

ELIGIBLE UNC CORE FACILITIES

Eligibility lists are reviewed annually with input from the SOM Office of Research. If you are interested in using a core not on this list contact ORT at corefacilities@med.unc.edu to discuss eligibility)

- Abacus Evaluation
- Advanced Analytics Core
- Animal Models Core
- Bioinformatics and Research Collaborative (BARC)
- Biomedical Research Imaging Center Cores (Preclinical Molecular Imaging, Small Animal MRI, Human Imaging, Radiochemistry, and Image Storage and Analysis)
- Biomolecular NMR Core
- Biospecimen Processing Facility
- BRAIN Initiative Viral Vector Core (NeuroTools)
- Cardiovascular Physiology and Phenotyping Core
- Carolina Microscopy
- CFAR Cores (Social and Behavioral, HIV/STD Laboratory, Clinical Pharmacology and Analytical Chemistry)
- CGIBD Histology Core
- Clinical Genomic Analysis (GENYSIS) Core
- CRISPR Core
- Cryo-EM Core Facility
- Electrophysiology Core
- Flow Cytometry Core Facility
- High-Throughput Sequencing Facility
- High-Throughput Peptide Synthesis & Array Facility
- Histology Research Core Facility
- Human Pluripotent Stem Cell Core
- Lenti shRNA Core
- Macromolecular Crystallography Core Facility
- Macromolecular Interactions Facility
- Mammalian Genotyping Core
- Marsico Tissue Procurement and Cell Culture Core
- Mass Cytometry and Cell 'Omics Core Facility
- Michael Hooker Metabolomics and Proteomics (MAP) Core
- Microbiome Core
- Mouse Behavioral Phenotyping Core
- National Gnotobiotic Rodent Resource Center
- NC TraCS
- Pathology Services Core
- Patient-Reported Outcomes (PRO) Core
- Preclinical Research Unit
- Pulmonary and Inhalation Research Core
- Research Radiation Core
- Respiratory TRACTS Core
- R.L. Juliano Structural Bioinformatics Core
- Systems Genetics Core
- Tissue Culture Facility
- Tissue Procurement Facility
- Translational Genomics Lab
- Vironomics Core
