

## PREFERENCE ASSESSMENT FORM

**Directions:** In order to decide “with what” materials to use to teach social-communication and play skills it is important to get a sense of the child’s likes and dislikes. First, indicate if the child likes or dislikes the activity (if applicable). Then, if the child likes the activity (or at least does not dislike it) list the specific toys/materials/games/adult actions (e.g., tickling) s/he likes that are part of that activity.
