

# **Are you an autistic or non-autistic adult aged 55+ old who lives in North Carolina?**

Participate in a virtual research study looking at how social and community connections relate to mental health in autistic and non-autistic adults ages 55 and older.

## **Our study lasts up to 3 weeks and involves:**

- Online surveys
- 2 video interviews
- Carrying a GPS tracker & completing social diaries for 1 week
- Up to \$100 in compensation

You can participate in the video interviews verbally or non-verbally (using the chat function).

## **To see if you might be eligible, please contact us at:**
