Program Objectives

The information presented at this educational activity should improve your ability to:

• Develop understanding the options for treatment of vocal fold immobility and how to implement them into practice.

• Learn options for reconstruction of post-surgical defects of the head and neck.

• Understand societal burden of care for cholesteatoma and learn novel treatment strategies.

• Understand association between idiopathic CSF leaks and OSA and treatment outcomes.

• Learn methods to improve healing after vocal fold surgery.

• Understand methods to improve airway, voice and swallowing outcomes after laryngeal cancer surgery.

• Understand common complications of open approaches to skull base in the endoscopic era.

• Learn how to identify the optimal positioning for intranasal spray applicators using computational fluid dynamics.

Course Description: For decades the Department of Otolaryngology/Head and Neck Surgery has trained medical students and residents. The first chairman of the Division of Otolaryngology/Head and Neck Surgery was Newton D. Fischer. Dr. Fischer's enduring emphasis on medical students and residents education, as well as research, continues to shape the philosophy of the department to this day. Clinical practice within this field involves the medical and surgical diagnosis and management of very common to very rare diseases such as treatment of the nose in squamous cell carcinoma, chronic rhinosinusitis, and auditory neuropathy. Novel research and emerging technologies are changing how these disease processes are managed, including endoscopic approaches and external approaches. This meeting will provide new information and surgical techniques for the practicing Otolaryngologist/Head and Neck Surgeon.

Target Audience: Otolaryngologists/Head and Neck Surgeons

CME Accreditation: This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Southern Alliance for Physician Specialties CME (SAPS CME) and Department of Otolaryngology-Head and Neck Surgery The Southern Alliance for Physician Specialties CME is accredited by the Medical Association of Georgia to provide continuing medical education for physicians.

The Southern Alliance for Physician Specialties CME designates this live activity for a maximum of 6.0 AMA PRA Category 1 Credit(s). Physicians who claim credit must communicate with the University the extent of their participation.
