

# AURAL REHABILITATION RESOURCE GUIDE

## RESOURCES AVAILABLE FOR PURCHASE

### LISTENING UP!

- A 3 Audio CD series with training exercises, workbook, and answer book
- CD 1: Listening Training for Beginners; CD 2: Advanced Listening Training; CD 3: Music Training
- Available on CDs from MED-EL (\$20/each)

### AUDITRAIN

- A training program designed to help cochlear implant users improve their communication skills
- Question and answer exercises, lists of common sentences around a central theme, word matrices and other exercises designed to help CI users optimize the use of their cochlear implant in everyday situations
- Available in CD-ROM format from MED-EL (\$110.00)

### HEAR AT HOME

- Developed to meet the needs of people with cochlear implants who require training and support, but who are without easy or ready access to trained therapists
- Designed for home use with family members and/or friends as the talkers
- Speech sounds are introduced in words and sentences. Exercises provide practice in the recognition of connected speech
- Available in CD-ROM format from MED-EL (\$70.00)

### LACE: Listening and Communication Enhancement

- This auditory training program retrains the brain to comprehend speech in difficult listening situations such as noisy environments, rapid and competing speakers. This is a very challenging program.
- LACE Home Edition Software, \$99
- LACE Online Version, \$79
- [www.neurotone.com](http://www.neurotone.com)

### READ MY QUIPS

- Innovative training program specially designed to help you face these challenges in a fun and creative way by listening to auditory clues to solve puzzles with increasing levels of background noise
- Starter Version, \$39
- Full Version, \$99
- <http://www.sensesynergy.com/>

## FREE RESOURCES AVAILABLE ONLINE

### ANGEL SOUND

- FREE Interactive Listening Rehabilitation and Functional Hearing Test Program for adults and teens
- A self-paced rehabilitation program that allows you to practice and perfect your listening skills at home.
- Angel Sound™ is an **UPGRADED** and **FREE** version of “**Sound and WAY Beyond**”, an auditory rehabilitation program based on CAST technology and distributed by Cochlear Americas.
- Includes basic to advanced training modules. The functional hearing test module provides a perfect tool to self-assess your functional hearing with a variety of speech and music recognition tests, including auditory resolution, phoneme, music, speech in quiet and noise, and auditory cognition (short-term memory) etc.
