

ASAP Classroom Activity Matrix

Activity/Center

Child	Goal	Circle Time	Dramatic Play	Blocks	Manipulatives	Gross Motor/ Playground	Art	Sensory Play	Music	Library	Snack			

Directions: Use this activity matrix to help you determine during which activities you will target particular goals for a particular child. This activity matrix can be used to plan for up to three children at a time. Write the child's name in an empty box in the "**Child**" column. Write in goals (up to 4) that you are working on with that child next to his/her name in the "**Goals**" column. Several activities/centers in which the goals may be targeted have already been listed. You may add other activities/centers in the four blank columns provided. If you plan to target a particular goal in a particular activity/center for a particular child, mark an "**X**" in the corresponding box.
