

A STUDY COMPARING TWO MENTAL HEALTH THERAPIES AMONG AUTISTIC ADULTS

Research Participation Opportunity for Autistic Adults (Age 18+)
Living in North Carolina and Experiencing
Depression and/or Anxiety

WHAT DOES THE STUDY INVOLVE?

- You will be participating in a virtual therapy provided by a TEACCH therapist at no cost.
- Answering questions about your mental health at three virtual assessment visits.
- Receiving \$50 for each assessment visit, for a total of \$150.

ASSESSMENT 1

-  Before therapy program starts
-  2-3 hours

THERAPY PROGRAM

-  Up to 18 weeks
-  1-2 hours a week

ASSESSMENTS 2 & 3

-  End of therapy program
and 6 months later
-  1-2 hours each

*Participation is voluntary.
You can leave the study at any time.*
