COVER:

- **Platelets contribute to venous thrombosis in mice through GPCR and ITAM receptors**
(p 3194)
- **Mutant HEATR3 identified as a novel cause of Diamond-Blackfan anemia**
(p 3101, p 3111)
- **Long-term efficacy and safety of zanubrutinib for mantle cell lymphoma**
(p 3103, p 3148)
- **Role of the actin cytoskeleton in neutrophil extracellular trap formation**
(p 3104, p 3166)
- **HMGB1 restricts EPO signaling in anemia of inflammation**
(p 3106, p 3181)
- **How I Treat: chronic-phase chronic myelogenous leukemia**
(p 3138)
