

Cell Biology and Physiology Curriculum - Committee Meeting Report

<b>Student:</b>	<p>This should be completed by the <b>Committee Chair</b> during the meeting in consultation with the rest of the committee. The contents of the report should be discussed with the student.</p> <p>Completed reports must be submitted to the Student Services Manager (<a href="mailto:zachary.williamson@med.unc.edu">zachary.williamson@med.unc.edu</a>) for <u>proper recording keeping in the student's file.</u></p>
<b>Committee Chair:</b>	
<b>Meeting date:</b>	

Each committee member ranks the student's progress relative to where a student is expected to be **at their current stage** in their PhD training below. (*i.e.* it is expected for early-stage students to still need improvement in areas above and still be meeting expectations).

Committee Member	Exceeding Expectations	Meeting Expectations	Needs Improvement

## Cell Biology and Physiology Curriculum - Committee Meeting Report

### **Comments on Student's progress to this point in their PhD training:**

*Comment on the student's research progress among general comments on the student's progress.*

### **Student's progress toward first author publication:**

*CBP requires all students to have formally accepted first author publication before their defense can be scheduled*
