

GENOME.TV **DINNERS**

(Okay, lunches.)

From the NHGRI Genomics and Health Disparities Lecture Series

MAKING PRECISION MEDICINE SOCIALY PRECISE

Esteban González Burchard, M.D., M.P.H.

Director of the UCSF Asthma Collaboratory, a large inter disciplinary research program focusing on minority children and gene-environment interactions for asthma.

GenomeTV is a repository of videos maintained by the National Human Genome Research Institute (NHGRI). They include NHGRI lectures, meetings, advisory sessions and other events related to genomics research.

Each month the Center for Genomics and Society and the Program for Precision Medicine in Healthcare will partner to host a Lunch and Learn session that focuses on one of the lectures.

WHEN: Jan. 13 | 12:00pm

WHERE: MacNider 340

RSVP: Jan. 9

to kriste.kuczynski@unc.edu

*(We won't be serving these,
but we will provide lunch.)*
