

# Hettleman | TALKS

**October 24 at 3PM**  
in the Tate-Turner-Kuralt Auditorium

Meet us in the **Tate-Turner-Kuralt Auditorium** to enjoy five 15-minute presentations by recipients of the **Phillip and Ruth Hettleman Prizes for Scholarly Achievement**. The talks will provide an engaging look into these distinguished early career scholars' work on the behavior of Laplace eigenfunctions, antibiotic resistance, cancer biology, epistemology, and analyzing literature in history. **Refreshments to follow.**

**Yaiza Canzani**

*Department of Mathematics*

**Connecting quantum and classical dynamics:** studying the Laplace spectrum

**Brian Conlon**

*Department of Microbiology & Immunology*

**Re-energizing antibiotics:** Treatment failure, bacterial metabolism, and the host immune response.

**Pengda Liu**

*Department of Biochemistry & Biophysics*

**LEtcancerGO**

**Alex Worsnip**

*Department of Philosophy*

**Covert Value Judgments in Expert Testimony**

**Danielle Christmas**

*Department of English & Comparative Literature*

**White Nationalist Literature at the End Times**

**Angel Hsu**

*Department of Public Policy Environment, Ecology & Energy Program*

*Hsu will present her work at a later date.*
