

Where is the HTSF?

The **HTSF** is located throughout Genome Sciences Building (GSB), at 250 Bell Tower Drive on the UNC campus.
Room 1153, Green Pod

Directions to the Facility

From South Campus

From south campus, such as Lineberger Comprehensive Cancer Center (LCCC), you will walk alongside South Columbia Street and take a right on Medical Drive just past the School of Nursing.

There will be stairs to your left, as seen in the image.
After walking down the stairs you will be at the first level of the Genome Sciences Building

Please enter the building at the glass double doors next to the ramp as seen in the below image.

The lab is the first entrance to your right from the lobby.

Walk straight ahead to room 1153.

Just past the freezer, a customer service member will be able to assist you with the drop off of your samples.

From North Campus

From North Campus, such as Kenan Laboratories, you will cross South Road and enter Bell Tower Drive.

The Genome Sciences Building will be on the last building on right side of the road as seen in the below image.

Walk up the ramp at your right and you will enter a courtyard with lab space in the subsection of level 1 directly in front of you and the stairs and Genomics Café to your right.

As you walk towards the subsection of the first level directly across from the stairs, you will see a door with an orange sign stating entry is for authorized users only, as seen in the below image.

This is opposite the classroom towers and café.

Please enter this door and walk down the hall to 1153
(on your left of the lobby at the end of the hall).

You will drop off your material with the customer
service staff member in rm 1153.

Continue to the end of the hall and the lobby area on the other side. The
entrance to the HTSF will be to your left. Walk straight ahead to room 1153.

Just past the freezer, a customer service member will be able to assist you
with the drop off of your samples.
