

BIOC 701 Critical Analysis in Biochemistry

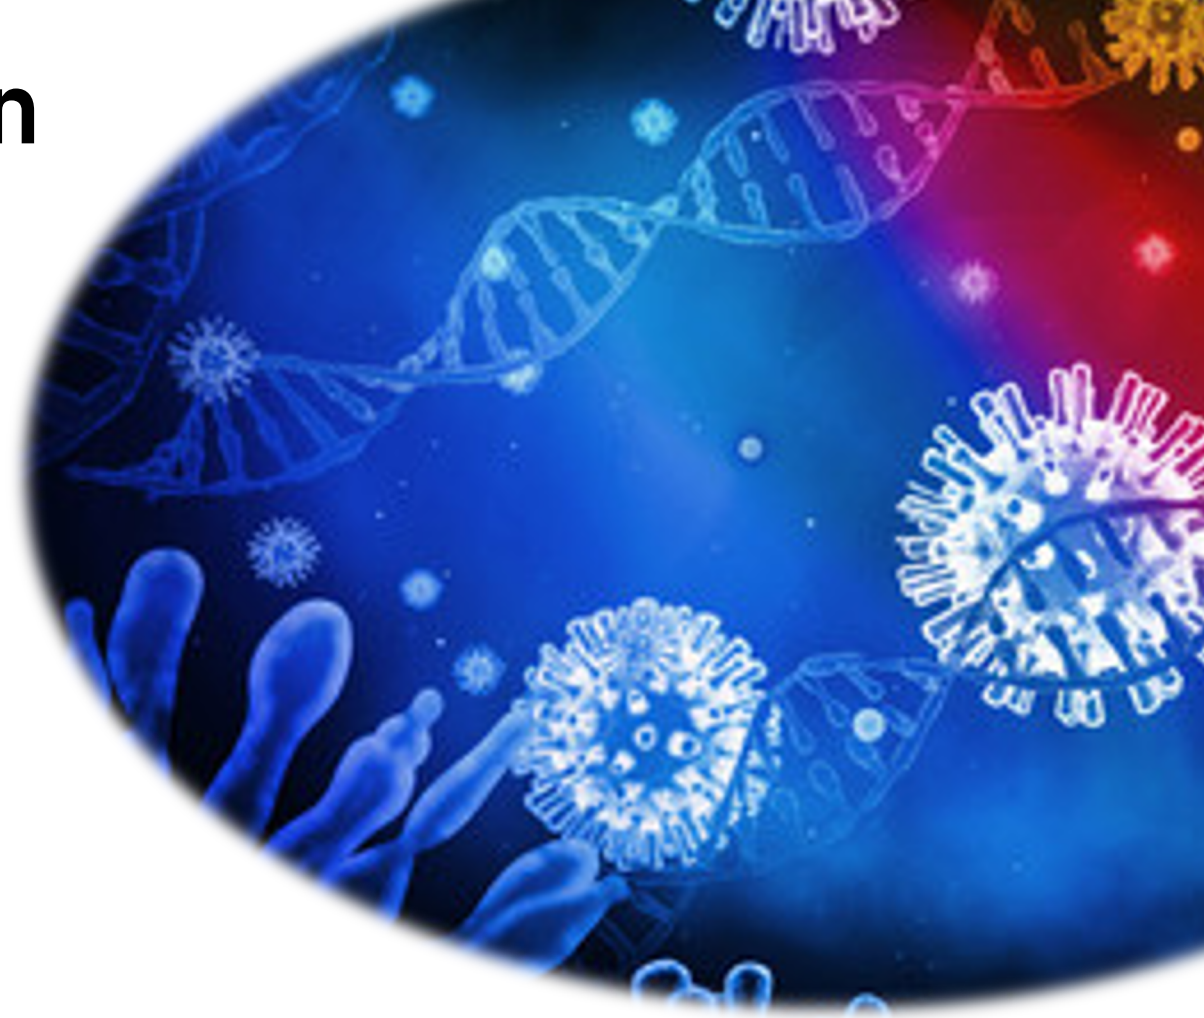

Instructors: Brian Button (brian_button@med.unc.edu)
Garoav Gupta (gaorav_gupta@med.unc.edu)

Course: Monday, 12:00pm - 1:30pm

Seminar: Tuesday, 11:00am - 12:00pm

BIOC 701 focuses on in-depth discussion of research carried out by invited speakers in the Biochemistry Department Seminar Series. Students participate in discussions to delve further into the seminar speaker's research and career path and to acquire advice on professional development.

This course is an excellent venue for gaining proficiency in evaluating experiments and identifying shortcomings, limitations and alternative interpretations of publications, for gaining skills in giving research-based talks, and for becoming familiar with current research areas, novel, state-of-the-art experimental methods, and standard laboratory techniques.
