation given to the Departments of Anesthesia and Psychology, McGill University, Montreal Canada, February 16, 2016.

13. **Linnstaedt SD**, Yeh E, Walker MG, Sons RL, Zimny E, Pearson C, Velilla MA, Jones J, Swor R, Domeier R, McLean SA. MicroRNA in whole blood as predictors of severe axial pain development following motor vehicle collision trauma. Research presentation at the 2015 American Society of Anesthesiologists Annual Meeting, San Diego, CA, October 24-28, 2015.
14. **Linnstaedt SD**. MicroRNA mechanisms mediating persistent pain development after motor vehicle trauma. Research presentation at the Basic Science SIG Meeting at the 2015 Annual Meeting of the American Pain Society, Palm Springs CA, May 2015.
15. **Linnstaedt SD**, Walker MG, Parker JS, Sons RL, Velilla MA, Pearson C, O'Neil BJ, Zimny E, Lewandowski CL, Damiron K, Hendry PL, Barnes S, Rosenber M, Hammond SM, McLean SA. Circulating microRNA evaluated in the early aftermath of motor vehicle collision predict widespread pain development in African Americans and provide potential pathogenic insights: results of a preliminary analysis. Research presentation at the Annual Meeting of the American Pain Society, Tampa FL, May 2014. *Awarded the Junior Investigator Poster Award from the Genetics and Pain Shared Interest Group of the American Pain Society.
16. **Linnstaedt SD**, Casey J. Specific nucleotides within the HDV genotype III editing structure determine RNA folding dynamics and editing efficiency. Research presentation at the Annual meeting on the Molecular Biology of Hepatitis B viruses, Rome Italy, July 2007.
17. **Linnstaedt SD**, Casey J. RNA editing in hepatitis delta virus genotype III is controlled by RNA structural dynamics and substrate quality. Research presentation at the RNA society meeting, Seattle WA, July 2006.
18. **Linnstaedt SD**, Casey J. RNA secondary structural dynamics regulate Hepatitis delta virus editing levels. Research presentation at the RNA meeting group of the National Institutes of Health, Bethesda MD, April 2006.
19. **Linnstaedt SD**, Casey J. RNA structural dynamics and RNA editing in Hepatitis delta virus genotype III. Research presentation at the American Society for Virology, 24th annual meeting, Penn State University, State College PA, May 2005.

Regional/Local

20. **Linnstaedt SD**. Science of Stress and Prior Life Trauma on Chronic Pain Outcomes following Injury. Invited research presentation at the Pain Society of the Carolinas 2022 Annual Meeting and Scientific Sessions, Asheville North Carolina, September 23, 2022.
21. **Linnstaedt SD**. Molecular risk predictors of chronic pain following traumatic stress: path to preventative interventions. Invited research presentation at the Pain Society of the Carolinas 2020 Annual Meeting and Scientific Sessions, Asheville North Carolina, September 18, 2020 *Due to COVID-19, this conference was conducted virtually and my talk was live recorded and uploaded to the meeting website.
22. **Linnstaedt SD**. Towards the identification of novel therapies to treat chronic pain following trauma using translational animal models of stress induced hyperalgesia. Research presentation at the Institute for Trauma Recovery, University of North Carolina at Chapel Hill, January 31, 2020.
23. **Linnstaedt SD**, Mauck MC, McLean SA. Translational biology of chronic pain development. Research presentation, Anesthesiology Grand Rounds, UNC-CH Medical School, March 6, 2019.
24. **Linnstaedt SD**, Mauck MC, McNaull P. Genetic and molecular mechanisms mediating stress-induced persistent pain development. Research presentation, Anesthesiology Grand Rounds, UNC-CH Medical School, September 7, 2016.
25. **Linnstaedt SD**. MicroRNAs and Their Role in Pain Pathogenesis. Review of the research field for the Pain Didactic Series, Department of Anesthesiology, UNC-CH Medical School, February 10, 2015.
26. **Linnstaedt SD**. MicroRNA mechanisms mediating persistent pain development after motor vehicle trauma. Invited research presentation given to the Center for Pain Research and Innovation in the UNC School of Dentistry, Chapel Hill North Carolina, December 4, 2015.

27. **Linnstaedt SD**, Bortsov AV, McLean SA. Understanding molecular mechanisms of chronic pain development following stressful/ traumatic events. Research presentation, Anesthesiology Grand Rounds, UNC-CH Medical School, June 25, 2014.
28. **Linnstaedt SD**, Kornepati A, Esoda C, Skalsky R, Cullen B. miR-155 targeting of c-FOS mRNA plays a role in preventing apoptosis in EBV induced lymphomas. Research presentation at the Center for AIDS Research Annual Retreat, Duke University, Durham NC, September 2011.
29. **Linnstaedt SD**, Gottwein E, Luftig M, Cullen B. Virally induced cellular miR-155 plays a key role in B cell immortalization by EBV. Research presentation at the MGM department Annual Retreat, Duke University, Durham NC, September 2010.

Media Coverage

Print/Web

- 2019 Pain Research Forum article published May 6, 2019 “A Search for Blood Biomarkers of Pain”, interviewed about the utility of blood biomarkers and to comment on a recently published piece by [Niculescu et al.](#)
- 2019 Nature article by science writer Amber Dance published March 27, 2019 “Why the sexes don’t feel pain the same way”, interviewed about recent findings regarding RNA expression differences in X chromosome gene transcripts driving chronic pain in women following trauma exposure: [Nature](#)
- 2019 Wall Street Journal article published February 7, 2019 “A New Prognosis for Pain Care”, Interviewed about recent findings regarding genetics of pain development: [WSJ](#)
- 2018 NIH Director Francis Collins’ Blog article published September 4, 2018. Coverage related to [FKBP5 paper](#) published in the Journal of Neuroscience: [NIH Director's Blog](#)
- 2018 The Conversation article published August 27, 2018 “Chronic pain after trauma may depend on what stress gene variation you carry”, invited to write a public interest news piece related to [FKBP5 paper](#) published in the Journal of Neuroscience: [The Conversation](#)
- 2017 Pain Research Forum article published February 28, 2017 “Young Investigator Spotlight”, Interviewed about research for an international forum for pain researchers: [PRF Interview](#)
- 2016 PainMedicineNews article published March 28, 2016 “MicroRNA in blood may predict post-trauma pain, press for a study showing a microRNA signature that predicts chronic pain development following motor vehicle collision trauma: [PainMedicineNews](#)
- 2012 News and Views in Epigenomics article published in 2012 (4(1), 9–12) “A step forward in miRNA diagnostics: new and improved protocols for miRNA measurement”, highlighting a publications describing an improved protocol for measuring miRNA as a diagnostic marker: [Epigenomics](#)

6) Teaching Activities

Research Mentorship

Postdoctoral Scholars

2021-Present Lauren A. McKibben, PhD., Behavioral Neuroscience. Dissertation: “Genome-Wide miRNA Regulation of Stress Susceptibility Across the Brain in a Rodent Model of Early Life Stress” Currently funded on a T32 as part of the Trauma Research Fellowship Program, Department of Surgery, University of North Carolina at Chapel Hill. Research focus: “Neurobiological correlates of chronic post-traumatic pain in individuals with a history of early life adversity”. Role: Primary research mentor.

Graduate Students

2021-Present Erica Branham, PhD candidate, Department of Genetics and Molecular Biology (GMB), University of North Carolina at Chapel Hill. Role: Primary thesis research mentor (Erica is currently supported by a T32 fellowship through the UNC GMB program to perform studies

focused on how adversity influences epigenetic mechanisms leading to chronic pain development following trauma exposure).

- 2021-Present Rachel Gaither, PhD candidate, Department of Epidemiology, Brown University School of Public Health. Role: Thesis Committee Member, Primary mentor for F31.
- 2019-2021 Raphael Kim, Masters candidate, Department of Mathematics and Computational Biology, University of North Carolina at Chapel Hill. Role: Research mentor
- 2017-2020 Yue Pan, PhD candidate, Department of Statistics, University of North Carolina at Chapel Hill. Role: Primary research mentor
- 2013-2017 Katrina Kutchko PhD, Department of Biology, University of North Carolina at Chapel Hill, Thesis: From neurons to nucleic acids: spatio-temporal emergent behaviors of complex biological systems. Role: Thesis Committee Member

Anesthesiology Residents

- 2017 Anita Mathew, MD, Department of Anesthesiology, University of North Carolina at Chapel Hill, Role: Research advisor for Resident research rotation, Fall 2017

Medical Students

- 2022 Jarred Lobo, First Year Medical Student, University of North Carolina at Chapel Hill
- 2020 Anjana Kumar, Fourth Year Medical Student, University of North Carolina at Chapel Hill
- 2018 Sara Feldman, Fourth Year Medical Student, University of North Carolina at Chapel Hill
- 2016 Suleman Sheikh, First Year Medical Student, West Virginia School of Osteopathic Medicine, Lewisburg, WV
- 2016 Christine Zhou, First Year Medical Student, Campbell University School of Osteopathic Medicine, Lillington, NC
- 2015 Karan Koyani, Second Year Medical Student, University of North Carolina at Chapel Hill
- 2015 Michael Gonzalez, First Year Medical Student, University of North Carolina at Chapel Hill
- 2015 Evan Harmon, First Year Medical Student, University of North Carolina at Chapel Hill

Undergraduate Students

- 2021-Present Simran Bhatia, Junior Undergraduate Student, UNC-CH
- 2020-Present Sophia Kuhl-Chimera, Junior Undergraduate Student, UNC-CH
- 2019-Present Tina Lin, Senior Undergraduate Student, UNC-CH
- 2019-Present Ishani Deliwala, Senior Undergraduate Student, UNC-CH, awarded a competitive Undergraduate Research Fellowship that provides funding for a summer to perform research at The University of North Carolina. 2021 Awardee, funded proposal entitled: “Determining whether 17- β -estradiol and STX prevent chronic pain after traumatic stress exposure” (Role: primary mentor)
- 2018-Present Rhea Arora, Junior Undergraduate Student, UNC-CH (started as a high-school student)
- 2018-2022 YeEun (Esther) Son, currently a medical student, UNC-CH, awarded a competitive research poster award from the UNC School of Medicine Center for Women’s Health Research, University of North Carolina at Chapel Hill, Chapel Hill, NC. Currently a medical student at Northwestern University
- 2019-2021 Aaron Lee, Junior Undergraduate Student, UNC-CH
- 2018-2021 Gehao (Leo) Pang, Junior Undergraduate Student, UNC-CH, awarded a competitive Undergraduate Research Fellowship that provides funding for a summer to perform research at The University of North Carolina. 2020 Awardee, funded proposal entitled: “Tissue specificity and timing of post-stress expression of the chronic pain-associated protein FKBP51” (Role: primary mentor)
- 2018-2021 Jarred Lobo, currently a medical student, UNC-CH, awarded a competitive Undergraduate Research Fellowship that provides funding for a summer to perform research at The University of North Carolina. 2019 Awardee, funded proposal entitled: “Determining genetic risk for

- posttraumatic chronic pain and related neuropsychiatric disorders using polygenic risk scores” (Role: primary mentor)
- 2017-2019 Raphael Kim, currently a Graduate student, Harvard University
- 2017-2019 Jameson Blount, currently a PhD student, Duke University, awarded a competitive Undergraduate Research Fellowship that provides funding for a summer to perform research at The University of North Carolina. 2018 Awardee, funded proposal entitled: “Examination of key circadian rhythm genes and transcripts as predictors of chronic pain development following trauma exposure” (Role: primary mentor)
- 2016-2019 Connie Chen, currently a Masters student, Boston University, awarded a competitive Undergraduate Research Fellowship that provides funding for a summer to perform research at The University of North Carolina. 2017 Awardee, funded proposal entitled: “Exploration of a key mechanism causing chronic pain and PTSD in women following trauma exposure” (Role: primary mentor)
- 2014-2019 Matthew Carson, currently a student in Master’s in Public Policy, UNC-CH
- 2017-2018 Dongjin Kim, Graduate in Statistics and Mathematics, UNC-CH
- 2015-2018 Shan Yu, currently attending dental school, U Penn, awarded a competitive Undergraduate Research Fellowship that provides funding for a summer to perform research at The University of North Carolina. 2017 Awardee, funded proposal entitled: “Altered microRNA expression due to 17- β -estradiol regulation predict chronic musculoskeletal pain in women experiencing motor vehicle collision” (Role: primary mentor)
- 2015-2018 Cathleen Rueckeis, currently attending medical school, UNC-CH, awarded a competitive Undergraduate Research Fellowship that provides funding for a summer to perform research at The University of North Carolina. 2016 Awardee, funded proposal entitled: “microRNA-19b is a Potential Mediator of Adverse Posttraumatic Sequelae Following Motor Vehicle Collision” (Role: primary mentor)
- 2014-2017 Lindsey Jung, current Masters student in Biostatistics, Boston College
- 2013-2017 Kyle Riker, currently an MD PhD student, UNC-CH, awarded a competitive Undergraduate Research Fellowship that provides funding for a summer to perform research at The University of North Carolina. 2015 Awardee, funded proposal entitled: “The development of widespread pain after stress exposure is potentially regulated by microRNA 320a” (Role: primary mentor)
- 2015-2016 Alan Wu, current Masters student in Biostatistics, Columbia University
- 2014-2015 Eunice Yeh, current PhD student in biostatistics, Harvard University
- 2012-2015 Margaret Walker, awarded a competitive Undergraduate Research Fellowship that provides funding for a summer to perform research at The University of North Carolina. 2013 Awardee, funded proposal entitled: “The interaction between mir-34a and adrenergic alpha-2A as a mechanistic explanation for post-traumatic pain variability” (Role: primary mentor)
- 2012-2014 Kathleen McCarthy, current Research Assistant, Professional Sector
- 2010-2012 Caitlin Esoda, current Graduate Student, Duke University
- 2010-2012 Anand Kornepati, current MD PhD student, Texas A&M

Instructional

Resident Teaching

- 2014-Present Academic Medicine Rotation lecture, “Critical appraisal of the literature”, Department of Anesthesiology, University of North Carolina at Chapel Hill, Chapel Hill, NC.
- 2021 Resident Journal Club, Debate style format, Department of Anesthesiology, University of North Carolina at Chapel Hill, Chapel Hill, NC

Medical Student Teaching

- 2016-Present Course Director and student mentor, ANES403/403b Anesthesiology Research, University of North Carolina at Chapel Hill

2015 Lecturer, “MicroRNA and their role in pain pathogenesis”, Pain Didactic Lecture Series
2003 – 2008 Teaching Assistant, Medical Microbiology Laboratory Class, Georgetown University

Graduate Student Teaching

2017 GNET703 Curriculum in Genetics and Molecular Biology Student Seminar Series, University of North Carolina at Chapel Hill Department of Genetics
2011 MGM252 Virology and Viral Oncology – Lecturer, “Viral MicroRNAs” Duke University
2006 – 2007 MICB619 Biology and Biochemistry of Viruses – Lecturer, “Hepatitis D Virus”, “Prions”, “Herpes Viruses” Georgetown University

Undergraduate Student Teaching

2011 BIOL 202 Human Genetics – Lecturer, MWF class of 150 students, 9 weeks, UNC Chapel Hill

7) Grants

Pending

TITLE: Sex-dependent microRNA-mediated pathways to chronic musculoskeletal pain following trauma

Grant Type (or Number): R01AR081454
Grant Amount: \$2,786,520
Funding Agency: NIH/NIAMS
Grant Period: 2023-2028
Grant Status: PENDING
Principal Investigator: Sarah Linnstaedt (20% effort)

Current

TITLE: Repurposing estrogen-containing emergency contraceptives for the prevention of chronic pain following sexual assault

Grant Type (or Number): US Based Clinical Repurposing Trials to Address Diversity, Equity and Inclusion
Grant Amount: \$85,000
Funding Agency: Cures Within Reach
Grant Period: 2023-2025
Grant Status: AWARDED
Principal Investigator: Sarah Linnstaedt (0% effort)

TITLE: Exploring the relationship between neurosteroids and chronic pain in military veterans

Grant Type (or Number): Intergovernmental Personnel Act
Grant Amount: \$240,000
Funding Agency: Duke/Durham Department of Veterans Association
Grant Period: 2022-2024
Grant Status: AWARDED
Principal Investigator: Sarah Linnstaedt (60% effort)

TITLE: Diversity Supplement to FKBP51 antagonism to prevent chronic pain: optimizing efficacy & evaluating safety and mechanisms R01NS118563

Grant Type (or Number): R01NS118563- 01A1S1
Grant Amount: \$59,081
Funding Agency: NIH/NINDS
Grant Period: 2022-2023
Grant Status: AWARDED
Principal Investigator: Sarah Linnstaedt (0% effort)

Funded Individual: Liz Albertorio-Saez

TITLE: Discovering DIagnostics, SubtypEs, and NaTurAl history of traumatic brain iNjury (TBI) vs. non-TBI Recovery to Gain MiLitary advantage (DISENTANGLE)

Grant Type (or Number): Proposal No. TP210026, Award No. Pending

Grant Amount: \$8,000,000

Funding Agency: Congressionally Directed Medical Research Programs, US Army Medical Research & Development Command

Grant Period: 2022-2027

Grant Status: AWARDED

Principal Investigator: Samuel McLean

Role: Co-I (10% effort)

TITLE: FKBP51 antagonism to prevent chronic pain: optimizing efficacy & evaluating safety and mechanisms

Grant Type (or Number): R01NS118563

Grant Amount: \$3,317,472

Funding Agency: NIH/NINDS

Grant Period: 2020-2025

Grant Status: AWARDED

Principal Investigator: Sarah Linnstaedt (20% effort)

TITLE: FKBP51 inhibition to prevent chronic pain following traumatic stress

Grant Type (or Number): Rita Allen Award in Pain

Grant Amount: \$150,000

Funding Agency: Rita Allen Foundation

Grant Period: 2020-2023

Grant Status: AWARDED

Principal Investigator: Sarah Linnstaedt (0% effort)

Completed

TITLE: microRNA expression signatures as biomarkers of posttraumatic stress

Grant Type (or Number): Fox Foundation

Grant Amount: \$25,000

Funding Agency: Fox Companies

Grant Period: 2018-2022

Grant Status: COMPLETED

Principal Investigator: Sarah Linnstaedt (0% effort)

TITLE: Longitudinal Assessment of Post-traumatic Syndromes

Grant Type (or Number): U01MH110925

Total Grant Amount: \$21,007,052

Funding Agency: NIH/NIMH

Grant Period: 2016-2022

Grant Status: COMPLETED

Principal Investigator: Samuel McLean

Role: Co-I (5% effort)

TITLE: Key molecular mechanisms of chronic pain vulnerability in women experiencing MVC

Grant Type (or Number): K01AR071504

Grant Amount: \$502,434
Funding Agency: NIH/NIAMS
Grant Period: 2018-2022
Grant Status: COMPLETED
Principal Investigator: Sarah Linnstaedt (75% effort)

TITLE: Tissue specificity and timing of post-stress expression of the chronic pain-associated protein FKBP51
Grant Type (or Number): Pilot projects in UNC biomedical research cores
Grant Amount: \$7,049
Funding Agency: UNC School of Medicine
Grant Period: 2020-2021
Grant Status: COMPLETED
Principal Investigator: Sarah Linnstaedt (0% effort)

TITLE: Measurement of circulating protein analytes in multiplex from human and animal biological samples
Grant Type (or Number): Research Infrastructure Grant
Total Grant Amount: \$21,524
Funding Agency: UNC School of Medicine Office of Research
Grant Period: 2019
Grant Status: COMPLETED
Principal Investigator: Sarah Linnstaedt (0% effort)

TITLE: Supplement to "Influence of PTSD Symptoms on Chronic Pain Development after Sexual Assault"
Grant Type (or Number): Foundation
Grant Amount: \$179,560
Funding Agency: Mayday Fund
Grant Period: 2014-2019
Grant Status: COMPLETED
Principal Investigators: Sarah Linnstaedt and Samuel McLean

TITLE: Assessing 17 β -estradiol levels in women and men following trauma exposure
Grant Type (or Number): Research Infrastructure Grant
Total Grant Amount: \$7,289
Funding Agency: UNC School of Medicine Office of Research
Grant Period: 2018
Grant Status: COMPLETED
Principal Investigator: Sarah Linnstaedt (0% effort)

TITLE: Assessing stress induced hyperalgesia in rats using analgesia and thermal plantar meters
Grant Type (or Number): Research Infrastructure Grant
Total Grant Amount: \$7,996
Funding Agency: UNC School of Medicine Office of Research
Grant Period: 2017
Grant Status: COMPLETED
Principal Investigator: Sarah Linnstaedt (0% effort)

TITLE: MicroRNA mechanisms mediating chronic pain development after motor vehicle trauma
Grant Type (or Number): Future Leaders in Pain Grant
Grant Amount: \$20,000
Funding Agency: The American Pain Society

Grant Period: 2015-2016
Grant Status: COMPLETED
Principal Investigator: Sarah Linnstaedt (0% effort)

TITLE: microRNA as mediators of chronic pain development following Motor Vehicle Collision

Grant Type (or Number): IBM Junior Faculty Development Award
Grant Amount: \$7,500
Funding Agency: University of North Carolina, Chapel Hill
Grant Period: 2014-2015
Grant Status: COMPLETED
Principal Investigator: Sarah Linnstaedt (0% effort)

TITLE: Defining the role of virally -encoded and virally -induced microRNAs in B-cell immortalization by EBV

Grant Type (or Number): T32 AI007392-23
Funding Agency: NIAID Interdisciplinary Research Training Program in AIDS
Grant Period: 2009-2012
Grant Status: COMPLETED
Principal Investigators: Charles Hicks
Role: Fellowship Awardee (75% effort)

8) Professional Service

Committees

International Committees

2021- Guest editor, Frontiers in Pain Research- Topic on stress and pain.
2021- Guest editor, Frontiers in Pain Research- Topic on gene regulation/miRNA.

National Committees

2015-2018 Reviewer for Future Leaders in Pain Grant offered through the American Pain Society. Assigned between 3 and 5 grant proposals to review each year. Review process and committee meeting are organized/run similarly to NIH grant reviews.

Local Committees

2022 Reviewer for Summer Undergraduate Research Fellowship awards. Assigned sixteen grants to review for priority funding.
2017- Co-Vice Chair for the Departmental Research Committee, UNC Department of Anesthesiology
2018, 2019 Poster session judge for UNC Women in Science Annual Symposium, Chapel Hill, NC
2016 Ad hoc grant reviewer, Gillings Innovation Labs Grant, UNC School of Public Health.
2016 Resident research project grant reviewer, UNC Department of Anesthesiology
2011 Career mentor at North Carolina School of Science and Mathematics, Durham, NC
2010 Research project judge for North Carolina Regional Science Fair (for High School students), Raleigh, NC

Journal Reviewer (last three years only: 2018-2021)

Molecular Psychiatry, Translational Psychiatry, Biological Psychiatry, PAIN, RNA, Journal of Pain, Molecular Pain
