

Join a study of early language development!

WE ARE LOOKING FOR FAMILIES WHO RECEIVE GOVERNMENT ASSISTANCE TO PARTICIPATE IN RESEARCH

Purpose

- To understand language growth over time in autism

Who Will Participate

- Enrolling children 18-21 months old with autism or waiting on an autism diagnosis who use few or no words

What Participants Will Do

- Complete online surveys
- Participate in 3 home visits for us to complete play-based assessments with your child and look at their brain activity
- Each visit will take up to 9 hours of your time, including completing surveys and the in-home visit

Compensation

- You will receive \$100 for the first study visit and up to \$375 for completing all three study visits
- You will receive developmental information about your child
