SECTION I: GENERAL INFORMATION

Division Mission Statement

The mission of the Division of Clinical Rehabilitation and Mental Health Counseling (the “Division”) is to serve the people of North Carolina by educating clinical rehabilitation counselors (“CRCs”) and clinical mental health counselors (“CMHCs”) with the knowledge and expertise to serve the state’s citizens with mental, behavioral, or neurodevelopmental disorders with an emphasis on those citizens who have psychiatric and/or developmental disabilities. The mission is based on the fundamental belief in the dignity and worth of all people, and in the rights of people with disabilities to live self-determined lives in inclusive communities of their choice. The CRCs and CMHCs will use the counseling relationship and their skills to work collaboratively with individuals to: (i) maximize functional capacity, productive and independent living skills, and quality of life; (ii) provide access to culturally sensitive and evidence-based counseling practices; and (iii) manage personalized services to support the unique needs and preferences of each individual, their family, and community. Fundamental to this effort is a focus on the whole person— their psychological, vocational, spiritual, and physical aspects—as well as family, social, work, and community relationships. Furthermore, The Division is dedicated to inclusive practices, appreciating diversity, reducing health disparities, and serving marginalized and under-represented communities.

The Division seeks to educate CRCs and CMHCs who possess the knowledge, skills and personal and professional qualities required to forge new models of community practice that address the diverse needs of individuals with disabilities now and in the future. In carrying out this mission, the faculty of the Division has the obligation to acquire, discover, preserve, synthesize, and transmit knowledge, to serve as models of professional leadership, and to create a culture of educational excellence that will nurture students’ intellectual and ethical development. Students have the responsibility to fully engage in an educational process of research, free inquiry, and personal responsibility and to become foremost practitioners, scholars, researchers, and leaders in the professions of clinical rehabilitation counseling and mental health counseling.

The University of North Carolina at Chapel Hill is recognized, nationally and internationally, as a leading center of scholarship, research, and creative work with a mission to serve the people of North Carolina and the nation. The mission of the Division is to contribute actively and substantively to this tradition.

Mission and Objectives of the MS in Clinical Rehabilitation Counseling Program

MS CRC Mission
The mission of the Clinical Rehabilitation Counseling master’s program at UNC is to develop professional counselors who have the knowledge, skills, and dispositions necessary to provide state-of-the-art services to culturally diverse individuals with physical, psychiatric, developmental, and/or intellectual disabilities in diverse settings (e.g., public vocational rehabilitation, high school and/or college, disability management, private-for-profit rehabilitation, assisted living facilities). The curriculum provides extensive training in evidence-based practices and service delivery models aimed at optimizing consumers’ functioning in major life areas (i.e., physical, vocational, educational, developmental, psychosocial, independent living). Counselors trained at UNC will serve individuals of transition age and beyond through developmentally appropriate and culturally responsive work. Graduates combine clinical rehabilitation counseling expertise with skills in individual, professional and systemic advocacy, leadership, consultation, and collaboration to assess consumer needs, goals, potential, resources, and barriers to empower and fully promote consumers’ quality of life, community inclusion, and personal fulfillment.

MS CRC Objectives
Graduates of the CRC Master’s Program will:

1. Learn and effectively apply current best practices in rehabilitation counseling within the continuum of care using a community-inclusion model;
2. Accurately assess the rehabilitation counseling needs of people with disabilities and work in partnership with consumers, families, and affiliated agencies to provide the most appropriate
rehabilitation services and supports needed;
3. Acquire specific knowledge and skills to address the counseling and case management needs of people with disabilities with an emphasis on strategies and techniques for serving people with psychiatric and/or developmental disabilities; this includes assessing the impact of crisis and trauma, the impacts of biological and neurological mechanisms, and the effects of co-occurring disabilities;
4. Demonstrate multicultural and social justice counseling competencies, including cultural humility practices;
5. Work collaboratively with professionals as members of an interdisciplinary treatment team, family members, community providers, employers, and agency policy and decision makers to achieve optimal rehabilitation outcomes for people with disabilities;
6. Engage in a process of lifelong learning, collaboration, collegiality, and ethical relationships as part of ongoing professional development as CRCs;
7. Have the necessary leadership, business and management, and public policy skills to assume leadership roles; and
8. Promote and support consumer empowerment and self-advocacy, with a focus on inclusion and removal of environmental, attitudinal, and individual barriers for individuals with disabilities.

Mission and Objectives of the MS in Clinical Mental Health Counseling:

MS CMHC Mission:
The Clinical Mental Health Counseling master’s program at UNC prepares students with knowledge, clinical practice expertise, cultural humility, knowledge, dispositions, and skills to work with diverse individuals with a broad range of mental health issues. Graduates are prepared to be successful in careers in mental health treatment, human services, education, research, private practice, government, military, and business and industry. The curriculum provides extensive training in principles of mental health counseling, the nature and etiology of mental health and behavioral disorders, culturally responsive counseling approaches, and evidence-based practices. Graduates achieve mastery in clinical mental health counseling and are competent in clinical practice, individual, professional, and systemic advocacy, leadership, consultation, and collaboration to assess client’s mental health needs, goals, resources, and barriers. Graduates of the UNC program will be proficient in developing and implementing mental health treatment and prevention programs and in providing consultation, leadership, and advocacy to individuals across the age spectrum and to groups, organizations, and communities. Counselors trained at UNC will successfully fulfill their professional counselor roles in practice, research, leadership, and community advocacy in the clinical mental health counseling specialty area.

MS CMHC Objectives:
Graduates of the CMHC Master’s Program will:
1. Effectively apply established counseling theories and evidence-based practices in clinical mental health counseling within a community-inclusion model;
2. Accurately assess the mental health counseling needs of individuals with mental health and behavioral disorders, including substance use and provide mental health services within the continuum of care (e.g., inpatient, partial-hospitalization, outpatient);
3. Acquire specific knowledge and skills to address the mental health counseling needs of individuals, including the impact of biological and neurological mechanisms, and the impact of crisis and trauma on mental health;
4. Work collaboratively with professionals, family members, community providers, and policy makers to achieve optimal treatment outcomes for individuals with mental health and behavioral disorders;
5. Demonstrate multicultural and social justice counseling competencies, including cultural humility practices;
6. Demonstrate strong clinical skills in mental health counseling (biopsychosocial case conceptualization, diagnosis, and treatment planning and delivery);
7. Engage in a process of lifelong learning, collaboration, collegiality, and ethical relationships as part of ongoing professional development for CMHCs;
8. Have the necessary leadership, business and management, and public policy skills to assume leadership roles in CMHC; and
9. Promote and support consumer empowerment and self-advocacy of individuals with a broad range of mental health issues.

PROGRAMS OVERVIEW & ACCREDITATION

Our previous master’s degree program in Clinical Rehabilitation and Mental Health Counseling (MS in CRMH) was dually accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) through October 2024. We separated the joint degree and applied for reaccreditation for two counseling specialties, MS degree in CRC and MS degree in CMHC, to remain in compliance with CACREP’s current accreditation standards and policies.

The Division of Clinical Rehabilitation and Mental Health Counseling is a program within the Graduate School. We are governed by the policies and procedures of the UNC-CH Graduate School. Graduate School policies and procedures are included in the following publications available through the Graduate School at 200 Bynum Hall or on-line at http://handbook.unc.edu/policies.html.

AREAS OF SPECIALIZATION: SPECIALTY TRACKS

We offer two separate Master of Science degree programs in (1) Clinical Rehabilitation Counseling (CRC) and (2) Clinical Mental Health Counseling (CMHC).

The **MS in CRC program** is designed for students who seek specialization in rehabilitation counseling, including disability advocacy, psychosocial adjustment to disability, independent living counseling, and vocational rehabilitation counseling for people with physical disabilities, psychiatric disabilities, and developmental disabilities in public, private, research, hospital/clinical, or community-based settings, or who desire continued research and training in a doctoral program. The CRC program combines academic preparation with direct field experience in different public and private clinical rehabilitation counseling settings, thus providing students with a strong applied base in service delivery.

The **MS in CMHC program** is designed for students who seek specialization in providing professional mental health counseling services involving the application of principles of psychotherapy, human development, learning theory, group dynamics, and the etiology of mental illness and dysfunctional behavior to individuals, couples, families, and groups, for the purposes of treating psychopathology and promoting optimal mental health. The CMHC program combines academic preparation with direct field experience in many different public and private clinical counseling settings, thus providing students with a strong applied base in service delivery of evidence-based, culturally responsive interventions that are grounded in theory and current research.

The first year of the curriculum emphasizes the development of core knowledge and counseling skills across the disability and practice continuum while also introducing all students to the specialized populations of individuals with developmental disabilities (DD) and psychiatric disabilities (PD). At the end of the first semester, each student selects a specialty track in the program, or pursues a dual track which specializes in both. Coursework during the first year focuses on rehabilitation or mental health counseling preparatory work while offering students the framework to begin to narrow their focus. DD and PD specialty track coursework begins in the second year. The specific clinical and research requirements related to each track are noted later in the handbook (see Curriculum section).

ADDITIONAL STUDENT EXPENSES

There are a few additional expenses students can expect to incur as costs associated with graduate study. Students will be asked to access electronic reserves and journal articles from the library. If students wish to have their own hard copies of these readings, they can print them to their own printer, or they can print them in the library which will incur a cost. Assignments in various classes and field placements require students to engage in experiential activities in the community. Travel expenses will be the responsibility of each student. Expenses for courses and related activities include, but are not limited to the following: practicum, internship, conferences, and other experiential activities.

EDUCATION AND TECHNOLOGY FEES

Students pay Education and Technology fees as assessed by the University. This money is used to defray the costs associated with therapeutic procedure labs and clinical experiences. The State Legislature will determine the amount students will be billed.

FACULTY MEETINGS

Division faculty meets twice monthly to discuss Division business. The Future Counselors Association may appoint a student representative to present any concerns or issues at faculty meetings. The faculty may also invite student representative(s) to attend.

SAFETY

Division faculty strongly discourages any student from working in Bondurant Hall or the classrooms alone after 5:00 p.m., unless authorized by faculty, Monday through Friday, or on the weekends. Students should plan their work so they are not in the building at these times. Course scheduling is arranged for students to have time during working hours to complete coursework. When assignments require additional time on campus, study areas are available in the campus libraries and should be used for evening and weekend research/study sessions.

When it is necessary to come to campus for evening classes or use the libraries in the evenings or on weekends, the Division stresses the use of safety precautions and available University services. When walking at night, plan your routes in advance, stay in adequately lighted areas, remain alert to your surroundings, and never walk alone! If at all possible, meet your classmates at a central location or at someone’s home and ride to campus together. The Bell Tower deck opens to the public at 5 pm, with reduced rates for evening parking permits, so you can park there for evening classes, but drive with your classmates so that you don’t have to walk alone in the dark.

Alert Carolina (http://alertcarolina.unc.edu/) is a safety awareness initiative, which plays an instrumental role in supporting the University of North Carolina at Chapel Hill’s overall efforts to communicate about an emergency or a situation affecting the safety and health of the campus community.

In an emergency or dangerous situation, the University will post safety-related announcements at this website: alertcarolina.unc.edu along with updates, information, and other resources. The sirens will only sound during a life-threatening emergency or a test. Scenarios for siren activation are 1) armed and dangerous person on or near campus, 2) a major chemical spill or hazard, or 3) a tornado sighting. Be prepared to go inside or take cover immediately in an actual emergency.
Safety and security procedures:

- Anyone who notices something suspicious or out of the ordinary should notify University Police at 911.
- For any safety concerns about a student, please contact the Dean of Students’ Office at 919-966-4042 or Counseling and Psychological Services at 919-966-3658.
- For any safety concerns about a coworker, please contact the UNC Employee Assistance Program at 919-929-2362.
- Emergency call boxes with direct lines to the University Police are located around campus. Yellow and red call boxes are operated by opening the door and lifting the telephone receiver. Other call boxes are activated by pushing a button.
- The Point-to-Point Campus Shuttle (P2P) is available to transport faculty, staff, and students around campus and to their cars in campus parking lots between dusk and dawn seven days a week. To arrange a ride, call 919-962-P-TO-P (7867) (TDD 919-962-7142).
- The SAFE Escort service provides escorts (for solo students only) on the main campus during the semester from 7pm to 1am, Sunday through Thursday. Call 919-962-SAFE (919-962-7233) to arrange for an escort to meet you at your campus building or stop by the SAFE Escort desk in Davis Library.

STUDENT E-MAIL ACCOUNTS

Students are required to have and maintain a UNC-CH School of Medicine email address and should check their e-mail daily throughout the workweek and are requested to respond to faculty emails within 72 hours. Faculty and staff use email for messages, announcements, and some class assignments. This account will also be used for library searches and Internet access for class assignments. The SOM email account should be activated before orientation. To do so, students should visit https://selfservice.unc.edu. For IT assistance you can visit help.unc.edu.

STUDENT MAILBOXES

Each student is assigned a mailbox within the Division lab suite and given the door lock code to access their mailboxes 24 hours per day. Any mail, messages, memos, and announcements for a student will be placed in their box. Students are required to check their mailboxes routinely. Student mailboxes should not be used for storage and should be cleaned out on a regular basis. The Division is not responsible for materials left in mailboxes.

STUDENT SERVICES

AHS Student Services Office
(https://www.med.unc.edu/ahs/students)
The mission of the Office of Student Services is to promote positive relations between the students of the Department of Health Sciences and their many constituents on campus and in the community, as well as providing any additional student support that might be helpful. Perry Studevent is the Sr. Assistant Director of Financial Aid and Student Services and may be contacted by email at perry_studevent@med.unc.edu or by phone at 919-966-9040.

Graduate School
(https://gradschool.unc.edu/)
The Division follows all policies and procedures of The Graduate School at UNC. It is expected that students will become familiar with their website and refer to the Graduate School Handbook at https://handbook.unc.edu/ for further clarification.
Graduate Student Center
The Graduate Student Center (GSC) is an additional resource available to all graduate and professional students as a place on campus where students can come together to share research ideas, interdisciplinary seminars, professional development activities, and hold meetings. Allie Barton is the Director of Diversity and Student Success. Allie may be reached by email at bartonae@email.unc.edu or phone number at 919-962-7824. Julie Montaigne is the Fellowship and Funding Manager and is responsible for coordinating all internal and external fellowship support as well as processing payments of tuition, grants, and fellowships. Ms. Montaigne is located at 218 Bynum Hall and may be reached by email at julie_montaigne@unc.edu or phone at 919-843-8392. For additional contact resources in The Graduate School, please refer to their staff directory at https://gradschool.unc.edu/about/directory/

UNIVERSITY RESOURCES

Bookstores
The Bookstore at the UNC Student Stores is located on 207 South Road in the Daniels Building The bookstore also has a considerable selection of UNC merchandise and stocks popular books, UNC logo items and office supplies. Student Stores is open every day of the week. Call 919-962-5066 or 919-962-5024 for specific hours, additional information is provided on their website (https://unc.bncollege.com/shop/unc/home/).

Campus Health Services
Campus Health Services (CHS) (https://campushealth.unc.edu/) is a department in the Division of Student Affairs and offers quality medical care to the UNC student community at a very low cost. You may contact them directly at 919-966-2281. CHS offers wellness and preventative care, care for injury, acute or chronic medical conditions, consultation, and medical testing.

Counseling and Psychological Services (CAPS) is a Campus Health Services department in the Division of Student Affairs at UNC- Chapel Hill. It offers counseling, psychological, and prevention services to assist students with problems they may encounter in their efforts to manage the social, academic, and personal demands accompanying their attendance at a major university. For any questions regarding services or to schedule appointments, please call 919-966-3658 or visit their website at https://caps.unc.edu/. Psychological/counseling services include individual, couples, and group therapy, urgent consultation and crisis intervention, and medication evaluation/management. Their wellness services provide education and health promotion programs in the areas of fitness and nutrition, alcohol and substance use, stress management, and sexual behavior. The CAPS staff is comprised of licensed psychologists, psychiatrists, social workers, and health educators as well as administrative support personnel.

Campus Recreation
A wide variety of services geared toward physical activity and health are available through this office. Call 919-843-PLAY or visit the website at https://campusrec.unc.edu/facility-list/src/ for more information regarding campus leagues, gyms, pools, and other services available.

Computer Labs
Computers are available for student use in the Division lab on the ground floor of Bondurant Hall. There are also a number of computer labs available for student use on campus. There are computer workstations and media kitchens (with multi-media resources) located in the Health Sciences Library. Other campus libraries also have computer labs. Call UNC ITS at 919-962-HELP (4357) for more information about campus computer labs and their locations.
Dining Services

There are a variety of places on campus to find nourishment. Below is a list of some of the options near Bondurant Hall. For a full list please visit the website at https://dining.unc.edu/

The Beach Café/Food Court is located on the ground floor of the Brinkhouse-Bullet building, directly behind Bondurant Hall, which is open daily 7:00 a.m. – 3:00 p.m. Monday - Friday. It has a full coffee bar (Mad Hatter) and several breakfast/lunch counter choices, e.g., Chick-Fil-A, as well as cold beverages (bottle and dispenser self-serve) and packaged cold deli foods à la carte.

The University of North Carolina Hospital’s Corner Cafe is located on the first floor of the Children’s Hospital and offers a hot breakfast from 7:00 a.m. – 10:00 a.m. The cafe offers lunch from 10:30 a.m. until 2:00 p.m. They offer burritos, rice & bean bowls, a sandwich bar, and pre-packaged salads as well as coffee, tea, and juices.

The Atrium Café, located in the Michael Hooker building of the School of Public Health, offers freshly made foods from Saladelia, Mediterranean Deli, and Nantucket Café. The hours are 7:00 a.m. -4:00 p.m.

Tar Heel Cafe is located on the second floor of the Thurston (“Skipper”) Bowles building located on the corner of Manning Drive and South Columbia Street. Breakfast is served from 7:00 a.m. until 10:30 a.m. Lunch begins at 11:00 a.m. and ends at 4:00 p.m. They have a grill, sandwich station, potato bar, and salad bar with offerings from Chick-Fil-A.

Friends’ Café is located at the entrance to the Health Sciences Library (HSL) building. They have a small selection of coffee, hot/cold beverages, a small assortment of Mediterranean Deli sandwiches, muffins, bagels, scones, cakes, and other treats. Their hours are Monday-Friday from 7:30 a.m. - 5:30 p.m., Saturday from 1:30 p.m. -5:30 p.m., and they are closed on Sundays.

Starbucks is located off of the lobby in the NC Cancer Hospital. They serve coffee and espresso beverages, along with teas, pastries, hot breakfast options, sandwiches, and paninis and more. Starbucks is open 24 hours a day, 7 days a week.

The Learning Center
The Learning Center offers a range of services to help students succeed at Carolina, including study groups, tutoring, academic coaching, reading skills workshops, discounted Princeton Review courses, test prep resources, and ADHD/Learning Disabilities Services.

The Learning Center
Suite 0118 and 2109 SASB North, Campus Box # 5135 450 Ridge Road, Chapel Hill, NC 27599-5135
Telephone: 919-962-3782 Fax: 919-962-7797
Email: learning_center@unc.edu Website: https://learningcenter.unc.edu/

Accessibility Resources and Service (ARS)
ARS provides services and reasonable accommodations to currently enrolled undergraduate and graduate/professional students with disabilities or medical conditions. To be eligible for services, students must provide documentation about a substantial limitation to one or more major life activities, specifically as it applies to meeting the demands of university life, in and/or out of the classroom. In order to become eligible, students must submit documentation to the Accessibility Resources and Service office. ARS states: “Postsecondary institutions are subject to a different legal framework and there is an expectation that you will be much more independent in advocating for the support and accommodations you will need.” The following document from the Department of Education will be useful in explaining the key differences between the sectors: http://www2.ed.gov/about/offices/list/ocr/transition.html
Regarding attendance, ARS states, “Accessibility Resources & Service cannot issue official written excuses for absences. We do not determine attendance policies for faculty. We can provide written verification of a medical condition that might cause a student to miss a class. This verification may address the legitimacy of, but not excuse, an absence. However, if class attendance/participation is an essential requirement, reasonable accommodations may not be possible.” For all classes in the Division of CRMH, attendance is an essential requirement.

Documentation guidelines are posted at the ARS website below: https://accessibility.unc.edu/students-and-applicants

Accessibility Resources and Service
450 Ridge Road, Suite 2126
Campus Box 7214 Chapel Hill, NC 27599
919-962-8300
919-962-7214 (Fax)
https://accessibility.unc.edu/ accessibility@unc.edu
Open 8:00 a.m. - 5:00 p.m., Monday through Friday

Libraries
(http://library.unc.edu/)
There are two main libraries that you will utilize while in this program: Health Sciences Library (HSL), which is located in front of the MacNider Building of the School of Medicine on Columbia Street, and Davis Library, which is located on main campus behind the Student Union. There are many other departmental and specialty libraries on campus. Students will receive an introduction and orientation to the HSL and other library services at the beginning of their first semester in the program.

Check the library website for updates regarding on-campus library hours.

Office of Scholarships and Student Aid
(http://studentaid.unc.edu/) 111 Pettigrew Hall, 919-962-8396

Public Safety Department
(http://dps.unc.edu/)
Security Services Building, 919-962-3951 (general information) In case of emergency, dial 9-1-1.

New Student and Carolina Parent Programs
(http://nspp.unc.edu/first-year-students)
Students are advised to go to the Admitted Students webpage for the Graduate School
http://gradschool.unc.edu/admissions/admittedstudents.html that provides a guide for getting the ONYEN user name and password created and becoming linked to the various on-campus resources.

UNC Campus Portal: ConnectCarolina
(https://connectcarolina.unc.edu/)
Students can access their grades, register online, and make changes to their personal information at the Student Central Website of Connect Carolina. It can be accessed easily from the UNC homepage.

UNC-ONE Card
(http://www.onecard.unc.edu/)
The UNC One Card is the official identification card for students, faculty, and staff of the University of North Carolina at Chapel Hill. Every regularly admitted student is required to have a One Card. It will serve as your library and copy card and will allow you access to certain facilities. The UNC One Card also acts as a debit card
and allows the cardholder to initiate financial transactions at a number of on-campus and off-campus locations. Contact the UNC One Card Office at 919-962-8024 for information. The UNC One Card Office is on the third floor of the Student Stores.

**UNC Writing Center**
(http://writingcenter.unc.edu/)
The Writing Center is a free service available to students, faculty, and staff at UNC-Chapel Hill. Their tutors are friendly graduate students from a variety of academic disciplines who are specially trained in teaching writing skills. They offer 45-minute face-to-face sessions and an online tutoring system that allow you to submit writing and receive feedback via the web. Their face-to-face sessions take place on weekdays by appointment from 9:00 a.m. to 8:00 p.m. and closes at 4:00 p.m. on Fridays. On weekends, the Writing Center is open on Sunday from 5:00 p.m. – 8:00 p.m.

Graduate students in the School of Medicine may only make same day appointments with the Writing Center. In the past we have heard that the easiest day to get a same day appt is Friday. Students can submit a draft to the online tutor at any time, but they can respond only during their normal business hours. The Writing Center is located in the basement of the Student and Academic Services Building (SASB) North at the corner of Ridge Road and Manning Drive. They may be reached at 919-962-7710 for more information.

**UNC International Student and Scholar Services (ISSS)** (https://ISSS.unc.edu)

ISSS provides resources to assist international students and scholars in adjusting to life in the United States and Chapel Hill. The ISSS is located in the Fedex Global Education Center and is open weekdays 9:00 am to noon and 1:00 pm til 4:00 pm. They may be reached through their website or by phone at 919-962-5661.
SECTION II: POLICIES

Student Policies for Conduct and Professional Development

IMPORTANT: It is the student’s responsibility to read, be aware of, understand and fully comply with all regulations, policies, procedures, and deadlines.

Course Attendance

Preparation and punctuality are considered professional behaviors and we expect them from all CRC and CMHC students. Due to the rigor of the graduate education curriculum in the MS in CRC and MS in CMHC programs, and the importance of participation in class discussion, you are expected to attend all classes. If you miss two classes, you can earn no higher than a P in the course. If you miss three classes, you can earn no higher than an L. Missing more than 3 classes will result in course failure. Students missing two or more classes due to medical emergency, hospitalization, or family emergency, with appropriate written documentation will be given the option of taking an incomplete in the class and repeating it when it is offered again. Incompletes and retaking certain courses, e.g., Applied Counseling Skills, will prevent students from proceeding further in their course of study.

Please also note that repeated late arrivals or early departures from class are unacceptable and the instructor has discretion as to whether it equals an absence. Students must check with their professors about their late arrivals/early departures to see how these have affected the course grade. It is considered professional behavior for a student to be proactive and punctual in communicating with faculty about absences in advance or immediately thereafter if the absence is due to an emergency. STUDENTS ARE EXPECTED TO EMAIL THEIR PROFESSORS BEFORE CLASS IF THEY ARE GOING TO BE ABSENT OR LATE.

CRMH Virtual Attendance Accommodation Policy

In-person class attendance is expected for ALL registered CRMH students. Attendance requirements and expectations are described on course syllabi. CRMH Faculty believe that in-person learning offers many benefits to student’s personal and professional development and growth. Furthermore, in-person interactions promote cross-cultural learning and education, which is an integral component of professional counseling and social justice. In instances where a student is unable to attend class in-person, an alternative virtual class option may be offered.

To be eligible for the accommodation, the student must be experiencing sickness, chronic illness, family illness or death, or other related significant events. Traveling for vacation or recreational activities is not a valid cause for the virtual exception. The following factors will be utilized in determining whether an alternative virtual class is necessary:

1) The student’s timeliness in contacting the class instructor. The student should email the instructor as soon as it is determined that they cannot attend class – preferably more than 24 hours before class.

**We understand that certain students may experience chronic illness and/or live with unpredictable disabilities. In these cases, we encourage students to self-identify and request formal accommodations through Accessibility Resources & Service (Connect with ARS | Accessibility Resources & Service (unc.edu)).

2) The reason for not attending class. Faculty understand that life may interfere with class attendance in myriad ways. However, the virtual option is not to be misused or used for minor inconveniences.

3) The content being covered in class. Certain class days involve activities and/or information that is critical to counselor skill development and professional development, thus in-person attendance is especially important.

**Digital Etiquette Reminder: We require that cameras be on for most of the class unless there is a specific reason the student needs it off. If this is the case this the student should discuss the need for the camera being off with faculty before the class. If you are experiencing symptoms of illness, we request that you take time to heal and recover. You have one “free” absence per semester built into our attendance policy for this reason.

The purpose of this Virtual Accommodation Policy is to promote an inclusive and culturally responsive learning environment, while maintaining the value and importance of in-person learning and social interactions. Please direct any questions or concerns regarding the policy to relevant faculty or class instructors.
Professional Conduct

Students must maintain appropriate professional conduct based on the Council for Accreditation of Counseling & Related Educational Programs (CACREP) standards, the Council for Rehabilitation Counselor Certification (CRCC) Code of Ethics, the American Counseling Association (ACA) Code of Ethics, and the UNC-Chapel Hill Honor Code among fellow students, persons served, and affiliates, faculty, and staff of the university. In addition, students are expected to conduct themselves professionally as members of the surrounding community, as they represent UNC-Chapel Hill and the CRMH program.

The ACA code of ethics is available via this link:

The CRCC Code of Ethics is available via this link:

The UNC-Chapel Hill Honor Code is available via this link:
https://catalog.unc.edu/policies-procedures/honor-code/

The Code of Professional Ethics for Rehabilitation Counselors (CRCC, 2017) and the American Counseling Association Code of ethics (ACA, 2014) address professionalism in working relationships with other rehabilitation and mental health counselors, as well as colleagues from other disciplines in Section E, Relationships with Other Professionals and Employers (p. 16-17) and Section D, Relationships with Other Professionals (p. 10), respectively. These Codes of Professional Ethics emphasize the importance of being respectful of colleagues’ opinions and practices, even when they differ from our own.

Counselors are respectful of approaches to counseling services that differ from their own and of traditions and practices of other professional groups with whom they work (CRCC, 2017; ACA, 2014).

CRCs and CMHCs “recognize their interactions with colleagues can influence the quality of services provided to clients…counselors develop positive working relationships and systems of communication with colleagues” (ACA, 2014, Section D, p. 10). The Code of Professional Ethics also calls on us to work well with team members, “Rehabilitation counselors acknowledge the expertise of other professional groups and are respectful of their practices…even when not personally agreeing with such decisions, unless these decisions breach the Code” (CRCC, 2017, Section E.2, p. 17).

There will be times when you do not agree with faculty or members of your cohort while you are in the program. In accordance with these ethical guidelines, please practice respectful communication when interacting with your colleagues and as you work together, whether in class, for group projects, or in making decisions as a cohort. As noted in our Diversity Policy, we promote and value mutual respect, diversity, equity and inclusion in the classroom and within the activities of your cohort. We encourage you to model professional behavior and have open, honest and courteous communication with each other and faculty members as you prepare to engage in professional relationships in your practicum, internship, and future work settings. Developing professional relationships with your peers in the CRMH program is a good foundation for your future professional relationships.

Professional behavior encompasses your actions, appearance, and communication, whether online, on campus, or in the community as representatives of the Division during your clinical training.

Privacy and Confidentiality

In adhering to the standards of professional conduct discussed above, students must comply with the standards regarding privacy and confidentiality as outlined in the Council for Rehabilitation Counselor Certification (CRCC) Code of Ethics (Section B page 10) and the American Counseling Association (ACA) Code of Ethics (Section B page 6). With regard to classroom discussions, all cases discussed will be de-identified so as to protect the privacy
of the client, and students should not discuss cases from the course discussions outside the class.

In Practicum and Internship, any and all recordings (or alternate formats) will be handled in accordance with the guidelines for recording presented in the Practicum Manual (page 8 Session Recording Guidelines) and the Internship Manual (page 56 Appendix R Session Recording Guidelines).

**Dress Code**

As part of the UNC School of Medicine, the Division follows the medical center’s “Professional Business Attire” policy. Neatness and appropriate attire promote the professional atmosphere of graduate school. This carries over into the clinical education component of the program once students begin interviewing and being a part of our clinical sites during practicum and internship. Thus, having a neat, clean, and well-groomed appearance is important.

Clothes that are too revealing or inappropriate are discouraged. Students must avoid clothes with logos or graphics that are offensive or inappropriate. Clothing must have appropriate fit, with no visible undergarments/undershirts and should be free from offensive images, words, or logos. Skirts or dresses should be mid-thigh or longer. Low cut, strapless, or backless dresses or tops, or see-through clothing are unacceptable, and clothing must cover the mid-riff when standing naturally.

Students attending conferences or visiting any of our program’s business partners are asked to dress in professional business casual attire as described below unless more formal business attire is required.

**Men:** All shirts should have collars. Three-button polo shirts, partial zipper shirts with collars are acceptable. Shirts with logos other than brand or designer (e.g., corporate, political, personal statement, etc.) are discouraged. T-shirts are not permitted. Shirts should be tucked in unless the style specifically prohibits this (e.g., sweater-style). All buttons except the top button should be fastened. Acceptable pant styles are khakis, dress pants, trousers, and corduroy pants. Blue jeans are discouraged. Acceptable shoe styles include oxfords, lace-ups, and loafers. Socks should be worn at all times. Sneakers, tennis shoes, sandals, flip-flops, or other open-toed shoes are not permitted.

**Women:** Skirts and dresses should be mid-thigh or longer. Avoid low-cut dresses or tops or dresses with high slits. Pants such as khakis, corduroy pants, linen pants or dress pants are all acceptable. Blue jeans are not permitted. For the upper body, blouses, sweaters, turtlenecks, and sleeveless shirts are all acceptable. Avoid T-shirts, exposed midriffs, strapless tops, backless tops, halter tops or tank tops or any skin-tight clothing on both upper and lower body.

Once students enter practicum and internship sites, they are required to follow the dress code of the organization for which they are working. The dress code of your clinical training site may be more or less formal than the CRMH professional business casual attire above. This information is discussed during orientation and/or introductory supervision sessions. The Clinical Coordinator for the Division will share dress code policies for our clinical sites with second year students and can answer any specific questions.

**Hygiene**

Daily hygiene must include personal cleanliness, including use of deodorant. Strong perfumes, colognes, and scented lotions are not permitted as peers and patients in the medical center and surrounding areas may be sensitive to fragrance. We request that hair, mustaches, and beards be clean and well-trimmed.

**Student Interaction**

Students’ interactions with faculty and peers, as well as other personnel on and off campus, are expected to be commensurate with professional behavior. Each of your core faculty have earned a doctorate in their respective specialties and students are encouraged to address them appropriately.
Areas identified and documented by the faculty as deficient within and outside of coursework are subject to review and remediation if it is found that such conduct would be detrimental to the student’s participation in the field. Specific circumstances for remediation will be considered contextually in partnership between the collective CRMH division faculty, the student’s advisor, and the student. If remediation is deemed necessary, processes for student progress and appeals will be made readily available to the student. Students wishing to follow the appeals process can begin by making an appointment with the program director.

**Cell Phone Use**
The use of cell phones during class, discussion groups, supervision/advising meetings, clinical interviews, etc. is strongly discouraged. It is impossible to give someone your full attention when you are distracted by your phone, so please exercise good judgment, and put cell phones away during these times. **Please switch your phone to silent or turn it off completely.** We do understand that circumstances will arise when you might need to monitor your phone or accept a call. We encourage you to explain the circumstance to the professor/supervisor prior to class.

**Social Networking and Digital Platforms**
The use of personal technology, including but not limited to social networking, personal email, web surfing, texting, etc. during class is distracting to other students and faculty. It is also considered unprofessional behavior in the workplace. For this reason, as counselors-in-training, Division students are prohibited from engaging in the use of technology other than for the expressed purposes of class as outlined by faculty. Some students think that professors do not notice this happening in class. Not only do we notice, but fellow students will also come to us to complain about the distraction of their peers engaging in online activities during class.

Working on assignments in one class for another class is also inappropriate; as it communicates that the student is not engaged in the material at hand.

Personal use of phones is only permitted during break(s). If you are found to be on social media or digital platforms other than for the purpose of the class you are attending, you will be asked to put away your device. If the use of electronic devices during class becomes a continuous distraction, students may be required to meet with their advisors and the faculty may implement a limited use policy for their course.

Students within the Division should be mindful of any behavior that might reflect negatively on themselves, the Division and its faculty/staff, and/or the University of North Carolina at Chapel Hill. Such behavior includes activities conducted online and in group messaging/group chats.

While the Division does not restrict students from using online social network sites and/or digital platforms (examples: Facebook, Reddit, LinkedIn, Instagram, Twitter, blogging sites), it is important that students are aware that any content they make public via online social networks or digital platforms is expected to follow acceptable professional and social behaviors and also to comply with the UNC Honor Code.

As a student in the Division at the University of North Carolina at Chapel Hill, you are a representative of the profession and the University. Please keep the following guidelines in mind as you participate on social networking web sites:

- Be aware that anything posted online is available to anyone in the world. Any text or photo placed online is completely out of your control the moment it is placed online – even if you limit access to the information on the site you are using.

- It is the expectation of the Division that students refrain from posting information, photos, or other items online that could reflect negatively on themselves, the Division and its faculty/staff, or the University of North Carolina at Chapel Hill.
● It is never a good idea to post your home address, local address, phone number(s), birth date, or other personal information, as well as your whereabouts or your plans. By doing so, you put yourself at risk!

● Keep in mind that it is now quite common for potential employers, practicum/internship supervisors, graduate program personnel, and scholarship committees to search these sites to screen candidates and applications.

● It is our policy to maintain professional relationships with all students. Please do not “friend” faculty or staff members within CRMH until you graduate from the program.

● The malicious use of online social networks, including derogatory language about any member of the CRMH community; demeaning statements about or threats to any third party; incriminating photos or statements depicting hazing, sexual harassment, vandalism, stalking, underage drinking, illegal drug use, or any other inappropriate behavior, will be subject to disciplinary action under the UNC Student Honor Code.

● Students should not add or “friend” consumers with whom they are working or those they know professionally through their master’s training program on their personal social media accounts. This recommendation is made in light of the Council for Accreditation of Counseling & Related Educational Programs (CACREP) accreditation standards, the Council for Rehabilitation Counselor Certification (CRCC) Code of Ethics, and the American Counseling Association (ACA) Code of Ethics. Students should not take photos with clients.

● Ignorance of these regulations does not excuse students from adhering to them.

**Student Self-Care Policy**

**An Ethical Obligation.** The Codes of Professional Ethics for both mental health and rehabilitation counselors (ACA, 2014; CRCC, 2017) require that counselors engage in self-care activities to maintain and promote their own physical, mental, & emotional well-being. Personal well-being is imperative in order to meet your professional responsibilities as a rehabilitation counselor and/or mental health counselor. The Code of Professional Ethics for Rehabilitation Counselors emphasizes the importance of knowing when one is impaired and in need of personal help: “Rehabilitation counselors are alert to the signs of impairment due to their own health issues or personal circumstances and refrain from offering or providing professional services when such impairment is likely to harm clients or others. They seek assistance for problems that reach the level of professional impairment, and if necessary, they limit, suspend, or terminate their professional responsibilities until it is determined they may safely resume their work.” (Section D.3.a, p. 14). Similarly, the ACA Code of Ethics mandates students “monitor themselves for signs of impairment from their own physical, mental, or emotional problems and refrain from providing professional services when such impairment is likely to harm a client or others. They notify their faculty and/or supervisors and seek assistance for problems that reach the level of professional impairment, and, if necessary, they limit, suspend, or terminate their professional responsibilities until it is determined that they may safely resume their work” (ACA, 2014, Section F.5.b, p. 13).

Given these ethical guidelines, we encourage all students to engage in self-care activities and to monitor their mental and physical health regularly. If a student is unable to complete their full academic or clinical responsibilities due to personal health or related problems, it is the student’s responsibility to speak with their academic advisor so that appropriate assistance can be provided. **However, please note that counseling services for students are not provided by faculty or other students in the CRMH program.** In some cases, the student will be encouraged to seek mental health counseling to help ensure appropriate self-care. All faculty in the Division are dedicated to promoting student well-being and the development of self-care skills. As gatekeepers to the counseling profession, it is the faculty’s responsibility to ensure that all students are able to meet their professional responsibilities.
Personal Counseling services provided outside of the program:

- **UNC Health Care Alcohol and Substance Use Treatment Program (ASAP)** provides outpatient substance use treatment and mental health care to UNC students who are residents of NC.

- **UNC Health Care: Behavioral Health Services** provides mental health therapy for patients of the UNC Family Medicine Center

- **UNC HealthLink** For answers to questions and directions to appropriate care. (919-966-7890)

- **UNC Hospice** welcomes not only hospice families, but anyone in the community who desires support. There is no charge for services.

- **Student Wellness** develops, promotes, and advocates for a campus and community environment that creates, emphasizes, and supports healthy choices and positive decision-making regarding health safety and wellness.

- **The Office of the Dean of students** is committed to providing a central education, programs, and services to support students’ academic, personal, and professional development. This office helps students in crisis and offer support and resources for faculty and staff, as well as parents and families.

- **Transitions LifeCare:** Grief Care - Individual counseling by professionally trained grief counselors, support groups and workshops available for adults, teens, children, and entire families.

- **Heels Care Network:** The Heels Care Network website is a place for all Tar Heels — undergraduate, graduate and professional students, and post-docs, as well as faculty and staff — to come together in support of each other and access the many mental health and well-being resources at UNC-CH. It serves as a gateway for mental health and wellness resources for everyone on campus: to find a support group, learn strategies for mental health, connect with trainings and advocacy organizations or find wellness events on campus.

**Food and Drink**
The Health Sciences Classroom Safety committee recommends that students maintain 6+ feet distance between each other while eating in classroom buildings. We recommend that students eat outside, when feasible, during break or between classes. Students are allowed to store food in the Division Lab refrigerator to eat outside later. Students must recognize this is a privilege and as such it may be retracted at any point if students do not clean up after themselves or in any way abuse this privilege. Students are not permitted to eat in classrooms during class time. Students will be provided at least one break in each class to get a snack to eat outside. It is unsafe, unprofessional, disrespectful, and distracting to eat while professors and guest speakers are lecturing.

**Student Performance & Remediation**
All students must progress and perform satisfactorily in the domains of academic performance, professionalism, counseling skills, and documentation where it is observable, documented, and measured, throughout their time in the program. In the unusual situation where a mid-term or end-of-semester evaluation indicates progress-inhibiting performance in the judgment of the collective faculty, the student’s advisor and instructor, will meet with the student to develop a remediation contract.

All students must perform satisfactorily in clinical placements. Our division has a remediation plan that involves all parties when a student is not performing well in practicum or internship. In the unusual
situation where a mid-term evaluation (or an earlier determination) indicates unsatisfactory performance, the supervisor(s) will meet with the student to develop a remediation contract. Students who need remediation in their clinical training will be required to meet with the clinical site supervisor and faculty clinical supervisor to review the student’s performance difficulties and develop an action plan. All parties will collaboratively develop a written corrective action plan for remediation or resolution of issues or problems. The written determination will serve as a contract and include:

- Specific performance issues needing to be addressed.
- Concrete steps to address the issues.
- Clear plan with actions to identify how these steps will be evaluated.
- Clinical practice measures which will be used to determine if effective remediation of the student’s performance difficulties has occurred.

Following evaluation of the student’s progress in the action plan, an additional meeting with the site supervisor and faculty supervisor will occur to determine if performance is acceptable, if the placement needs to be extended, if the placement needs to be repeated, or if the placement should be terminated. The student’s effort in the remediation plan will be factored into the final grade assigned in the clinical course.

**Student Requests for Academic Program Exceptions or Modifications**

Students are expected to follow these procedures when making special requests for academic program exceptions or modifications, e.g., grade transfers, course waivers, adjustments to requirements, program accommodations, time extensions, or leave of absences. This is the graduate school policy for “Leave of Absence” from their website: [http://handbook.unc.edu/masters.html](http://handbook.unc.edu/masters.html)

Within the five-year limit, a student in good academic standing may request one leave of absence from graduate study for a definite, stated period of time (up to one year) during which the student does not plan to make academic progress. To be eligible for a leave of absence, a student should not have received an extension of the degree time limit and not have temporary grades of IN or AB in courses taken.

In advance of the leave period, the student must complete and submit a Request for Leave of Absence Form ([http://gradschool.unc.edu/pdf/loareq.pdf](http://gradschool.unc.edu/pdf/loareq.pdf)) to The Graduate School. This form requires approval by the academic program. If The Graduate School approves the leave of absence, the time of that leave will not count against the total time allowed for the degree. Re-admission to The Graduate School after an approved leave of absence is generally a formality. Ordinarily, a leave of absence may not be renewed. Students should be aware that while on leave, they cannot be considered enrolled students and therefore will not have access to campus services and benefits afforded to enrolled students, including eligibility for holding student employment positions (e.g., TA or RA) or student health insurance, among other services.

Students taking advantage of the Parental Leave Policy do not need to file a separate Leave of Absence request. Information about other types of leaves can be found at: [http://handbook.unc.edu/medical.html](http://handbook.unc.edu/medical.html)

For other academic program exceptions or modifications (e.g., grade transfers, course waivers, adjustments to requirements, program accommodations), faculty decisions made at a given time regarding the request of a student or class only apply to that specific request and will not have ramifications in any other respect. Students must first discuss their issue with their faculty advisor to determine whether this warrants a program exception or modification. If the advisor believes it is an appropriate request, then the student should propose it in writing. All requests must be submitted in writing to the student’s academic advisor (or Division Director in the absence of an advisor) specifically making the formal request for faculty consideration. Students can make a formal written request by e-mail or letter to their advisor and are responsible for providing the information needed in order to make the decision. Division Faculty will review each request at their next earliest scheduled faculty meeting.
Decisions made by the faculty will be recorded in the faculty minutes of the meeting. A formal reply will be sent within a week following the faculty’s decision by either e-mail from the student’s advisor or by a letter from the Director to the student.

Grading
Grades used in the evaluation of the performance of UNC-CH graduate students are as follows:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Description</th>
<th>Division Numeric Scale</th>
</tr>
</thead>
<tbody>
<tr>
<td>H</td>
<td>Clear Excellence</td>
<td>93-100</td>
</tr>
<tr>
<td>P</td>
<td>Entirely Satisfactory</td>
<td>83-92</td>
</tr>
<tr>
<td>L</td>
<td>Low Passing</td>
<td>75-82</td>
</tr>
<tr>
<td>F</td>
<td>Failed</td>
<td>&lt;75</td>
</tr>
</tbody>
</table>

Late assignments may not be accepted. If the late assignment is accepted, it will be subject to a loss of points. The grade for any assignment turned in late in any class in the program within one week of the due date will result in a 10% grade drop. To clarify, any assignment turned in 1 minute to 1 week late will receive a 10% drop. After one week, a 20% drop in grade is assigned automatically. Please submit assignments on time to avoid these penalties.

Tests/midterms/final exams will not be rescheduled unless a student has a death in the family, is hospitalized, is very ill (e.g., fever) and has a doctor's note or is quarantined due to COVID.

A grade of L should be cause for concern and every effort should be made by the student to determine and correct any deficiencies in study habits, writing ability, background knowledge, or other contributing factors. A student in a master’s degree program becomes academically ineligible for continued graduate study upon receiving any grade of F or receiving 9 or more credit hours of a grade of L.

A grade of P means that the student entirely meets the criteria for graduate level study and practice based on the assignment or coursework completed.

A grade of H means that the student excels in graduate level study and practice based on going over and above the levels expected of CRC and CMHC students on the assignment or coursework completed.

A grade of Incomplete may be given when a student cannot complete a course within the allotted time. An Incomplete will not be given prior to midterm. If a student cannot complete coursework prior to midterm, withdrawal from the course or program is an approved option. After midterm, faculty give an Incomplete only in exceptional circumstances such as in the case of illness or death in the family. Please talk with your professor and your advisor if you are considering an INC.

A delay in finishing a course usually causes an overload of work in subsequent semesters. A graduate student has one calendar year to remove a grade of Incomplete. If an Incomplete is not removed after one year and an extension has not been granted, the Incomplete automatically becomes an F, thus making the student ineligible to continue in graduate studies.

Additional information on grading is available in the Graduate School Handbook. Students with concerns about grades should first see the instructor. Those who feel that there has been an error in grading can follow the steps described below for grievances and petitions.
Grievances and Petitions

Reinstatement
The Graduate School Handbook outlines the procedures for petitioning for reinstatement after a student is declared academically ineligible.

Student Grievances: Informal Dispute Resolution
The Division is committed to resolving student complaints received about the program, curriculum, or other general training-related concerns. If you have a concern or complaint, including complaints about grades, petitions for reinstatement following academically ineligible determinations, other students, or professors, students are encouraged to follow the informal dispute resolution steps below to seek resolution.

Submitting a Complaint

**Step 1:** First try to resolve your complaint informally by talking with the person most directly connected to your concern. This person may request that you provide additional documentation or schedule an appointment to address your concern.

**Step 2:** If you think your complaint was not properly addressed in Step 1, you may submit a complaint to either (1) your advisor or (2) the Division Director. When presenting the complaint, please include (1) your actual complaint (be as specific as possible), and (2) the outcome you are seeking. Again, a meeting or additional paperwork may be requested at this point.

You can request an appointment to discuss your problem or submit a letter detailing your concern, which still may entail a subsequent meeting to discuss additional details and/or the resolution. When presenting the complaint, please include: (1) your actual complaint (be as specific as possible), (2) the outcome you are seeking, and (3) why the solution from step 1 was not suitable for you. In this step, you, with the person directly involved in your concern and your advisor will develop a resolution. Again, you may request this on paper and agree to it or appeal it. If for some reason this is not satisfactory for you, please refer to the steps outlined below.

**Step 3:** If you are not satisfied with the resolution generated in Step 2, you may submit a formal complaint to the Division Director. If the complaint involves the Division Director, complaints should be submitted to the SOM Associate Dean, Dr. Hooper. When presenting your complaint, please include: (1) your actual complaint (be as specific as possible), (2) the outcome you are seeking, and (3) previous attempts to resolve the complaint and why you think those were not sufficient. The Division Director or, as appropriate, the SOM Associate Dean or their designee, will address the complaint. This may involve additional meeting(s) with the parties involved. A resolution will then be issued.

**Step 4:** If the problem remains unresolved, the Dr. Hooper will refer you to the SOM Associate Dean or their designee to process your complaint.

Student Mistreatment and Learning Environment Concerns
If you are concerned about student mistreatment or the learning environment, you can also submit an anonymous or named report to the SOM Assistant Dean of Student Affairs. The UNC SOM takes allegations of student mistreatment very seriously. Examples of mistreatment include sexual harassment; discrimination based on race, color, gender, national origin, age, religion, creed, disability, veteran’s status, sexual orientation, gender identity or gender expression; purposeful humiliation, verbal abuse, threats, or other forms of psychological mistreatment; and physical harassment, physical endangerment and/or physical harm. More information and the full student mistreatment policy can be found here, as
well as the link to submit a report: https://www.med.unc.edu/md/governance/student-mistreatment-and-learning-environment-concern-policy-and-process/

The University Ombuds Office
In addition to the Division’s Informal Dispute Resolution Process, students may also consult with the University Ombuds Office at any time to address matters of concern. The Ombuds Office listens to complaints, provides information, facilitates communication, and helps arrange mediation or conflict resolution between or among members of the University’s faculty, staff, and postdocs. Use of the Ombuds Office is voluntary and free. More information about the Ombuds Office and additional resources are available at http://www.ombuds.unc.edu. Please note that the Ombuds Office supplements, but does not replace, the University’s formal channels of filing a complaint and does not serve as a place to put the University on notice of claims. So long as there is no imminent risk of serious harm, consultation with the Ombuds Office is confidential.

The University’s Equal Opportunity and Compliance Office
Students who believe that they may have been discriminated against or harassed based on their age, color, creed, disability, gender, gender expression, gender identity, genetic information, race, national origin, religion, sex, sexual orientation, or veteran status (their “protected status”) should contact the University’s Equal Opportunity and Compliance Office (http://eoc.unc.edu) or the University’s Title IX Compliance Coordinator (https://eoc.unc.edu/whoweare/our-team/). Further information about the complaint process and the University’s Policy on Prohibited Discrimination, Harassment, and Related Misconduct, including Sexual and Gender-Based Harassment, Sexual Violence, Interpersonal Violence and Stalking (the “Policy”) can be found at that website. Retaliation against an individual because of their good faith participation in the reporting, investigation, or adjudication of violations of the Policy is prohibited.

Student Appeal Process
The Graduate School Handbook outlines a multi-step process for student appeals. Briefly, the steps to be followed by the students in the Division include:

- Address concerns with the faculty;
- If concerns are not resolved, lodge an appeal in writing with the Division Director (or if the Division Director made the directive being appealed, continue to Step 3);
- If concerns are not resolved, lodge an appeal in writing with the Chair of the Department of Health Sciences;
- If concerns are not resolved, submit an appeal in writing with the Dean of the Graduate School.

For more in-depth information on either the petition or appeal process, refer to the Graduate School Handbook (https://handbook.unc.edu/). All students must follow the procedures set forth in the Graduate School Handbook for any grievances or petitions.

Course Evaluations
At the end of each course, students evaluate stated learning objectives and instructor effectiveness. Evaluations are given anonymously under a confidential procedure. Each student is encouraged to give their opinion about the strengths and recommendations of each course. Fair and honest student feedback is an important component of overall curriculum evaluation. Dissatisfaction or frustration with course assignments, related in- and out-of-class activities, and grades received should be discussed directly with the instructor during the semester. Personal attacks are not considered professional behavior and do little to provide information that would be helpful in improving the course or the program. The faculty member and the Division Director read course evaluation forms annually. The Chair of the Department of Health Sciences reviews the Division Director’s course evaluations. Student evaluation is one element of a faculty member’s Teaching Portfolio and summaries of course evaluations are used in decisions regarding the instructor’s reappointment and/or promotion.
Student Use of Division and University Resources

Copying and Printing
Students are not permitted to use the Division/DAHS copiers for personal use. Printers are available to students in the Division student Lab. The Division will provide limited cartridges and paper as the budget allows. Students are responsible for making copies of records (e.g., health insurance, CPR cards) submitted for fieldwork. Please do not ask office staff or faculty to make exceptions. Students can make copies using cash in the following locations: Davis Library, Law Library, Undergraduate Library, Health Sciences Library, SILS Library, Wilson Library Annex, Carrington Hall, Sloane Art Library, Carroll Hall, and Philips Hall. Students who are enrolled full-time are provided with an allocation of 400 pages per semester by the UNC One Card office for free printing in University ITS labs. Once the 400 pages are used up, students will be required to add funds to their OneCards to pay for printing. The rate for printing is 10 cents per page for black and white documents and 30 cents per page for color documents. Currently, there are sixteen ITS labs located on UNC’s campus. The list of their locations can be found at https://edtech.unc.edu/service/cci-printing/#wheretoprint. Please contact the UNC One Card Office at 919-962-1385 if you have further questions regarding usage of your printing allotment.

Lab (G083 Bondurant Hall)
Students are encouraged to use the large classroom in the lab area whenever class is not in session or otherwise booked for meetings/events. The small conference rooms and the large lab classroom contain expensive taping equipment; therefore, strict guidelines must be enforced for its use. Students who wish to use the small conference rooms for taping purposes must use the sign-up sheets posted on the doors of the small conference rooms to reserve the time they need to have available for taping purposes only.

No food or drink is permitted in the taping rooms. A strict policy of carry-in/carry-out applies to the lab. No trash is to be left in any lab rooms as this area is not maintained by housekeeping. A refrigerator has been placed in the lab area for students to use; however, students are responsible for keeping it clean and removing perishable food items before spoilage occurs. If food is left unmarked in the refrigerator, it will be thrown out at the end of each week. Use of the refrigerator is a privilege, which can be withdrawn by the Division at any time. Important: The last student using any room(s) in the G083 complex is responsible for locking the door(s) when leaving to avoid problems with unauthorized access to (and possibly theft of) any resources located in the lab.

Supplies and Equipment
Office supplies and equipment are funded at a level to meet the needs of faculty and to enhance the educational process. Students are not permitted to use Division office equipment (examples are printers, computers, and telephones) in the 4th floor office suite without permission from faculty or staff. Students who are employed (Work Study, Graduate or Research Assistants) in the office may use office equipment as assigned for their respective office jobs, not for personal use or classroom assignments. Computers and a printer are available in the Division Lab, located in G083 Bondurant Hall, for students to use during open lab hours (which are posted on the lab door). Printer paper and ink cartridges will be provided by the Division as the budget allows. Otherwise, students are responsible for providing their own paper and replacing the printer cartridge at their own expense.

Telephones
Students are not permitted to use Division telephones for personal use without permission.

Student Alcohol Policy
Students and their guests aged 21 or older may possess and consume alcoholic beverages in individual campus residence hall rooms or apartments on campus, but not in common areas of residence halls on campus. Common source containers of alcohol (kegs) are not permitted on the UNC-CH campus. No public possession or consumption of alcohol is allowed at any time. No person, organization, or
corporation may sell or indirectly sell any kind of alcoholic beverage on campus. **No alcohol may be served or consumed in any University building or open space** except as provided in the University’s Guidelines. Consult the University Guidelines on Alcohol Use and Possession for clarifications and/or exceptions.

No Student Activity Fees or other University collected fees shall be used to purchase alcohol for use either on campus or off campus. No other funds of an officially recognized student group deposited or administered through the Student Activities Fund Office (from dues, donations, etc.) may be used to purchase alcohol for use either on campus or off campus.

**Adverse Weather**
The Division of Clinical Rehabilitation and Mental Health Counseling follows the University’s adverse weather policy. In the event of severe weather, students have several resources available for learning the current status of the University:

Adverse Weather Hotline: Call 919-843-1234 for a recorded message on the adverse weather status for the University. WEBSITE: Adverse weather condition levels can be found on the University homepage at [http://www.unc.edu](http://www.unc.edu) . RADIO: Regarding University operations and Chapel Hill buses, tune into Radio Station WNJW, 1610 am, the Travelers Information System. WUNC (91.5 FM) will also broadcast regular announcements regarding any weather-related closings. TELEVISION: Most local television stations will report weather-related closings during severe weather events.

Should the University close due to adverse weather an announcement will be made by the Chancellor or their representative. If conditions develop during the workday that require the University to close, the campus will be informed through regular administrative channels.

**THE HONOR CODE**
Academic work is a joint enterprise involving faculty and students. Both have a fundamental investment in the enterprise, and both must share responsibility for ensuring its integrity. In relation to the Honor Code, specific faculty responsibilities parallel student responsibilities. It will be expected that our students, especially in their first year, **sign a pledge on all graded academic work** certifying that no unauthorized assistance has been received or given in the completion of the work. The full text version of the “Instrument of Student Judicial Governance for the University of North Carolina at Chapel Hill” is available on-line at: [https://studentconduct.unc.edu/sites/studentconduct.unc.edu/files/documents/Instrument.pdf](https://studentconduct.unc.edu/sites/studentconduct.unc.edu/files/documents/Instrument.pdf)

**Honor Code: Student Responsibilities**

To conduct all academic work within the letter and spirit of the Honor Code which prohibits the giving or receiving of unauthorized aid in all academic processes.

To consult with faculty and other sources to clarify the meaning of plagiarism, to learn the recognized techniques of proper attribution of sources used in the preparation of written work, and to identify allowable resource materials or aids to be used during examination or in completion of any graded work.

To sign a pledge on all graded academic work certifying that no unauthorized assistance has been received or given in the completion of the work.

To comply with faculty regulations designed to reduce the possibility of cheating - such as removing unauthorized materials or aids from the room and protecting one's own examination paper from view of others.

To maintain the confidentiality of examinations by divulging no information concerning an examination,
directly or indirectly, to another student yet to take that same examination.

To report any instance in which reasonable grounds exist to believe that a student has given or received unauthorized aid in graded work. Such a report should be made to the Office of the Student Attorney General or the Office of Student Affairs.

To cooperate with the Office of the Student Attorney General and the defense counsel in the investigation and trial of any incident of alleged violation, including the giving of testimony when called upon. Nothing herein shall be construed to contravene a student's rights enumerated in Section V.A.2.b. of the instrument.

*The Honor Code is available in the Instrument of Student Judicial Governance, via this link: http://studentconduct.unc.edu/sites/studentconduct.unc.edu/files/documents/Instrument.pdf*

**Honor Code: Faculty Responsibilities**

To inform students at the beginning of each course and at other appropriate times that the Honor Code, which prohibits giving or receiving unauthorized aid, is in effect. Where appropriate, a clear definition of plagiarism and a reminder of its consequences should be presented, and the extent of permissible collaboration among students in fulfilling academic requirements should be explained.

To identify clearly in advance of any examination or other graded work the books, notes, or other materials or aids which may be used; to inform students that materials or aids other than those identified cannot be used; and to require unauthorized materials or aids to be taken from the room or otherwise made inaccessible before the work is undertaken.

To require each student on all written work to sign a pledge, when appropriate, stating that the student has neither given nor received unauthorized aid. Grades or other credit will not be awarded for unpledged work.

To take all reasonable steps consistent with the existing physical classroom conditions, such as requiring students to sit in alternate seats, to reduce the possibility of cheating on graded work.

To exercise caution in the preparation, duplication, and security of examinations (including make-up examinations) to ensure that students cannot gain improper advance knowledge of exam content.

To avoid, when possible, reuse of instructor-prepared examinations, in whole or in part, unless they are placed on reserve in the library or otherwise made available to all students.

To exercise proper security in the distribution and collection of examination papers. To be present in the classroom during an examination when the instructor believes that their presence is warranted or when circumstances, in their opinion, make their presence necessary.

To report to the Office of the Student Attorney General or the Office of Student Affairs any instance in which reasonable grounds exist to believe that a student has given or received unauthorized aid in graded work. When possible, consultation with the student should precede reporting. Private action as a sanction for academic cheating, including the assignment, for disciplinary reasons, of a failing grade in the course, is inconsistent with faculty policy and shall not be used in lieu of or in addition to a report of the incident.

To cooperate with the Office of the Student Attorney General and the defense counsel in the investigation and trial of any incident of alleged violation, including the giving of testimony when called upon.

The student and faculty responsibilities are not all inclusive. They constitute the minimum required of members of the faculty and of the student body. Nor are they mutually exclusive. The obligation of a
faculty member or a student to uphold the values of academic integrity in this University shall not be
lessened or excused by any failure of the other to comply with their responsibility.

ACCOMMODATIONS POLICY

The University of North Carolina at Chapel Hill is committed to assuring that all programs and facilities
of the University are accessible to individuals with disabilities. Every student has the opportunity to
voluntarily self-identify with the University as having a disability that substantially limits one or more of
the student’s major life activities. The form for official self-identification is available on-line through the
Office of Accessibility Resources & Service (ARS) at https://accessibility.unc.edu/register. ARS will
determine if a student is eligible for an accommodation. Accommodations must be requested by a student
in a timely manner, which will allow ARS to review documentation, determine eligibility, and establish
any accommodations. Please note that identifying as having a disability to an individual professor,
school, department, or office other than ARS is NOT considered an official request to the University
for accommodations. Faculty who are contacted by a student identifying with a disability should
encourage the student to directly contact ARS. In order to be eligible for accommodations, a student must
register with ARS as outlined above and any accommodations must be approved through ARS. Faculty
cannot provide accommodations without documentation from ARS. Students who are not seeking a
specific accommodation are still encouraged to self-identify with ARS to learn more about available
support and resources. More information about ARS is available online at accessibility.unc.edu

REHABILITATION SERVICES ADMINISTRATION (RSA) SCHOLARS GRANT
POLICY

We are currently entering the 5th year of two, 5-year RSA training grants. Students will be given
information about how to apply for the RSA grants at the start of each school year. RSA scholars receive
over $5,000/semester for the 4 semesters they are chosen to be an RSA scholar (Fall and Spring each
year).

Terms and Conditions of Eligibility for an RSA Scholarship Stipend
The following conditions must be met by the scholar in order to be eligible to receive the RSA scholarship
stipend: (1) provision of documentation that the applicant is a U.S. citizen and lawful permanent resident
of the United States for other than a temporary purpose, (2) expressed interest in a career in clinical
practice, administration, supervision, teaching, or research in the vocational rehabilitation, supported
employment, or independent living rehabilitation of individuals with disabilities, (3) expectation to
maintain or seek employment in a designated State rehabilitation agency or in a nonprofit rehabilitation,
professional corporation, professional practice group, or related agency providing services to individuals
with disabilities under an agreement with a designated State agency, (4) attendance of the institution for
no more than four academic years, and (5) provision of Certification of Eligibility for Federal Assistance
and (6) completion of the CRMH 600 hour internship in a designated State rehabilitation agency or in a
nonprofit rehabilitation, professional corporation, professional practice group, or related agency providing
services to individuals with disabilities under an agreement with a designated State VR agency.

Pay-back of Service / Repayment of Scholarship Stipend
In order to receive the scholarship stipend the scholar must: (1) maintain employment in a nonprofit
rehabilitation agency or related agency or in a State rehabilitation or related agency, including a
professional corporation or professional practice group through which the individual has a service
arrangement with the designated State agency, (2) on a full- or part-time basis, (3) for a period of not less
than the full-time equivalent of two years for each year for which assistance of the scholarship stipend
was received, and (4) not more than the sum of the number of years required and two additional years.
In the event that the scholar is unable to meet the above requirements, repayment of all or part of any scholarship received, plus interest, is mandatory with a possibility of collection fees. A scholar enters repayment status on the first day of the first calendar month after the earliest of the following dates: (1) date the scholar informs the office assistant, they do not plan to fulfill the employment obligation under the agreement; or (2) any date when the scholar's failure to begin or maintain employment makes it impossible for that individual to complete the employment obligation within the determined number of years required.

Deferral or Exception to Performance or Repayment
To obtain a deferral or exception to performance or repayment under a scholarship agreement, prior to the 2 year grace period following graduation a scholar shall provide to the Payment Information Management System (PIMS): (1) Written application to the office assistant to request a deferral or an exception to performance or the repayment of a scholarship; and (2) Documentation: (a) Documentation must be provided to substantiate the grounds for a deferral or exception; (b) Documentation necessary to substantiate an exception under Sec. 386.41(a)(1) or a deferral under Sec. 386.41(b) (5) must include a sworn affidavit from a qualified physician or other evidence of disability satisfactory to the office assistant; or (c) Documentation to substantiate an exception under Sec. 386.41(a)(2) must include a death certificate or other evidence conclusive under State law. If a scholar exits the program prior to graduation, the repayment process begins as noted above.
SECTION III: ACADEMIC ADVISING

ACADEMIC ADVISING

Graduate education in CRC and CMHC is a combination of academic preparation, skill development, and personal growth. To aid you in this process and to guide you through the University system, a faculty member will be assigned as your primary advisor. The faculty advisor will approve your academic program and help you plan any supplemental experiences necessary for your development as a clinical rehabilitation counselor or clinical mental health counselor. The advisor will be able to answer your questions regarding the curriculum, provide you with feedback as to your progress, and facilitate your entry into your career as a clinical rehabilitation or mental health counselor. Your faculty advisor must serve as the Committee Chair of your master's paper, project, or thesis. You choose the faculty member who will serve as your reader. Only core faculty members can serve as readers (Adjuncts cannot serve as 2\textsuperscript{nd} readers). You can designate someone outside the program, who may be a specialist in the topic area you choose, as an additional 3\textsuperscript{rd} reader only.

Each faculty member has special areas of interest, expertise, and work experiences. The faculty can provide you with different points of view. Take the opportunity to get to know your faculty advisor as well as the other faculty members. It is your responsibility to schedule advising appointments with your Advisor.

To assure an equitable workload for faculty and accessible advisors for students, the following procedure will be used:

The Division Director and faculty will meet to discuss incoming students’ interests and faculty will meet to assign students to academic advisors. A list of academic advisees will be distributed during Student Orientation. The assigned faculty member becomes the student's academic advisor.

Students and academic advisors will meet as often as is necessary to assure a sound course of study. Frequency and methods of contact will be determined mutually by the student and faculty. The academic advisor will document as appropriate. Academic or professional problems that could contribute to dismissal are reported to and discussed with the academic advisor. Any such information is documented by the advisor. All students are reviewed prior to registering for the following semester.

The academic advisor is responsible for providing general advice on academic affairs. The academic advisor’s duties do not include medical or psychiatric counseling of students. A student in distress will be referred to confidential personal counseling through UNC Counseling and Psychological Services (http://campushealth.unc.edu/services/counseling-and-psychological-services), particularly if issues pose a barrier to student safety or progression through the program. Faculty may decide to meet with advisees on an “as needed” basis and when appropriate, e.g., helping the advisee to decide on the specialization or assisting in making a formal request. Division faculty will maintain an open-door policy for advisement. Students are responsible for maintaining proactive communication with faculty advisors.

As previously stated, the academic advisor is also the Committee Chair for the Master’s paper, project, or thesis. All questions related to research should be directed to the Committee Chair. All questions regarding specific courses or course requirements should first be directed to the instructor of the course. Only when the academic advisor is also the instructor of the course should the advisor serve in a simultaneous role.

Students may change advisors no more than twice while enrolled in the program. If the student chooses to change advisors, they must do so prior to submitting the second draft of their paper to their Chair. Once they switch advisors, they start over with draft #1, so they may have to complete 3 additional revisions. Students may change faculty advisors in the following manner:
1. The student requesting a change of faculty advisor shall obtain permission from their current advisor as well as from the preferred advisor.
2. The student shall provide a written statement to both parties explaining the reasons for the change. Written requests will remain in the student’s file.
3. Both faculty members must agree to the change.
4. Faculty advisement loads will be taken into consideration. Therefore, every effort will be made to maintain an equitable distribution of students among advising faculty.
5. Faculty will determine new advisors as appropriate.

Student-faculty contact will be documented as necessary. All registration, records of course work, and other student program material will be documented as well as student performance reviews.

STUDENT REVIEWS

At regularly scheduled biweekly faculty meetings, time is set aside for faculty to discuss student performance in the program. The faculty may schedule a meeting as appropriate with advisees to review performance with specific students. Should specific action steps be recommended, the advisor would adequately document the meeting for the student’s file. The student may address any concerns they may have with their advisor or with the Division Director. During field placement courses, evaluation will be informed by site reviews. Forms used by site supervisors to evaluate students can be obtained in the respective manual for the appropriate clinical component. For more information see SECTION VI: CLINICAL EDUCATION component of this handbook.

Students are responsible for tracking their progress throughout the program and scheduling advising meetings as necessary. For instance, if a student feels they are at risk for exceeding the allowed number of “L’s,” it is the student’s responsibility to meet with the instructor and the advisor. In addition, students should check their transcripts regularly to make sure any incomplete grades or other grade-related issues are rectified. It is the student’s responsibility to ensure their INC grade is changed prior to it automatically becoming an F. When a student’s performance is below average, faculty may take steps to advise the student into a reduced load, e.g., part time.

End of Year Review

At the conclusion of the first year, students will complete the self-evaluation form again to report on their course grades, strengths, areas for improvement, and expectations for remediation where necessary. Faculty will collectively review students’ performance and provide feedback. This more comprehensive review will determine whether students may pursue clinical fieldwork and provide important feedback on professional development.

REGISTRATION

Students will be registered for Fall classes in their first semester by the Division Program Assistant. For all other semesters, the student will be responsible for their own registration (except part-time students or when classes have been blocked by the Division) after referring to the Division course curriculum and/or consulting with the advisor as questions arise. There will be some courses in your clinical education sequence that require that the Division enroll students such as Practicum and Internship as students must be first assigned to specific sections in these courses. If for some reason you are unable to register yourself, you can contact the Program Administrative Assistant Perry Studevent who will try to help you determine what the problem is and provide direction on how to correct the problem.

Pre-registration dates, times, and course offerings can be obtained from the UNC Registrar’s site.
Adding or Dropping a Course is another function that is handled through telephonic/on-line communication. It may be necessary to process "paper drop/add" forms which can be secured from either the Division Program Assistant, and/or the Registrar’s office.

Loss of registration during a clinical class can result in losing a clinical placement. Should a student be dropped from a clinical course, for any reason, the student is responsible for addressing consequences.
### Curriculum Overview: MS in CRC and MS in CRMH

The MS in CRC curriculum contains a total of 66.5 credits for the PD and DD track, and 68 credit hours for the Dual track, combining academic work and clinical experience.

The MS in CMHC curriculum contains a total of 63.5 credits for the PD and DD track, and 65 credit hours for the Dual track. A full-time student may require at least two calendar years of continuous enrollment; and part-time students may require up to four calendar years.

**Students pursuing the master’s degree in CRC are required to complete the following courses:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

SPECIALTY TRACK REQUIREMENTS

By the end of fall semester of the first year, full time students must identify the specialty track for their continuation of study. Note: Part time students must declare a specialization by the end of spring semester in their second year. Students select either the Developmental Disabilities (DD) track or Psychiatric Disabilities (PD) track or the Dual Track (both PD and DD).

Track requirements include:

- Master’s Paper, Project, or Thesis related to the population (Dual track students need to include both populations in their paper)
- CRMH 816 (DD) OR CRMH 818 (PD), either of the advanced practices courses (Dual track students need to take both of these courses)
- Internship with the population: CRMH 810 or CRMH 811 for Internship (See Section VI of this Handbook).

Elective Course:

Students who choose to take an elective must speak with their advisor to obtain guidance on potential courses. If students wish to explore possible course options on campus or through other graduate-level university programs, students must gain approval from their advisor prior to enrolling in the course.

To gain approval students must:

- Contact the course instructor and obtain a copy of the course syllabus.
- Provide verification that it is a graduate level course.
- Complete a brief rationale describing how this elective course will further knowledge and skill in practice as a clinical rehabilitation counselor and/or clinical mental health counselor.
- Submit all documents listed above to your advisor prior to enrolling in the course and await approval.

Although it is suggested that this course be taken during the summer session following year one, with approval this course can be taken at any time during the student’s program.
SECTION V: MASTER’S PAPER, PROJECT, THESIS

Note: Part-time students are required to propose their master’s paper by spring semester of their second year at the latest. They follow the schedule for the class in which they have enrolled in CRMH 800 and again for CRMH 992/993 in the following fall.

Please see the appropriate schedule for either the 1st or 2nd year class. In both cases, students are strongly encouraged to complete their master’s paper prior to these deadlines.

DEADLINE DATES FOR 1ST YEAR STUDENTS

Fall 2023
November 10, 2023 – Initial version of the literature review and methodology sections due to CRMH 800 Instructor. 7-8 pages of text. The initial version of the proposal paper is a condensed version of the proposal paper you will be developing during the Spring Semester of your 1st year of study. The final proposal paper length will be between 12-15 pages of text (no more than 15 pages), without the Title, Abstract and Reference pages.

Spring 2024

January 19, 2024 – First full draft of your proposal, including Literature Review & Methodology sections (12-15 pages) is due to your Research Chair. This will give you and your Chair time to revise the proposal as needed before the final draft of the proposal is due to your committee on April 12, 2024. Please note that a maximum of 3 drafts of the proposal will be reviewed by your Chair before a final proposal is created. Students should plan ahead to allow time for multiple drafts of the proposal before finalization. Students may be encouraged to seek assistance at the UNC Writing Center to achieve the best draft possible before the proposal meeting.

April 12, 2024 – FINAL COPY of your proposal is due to your Chair & Reader. Please don’t send your reader a copy of your proposal until your Chair has approved a final copy of the proposal. Specific requirements related to number of pages, inclusion of research questions, and a methodology section must be met before a proposal meeting can be scheduled. You MUST give the final copy of your proposal to your Chair and Reader at least one week before your formal proposal meeting. This is so they will have time to thoroughly review your proposal before the meeting.

April 26, 2024– Last day for formal proposal meeting with Research Chair and Reader. Last day of classes. Missing this deadline will cause your final grade to drop by a letter grade.

Fall 2024: Please note that you cannot begin practicum until you have proposed your paper, project or thesis.

October 14, 2024 - First full draft of the final paper due to your Research Chair. In general, the final paper should be 32 to 35 pages of text, not including Title, Abstract and References. Incomplete first drafts that are missing sections or significantly shorter than the required length of the final paper will be returned without review and will not be considered as a full draft submitted. Please note that a maximum of 3 drafts of the final paper will be reviewed by your Chair.
Spring 2025

January 13, 2025 - Second draft of the final paper due to the Research Chair. Final paper should be 32 to 35 pages of text, not including Title, Abstract and References. Please note that a maximum of 3 drafts of the final paper will be reviewed by your Chair before a final paper is created. Students are encouraged to seek assistance at the UNC Writing Center to achieve the best paper possible before the defense meeting.

April 4, 2025 - FINAL COPY of the paper due to Research Chair. Deadline for scheduling defense date with research Chair & Reader.

April 18, 2025 - Last day for paper defense. Missing this deadline will cause your final grade to drop by a letter grade and will delay graduation. Please remember that students doing a thesis have to meet all the graduate school thesis deadlines, which are much earlier than the Division paper and project deadlines. If you are doing a thesis, please make sure to stay on track with the graduate school deadlines if you wish to graduate on time.

Here is the link for thesis deadlines:
https://gradschool.unc.edu/academics/resources/graddeadlines.html
DEADLINE DATES FOR 2ND YEAR STUDENTS

Fall 2022

November 11, 2022 – Initial version of the literature review and methodology sections due to CRMH 800 Instructor. 7-8 pages of text. The initial version of the proposal paper is a condensed version of the proposal paper you will be developing during the Spring Semester of your 1st year of study. The final proposal paper length will be between 12-15 pages of text (no more than 15 pages), without the Title, Abstract and References.

Spring 2023

January 20, 2023 – First full draft of your proposal, including Literature Review & Methodology (12- 15 pages) sections is due to your Research Chair. This will give you and your Chair time to revise the proposal as needed before the final draft of the proposal is due to your committee on April 14, 2023. Please note that a maximum of 3 drafts of the proposal will be reviewed by your Chair before a final proposal is created. Students should plan ahead to allow time for multiple drafts of the proposal before finalization. Students may be encouraged to seek assistance at the UNC Writing Center to achieve the best draft possible before the proposal meeting.

April 14, 2023 – FINAL COPY of your proposal is due to your Chair & Reader. Please don’t you’re your reader a copy of your proposal until your Chair has approved a final copy of the proposal. Specific requirements related to the number of pages, inclusion of research questions, and a methodology section must be met before a proposal meeting can be scheduled. You MUST give the final copy of your proposal to your Chair and Reader at least one week before your formal proposal meeting. This is so they will have time to thoroughly review your proposal before the meeting.

April 28, 2023 - Last day for formal proposal meeting with Research Chair and Reader. Last day of classes. Missing this deadline will cause your final grade to drop by a letter grade.

Fall 2023

Please note that you cannot begin practicum until you have had a formal proposal meeting with your Chair and your reader to propose your paper, project or thesis.

October 13, 2023 - First full draft of the final paper due to your Research Chair. In general, the final paper should be 32 to 35 pages of text, not including Title, Abstract and References. Incomplete first drafts that are missing sections or significantly shorter than the required length of the final paper will be returned without review and will not be considered as a full draft submitted. Please note that a maximum of 3 drafts of the final paper will be reviewed by your Chair.

Spring 2024

January 13, 2024 - Second draft of the final paper due to the Research Chair. Final paper should be 32 to 35 pages of text, not including Title, Abstract and References. Please note that a maximum of 3 drafts of the final paper will be reviewed by your Chair before a final paper is created. Students are encouraged to seek assistance at the UNC Writing Center to achieve the best paper possible before the defense meeting.

April 5, 2024 – FINAL COPY of the paper due to Research Chair. Deadline for scheduling defense
date with research Chair & Reader.

**April 19, 2024** - Last day for paper defense. *Missing this deadline will cause your final grade to drop by a letter grade and will delay graduation.* Please remember that students doing a thesis have to meet all the graduate school thesis deadlines, which are much earlier than the Division paper and project deadlines. If you are doing a thesis, please make sure to stay on track with the graduate school deadlines if you wish to graduate on time.

Graduation timelines are published on the University Registrar’s Calendar found at: [https://registrar.unc.edu/academic-services/graduation/important-graduation-dates/](https://registrar.unc.edu/academic-services/graduation/important-graduation-dates/)

**RESEARCH PAPER/PROJECT/THESIS GUIDELINES**

Please make sure you are in the right section of CRMH 992 or 993. You should register for the section under your advisor’s name. Please make sure to sign up for CRMH 992 if you are doing a paper or a project. Sign up for CRMH 993 if you are doing a thesis.

Please note that faculty will not review more than three drafts of proposals and final papers. *It is the student’s responsibility* to make sure that the paper is defended by the appropriate deadline. *The first draft of the final research paper/project must include a full results and discussion sections and must be within the page range requirement.*

Research Chairs need time to read through student drafts of papers. Please do not expect a one-day turnaround on a paper draft. **Faculty will need a week or more to read through and edit a paper**, so you need to factor faculty turnaround time into your plans for completing your paper on time.

Each time you give your Chair a draft of your proposal or final paper, your Chair will make comments and edits to your paper using track changes to improve the paper. It is critical that you respond to every comment/suggestion. If you do not respond to your Chair’s comments and make the required changes, your Chair will return the paper to you without reading it and ask you to respond to his/her comments. This will delay your progress on your paper.

**Please do not give your reader a draft of your proposal until your Chair tells you to do so.** Remember that after your Research Chair indicates that your final draft is ready to be given to your reader, **your Reader needs to have the paper for at least one week before the proposal meeting and final defense can be scheduled.** You need to factor that week into your plans so that you can complete your paper on time.

It is your responsibility to schedule time with your Research Chair and your Reader for your proposal meeting and final defense. Do not leave this important task to the last minute because you risk missing the deadline if faculty is not available. **Please note that your grade will automatically drop by a letter grade if you miss the deadline for either your proposal meeting or the final paper defense. No presentations will be scheduled over the winter holiday or over summer terms (after deadlines).** If 2nd year students miss the spring semester deadline for paper defense, the defense can be scheduled when the fall semester begins. Such a delay may also extend the 992 or 993 course, potentially putting you into your 3rd year. Please note that extending the paper/project/thesis requirement may delay completion of other requirements and hinder completing clinical education on time. You bear full responsibility for additional costs due to such delays until you graduate. If you must defend your final paper in the fall semester of your 3rd year and you have completed all of your courses, you will be able to graduate in December (this will occur later for part-time students who can extend their program in a similar way).
Guidelines for Your Paper/Project PROPOSAL Meeting

1) The presentation should last no longer than 20-25 minutes, to allow for questions and discussion, so be succinct! This is a professional presentation, please dress appropriately, as you would if you were presenting at a conference.

2) For the proposal presentation:
   a. Explain the purpose of your paper/project and why you chose this topic.
   b. You must have a power point or Prezi presentation. Include a series of slides that describe the findings from your literature review. Model it after your paper but be succinct.
   c. State your research questions and why you chose them.
   d. Describe your methodology. How do you intend to answer your research questions?
   e. Provide a slide or two on implications for Clinical Rehabilitation Counselors or Clinical Mental Health Counselors: Why is this important for Rehabilitation Counseling or Mental Health Counselors to know? If doing a project, how/when might they use the project/manual/tool/your product?
   f. Proposal presentation should include NO MORE THAN 15 slides total.

3) It is your responsibility to contact your Chair and reader to set up a date/time for your proposal meeting. Please be mindful that faculty schedules are very tight so you may need to be flexible. Getting things done early will ensure that you do not miss the final deadline!
   a. Once the date/time is set, sign up on the room reservation sheet outside the lab to reserve the lab for your presentation, or schedule a Zoom at UNC meeting and send the Zoom link if we are not meeting in person.

4) Provide hard copies of your PPT presentation to both your Chair and reader at the actual presentation.

5) Thinking Ahead: When your final paper/project is complete and approved you will be required to provide the Division with both an electronic and hard copy. If you are doing a project, it is strongly suggested that you begin working on getting that together ahead of time.

Guidelines for Your Paper/Project DEFENSE Meeting

1) For the defense presentation:
   a. Provide about 1-2 slides recapping your topic/research questions and why you chose it/them.
   b. Talk about your methodology and research questions (1-2 slides).
   c. Go over the findings section by section, explaining what the research says and answering your individual research questions. If a project, go over the project results/go through it section by section and back it up with the literature.
   d. One slide should list the limitations of the study/problem(s) you faced/what needs to be done next.
   e. Provide a slide or two on implications for CRCs and/or CMHCs and how/when to use the project/manual/tool.
   f. The presentation should be approximately 25-30 minutes, be succinct!
   g. Paper/project Defense presentation should include NO MORE THAN 20 slides.

2) It is your responsibility to contact your Chair and reader to set up a date/time for your defense meeting. Please be mindful that faculty schedules are very tight so you may need to be flexible. Getting things done early will ensure that you do not miss the final deadline!
   a. Once the date/time is set, sign up on the room reservation sheet outside the lab to reserve the lab for your presentation, or schedule a Zoom at UNC meeting and send the Zoom link if we
3) Provide hard copies of your PPT presentation to both your Chair and reader at the actual presentation.

4) Students must provide the Division with both an electronic and hard copy of their final paper/project that has been defended, revised, and approved by their Chair and reader. Both electronic and hard copies (the hard copy must include the signatures of the Chair and reader) should be submitted to your Chair.

5) Students must provide information regarding their paper/project/thesis title and PID to Perry Studevent in Health Sciences Student Services prior to your defense meeting so he can prepare the required graduation paperwork in advance. These documents will be signed by your chair and reader once you successfully complete your defense and then forwarded to the Graduate School in order for you to graduate (3 forms at the end of the Handbook).

Research paper/project/thesis

The successful completion and defense of a master's thesis, paper, or project is required as partial fulfillment of the requirements for graduation. The development of a master's thesis, paper, or project idea usually begins in the fall of the first year once the student has selected a specialty track. The student discusses their ideas with their Advisor prior to beginning writing the proposal. The student’s academic advisor will be the Committee Chair and a Reader is chosen at the discretion of the student. The reader must be a core faculty member (Burker, Chan, Morrison, Rak, Rose, Schmidt). There is an option for adding an additional Reader. If you feel that you would benefit from an additional reader from someone outside the core faculty, please discuss this with your Chair prior to asking a 2nd reader.

The research course (CRMH 800), in the fall semester Year 1, introduces research design, methodology, and proposal development. The introduction portion of the proposal is developed in CRMH 800 under the guidance of the CRMH 800 course instructor. Please meet with your academic advisor as you decide on the topic you plan to work on in the research course.

The formal paper, project, or thesis will be developed under the guidance of the student’s Committee Chair. Both a formal proposal meeting and a final defense with the Committee Chair, reader(s), and the student are required for CRMH 992 and CRMH 993. During both meetings, the student will use a multimedia slide presentation to propose and defend their paper, project, or thesis. Clean copies of all papers must be submitted in electronic form (or photo of project if not in electronic form) to the Chair of the student’s committee after completion of the student’s successful defense in order for students to graduate. Graduation timelines are published on the University Registrar’s Calendar found at: http://registrar.unc.edu/academic-services/graduation/important-graduation-dates/

The master's thesis is an in-depth research project within the specialty track directed by a research committee that includes three graduate faculty, two of whom must be members of the Division faculty. The Graduate School will accept only theses produced according to the standards in the Graduate School’s Thesis and Dissertation Guide. Theses must be prepared in a form consistent with approved methods of scholarly writing and research. If a student chooses to do a master's thesis, they are required to adhere to the Graduate School thesis requirements, timelines, and guidelines. Final defense meeting is with all committee members. Please see the following link for additional information on the Thesis option: http://gradschool.unc.edu/etdguide/
The *master's paper* is an in-depth analysis or review of a problem that deals with a relevant issue within the specialty track. The Master’s Paper option does not require the student to collect data, but rather is an extensive review of the literature to answer specific research questions. The Master’s Paper must be successfully defended by April 19, 2024, for 2nd year students and April 18, 2025 for 1st year students.

The *master's project* is a specific activity related to the specialty track (e.g., further specialized training, implementing a program or a survey, creating a treatment manual) and then presented in a final written report. For a project, the research Committee Chair and reader(s) have to meet with the student for a proposal meeting. The student’s advisor will be their Committee Chair and a Reader must be chosen after consultation with the Committee Chair. The proposal needs to be reviewed by the Committee. The final version of the project needs both the Committee Chair’s and reader’s approval. Master’s projects must be successfully defended by April 19, 2024, for 2nd year students and by April 18, 2025 for 1st year students.

Once you receive approval from your Chair that you have a final draft, you send a final and clean version of your proposal to your Chair and your reader. Once the three of you determine a day and time for your proposal meeting, it is your responsibility to send an Outlook invite with a zoom link included in it to reserve the time and day on everyone's schedule. Similarly, if meeting in person, you are responsible for reserving a room for your proposal or defense meeting.

**GRADED CRITERIA FOR ALL MASTER’S PAPERS, PROJECTS, & THESES**

All Master’s papers, projects, and theses will be in APA style and will follow the APA format of a paper. Papers must, at a minimum, include the following sections:

- Abstract
- Introduction (culminating in your research questions)
- Methods
- Results
- Discussion
- References

The APA style manual will be a critical resource as you write your paper. Know it thoroughly. In the Introduction/Literature review section, all the major journals in Clinical Rehabilitation Counseling and/or Clinical Mental Health Counseling should be reviewed. These include but are not limited to: Journal of Rehabilitation, Journal of Vocational Rehabilitation, Journal of Applied Rehabilitation Counseling (JARC), Rehabilitation Counseling Bulletin, Journal of Counseling and Development, Community Mental Health Journal, Society and Mental Health, Mental Health Journal, and Mental Health and Prevention. Other journals appropriate for the topic of the paper should also be reviewed as appropriate. You need to indicate in your Methods section that you will review the major journals listed above.

The body of the proposal paper should be 12-15 pages in length with a minimum of 30 references. *Title page, Abstract, and References do not count toward the 12–15-page length criteria.* Proposals should not exceed 15 pages without permission of the Chair. All proposals must include: 1) an abstract; 2) the introduction (at the beginning of literature review); 3) the methods, including the research question(s); and references.

- *The final paper should be at least 32-35 pages in length. Title page, Abstract, and References do not count toward the 32–35-page length criteria. Note: For Master’s Projects, the length
of the project may vary depending on the type of project being completed and will be
determined at the discretion of the Committee Chair.

Your grade for the Paper, Project, or Thesis will be based on:

Content/Quality
- Content and quality of your writing, journal quality writing is expected, including proper
  paper structure, organization and flow, and correct spelling, grammar, and punctuation, etc.
- The degree to which APA style is met throughout each draft of your paper
- The soundness of your research question, the conceptualization of a research plan, and the
degree to which you successfully answer your research question
- The extent to which you incorporated feedback from your chair and reader in the editing/writing
  process.

Deadlines
- The extent to which you meet the assigned deadlines throughout the course of both the proposal
  and defense portions of the research project.

Presentation
- Professional attire
- Clear, logical power point presentation
- Ability to answer questions about your paper, project or thesis
- Clear, coherent communication of knowledge, science, and findings

As your Chair will only review your proposal and final paper drafts a maximum of three times each prior
to being sent to your reader, use their comments wisely to maximize their input and the quality of your
paper.

If your first draft contains significant changes, please consider working with the UNC Writing Center to
benefit from their free assistance. Take advantage of all the resources available to you to grow as a writer
during your time at UNC!

It is a graduate school rule that students must be enrolled in CRMH 992 or 993 every semester they
are working on their paper, project or thesis. Once the paper, project or thesis is complete, you do
not need to enroll in CRMH 992 or 993.

Grading Rubric for the Master's Paper, Project & Thesis

<table>
<thead>
<tr>
<th></th>
<th>Poor</th>
<th>Good</th>
<th>Excellent</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Introduction</strong></td>
<td>Little reference to the topic or audience, and/or minimal relevance to Rehab/ MH Counseling and/or problem statement and research questions.</td>
<td>Problem or topic is addressed but lacks a compelling rationale for purpose of research.</td>
<td>Topic clearly outlined and the introduction lays the groundwork for the direction of the paper.</td>
</tr>
<tr>
<td><strong>Orientation to topic</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Problem Statement</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Body</td>
<td>Content loosely related to research questions. Excessive quoting of material and other research.* Seminal research missing.</td>
<td>Pertinent content included but depth and detail could be stronger. The significance to Clinical Rehabilitation Counseling or Clinical Mental Health Counseling is evident. Answers research questions.</td>
<td>Appropriate content is covered in depth with no redundancy. Appropriate use of citations. Fully answers research questions. Each paragraph ends with a transition sentence that leads the reader into the next paragraph or section.</td>
</tr>
<tr>
<td>Conclusions</td>
<td>Little or no indication of synthesis of information. Little or no indication of recommendations to Clinical Rehabilitation Counseling and Clinical Mental Health Counseling.</td>
<td>Analysis and synthesis of ideas is clear. But some conclusions are not supported by the literature review. Implications for Clinical Rehabilitation Counseling or Clinical Mental Health Counseling are discussed.</td>
<td>Succinct and precise conclusions based on the review of the literature are made. Insight into the topic is appropriate. Conclusions and implications for future research and practice are strongly supported.</td>
</tr>
<tr>
<td>Grammar and Style</td>
<td>Writing is difficult for reader to understand expression of ideas. Paper contains spelling, grammatical, and punctuation errors. In-text citations are not correct and do not match the reference list.</td>
<td>Writing is clear, but meaning is sometimes obscure. Paragraph or sentence structure is not strong. References within the body of the paper correspond to reference list. Some formatting problems exist or some components are missing.</td>
<td>Writing is clear, sophisticated, and engaging. Appropriate content is covered in depth without being redundant. Use of citations is appropriate, and the significance of quotes is apparent. APA formatting followed throughout.</td>
</tr>
<tr>
<td>Presentation</td>
<td>Nonprofessional appearance and presentation manner. Poor slide quality, difficult to follow, or unclear (ex. Reading from notes; too much information on slides; lack of references; difficult to read, etc.).</td>
<td>Professional appearance. Clear presentation with occasional difficulty. Knows material but does not demonstrate mastery of topic. Able to answer most questions from committee. Slides adequately cover material.</td>
<td>Professional appearance. Succinct and clear delivery of material. Answers to questions reflect mastery of topic. Easily answers questions from committee. Professional slides.</td>
</tr>
</tbody>
</table>

*Use quotations sparingly. Paraphrase the literature that you are presenting and cite your references per APA style. Use quotes only for impact or when paraphrasing results in a loss of impact. A good introduction will have a maximum of 1 to 3 quotes.
SECTION VI: CLINICAL EDUCATION

Students will receive both Practicum and Internship Manuals, which are separate from this Student Handbook, detailing specific information about clinical education requirements and assessment prior to their Practicum and Internship experiences.

Description of Clinical Experiences

The clinical portion of MS in Clinical Rehabilitation Counseling and MS in Clinical Mental Health Counseling consists of didactic/experiential and clinical course work. Please consult the curriculum section of the handbook for sequence of coursework.

Didactic/Experiential Coursework

CRMH 806: Applied Counseling Skills in Clinical Rehabilitation and Mental Health Counseling

This course blends didactic and laboratory instruction in order to bridge the gap between counseling theory and the application of counseling principles. Students will be presented counseling techniques and skills necessary to function as a professional rehabilitation and mental health counselor in the didactic portion of the course. The laboratory experience is designed to enhance interviewing skills and case conceptualization abilities that will prepare the student for practicum experience. Students will be expected to responsibly use video recording equipment for taping simulated situations, which will then be reviewed with the course instructor and also with the class. Prerequisite for this course is successful completion of CRMH 712: Diagnosis & Practice with a passing grade of “P” or better; failure to do so will prevent students from proceeding in the program. Students must complete CRMH 806: Applied Counseling Skills with at least a grade of “P” in order to enroll in CRMH 802: Practicum.

CRMH 714: Principles of Group Counseling

This course helps students learn strategies and techniques for developing and implementing groups in counseling. Attention is given to group counseling with persons with disabilities, specifically those with developmental and psychiatric disabilities. As part of the course, students will have the opportunity to learn about group process and procedures by leading the class through group activity as well as observing outside groups in various agencies and leading the class through small group exercises. Prerequisite for this course is successful completion of CRMH 702: Theories of Counseling, CRMH 712: Diagnosis & Practice, & CRMH 806 Applied Counseling Skills with passing grades of “P” or better; failure to do so will prevent students from proceeding in the program. CRMH 714: Group Counseling is a prerequisite for enrolling in CRMH 810: Internship. Students must complete CRMH 714: Group Counseling with at least a grade of “P” in order to enroll in CRMH 810: Internship.

Clinical Coursework

Note: Students are required to complete clinical courses uninterrupted as scheduled. Once clinical experiences have begun, students must continue uninterrupted on schedule in sequence, until the full course of activities is completed. In the case of personal hardship, which may preclude a student from continuing the clinical experience, a written request to withdraw from the experience must be submitted to faculty. If faculty agrees to grant the student request, the student must also send a letter to the site supervisor. The Clinical Instructor at the time will also contact the site supervisor to discuss the student’s discontinuation of the clinical experience. If faculty approves the student’s request, the student must repeat
the clinical sequence the next time it is offered.

Note: Students may be required to supply their own digital recorder to be used during their Practicum/Internship experiences. Students are required to lead or co-lead at least one group during their clinical training. This requirement must be fulfilled by the end of internship but may be accomplished in either practicum or internship.

**CRMH 802: Practicum**

Practicum provides CRMH students with the opportunity to apply counseling theory and skills learned in prerequisite courses to a real world, clinical setting, and equips students with opportunities to participate in other related rehabilitation and counseling activities at the facility. In addition, students are taught to utilize sound clinical judgment by applying ethical decision-making principles. Practicum facilitates development of basic counseling skills and prepares students for more advanced practice in their internship experience. The following topics will be covered in the didactic portion of practicum class: crisis intervention, assessing lethality, scope of practice and ethical standards for clinical rehabilitation counselors and clinical mental health counselors, professionalization, review of HIPAA guidelines, and practicum guidelines. In order to successfully complete Practicum, students must reach a level of competency in counseling as determined by the faculty supervisor and site supervisor and have had sufficient counseling experience so that all supervisors can document justifications for student advancement to more independent counseling functions in Clinical Internship. The Practicum experience consists of 8 to 10 hours per week at the practicum site for 15 weeks, with a minimum of 100 hours of clinical practicum experience in total. Students are expected to complete the full, uninterrupted 15 weeks of Practicum. At least 40 hours of this time must be spent in direct client service as defined in the Practicum Manual. Within the MS in Clinical Rehabilitation Counseling and MS in Clinical Mental Health Counseling programs, practicum experiences shall include an average of 2 hours per week of group supervision (with no more than 12 students/group) by a program faculty member in addition one hour of individual supervision by the practicum site supervisor.

Due to the developmental nature of practicum, students are expected to regularly work 8 to 10 hours per week in order to meet the practicum hour requirement (in certain instances students may be encouraged to participate in educational experiences that may contribute to their clinical development at the site). The faculty supervisor will determine whether more than 8 hours in a given week will be counted toward fulfilling the practicum hour requirement. Failure to obtain 40 hours of direct client service or failure to attain a minimum of 100 hours may result in the need to extend practicum until the full complement of direct client service hours is obtained. **Even if the minimum number of required hours is completed early in the semester, the student must remain at the practicum site until the end of the semester.**

The designated site supervisor must have at least a master’s degree in Rehabilitation Counseling or Mental Health Counseling (CRC and/or LCMHC required) or in another credentialed counseling-related field (e.g., Clinical or Counseling Psychology). Students are also required to attend a didactic seminar and group supervision as well. Only faculty pre-approved practicum sites may be utilized. All practicum placements must be within an hour and a half of traveling time from campus unless preapproved by the faculty.

**Practicum is a prerequisite to entering the Internship in CRC or Internship in CMHC course.**

Students must complete practicum with at least a grade of “P” in order to enroll in Internship. Failure to reach a minimum level of competence in the estimate of faculty and/or site supervisor may result in extending practicum, repeating practicum, or failing practicum.

**Students must start Practicum by October 1 or wait for the next year.**

**CRMH 810: Internship in CMHC or CRMH 811: Internship in CRC**

Internship is a full-time clinical experience consisting of 40 hours per week for 15 weeks at a faculty-
approved site consistent with the student’s chosen specialty track – DD, PD, or Dual track. Internship is designed to provide opportunities for students to refine their discipline specific counseling skills and to prepare students for successful entry-level employment as a master’s level Rehabilitation Counselor or Mental Health Counselor. During internship, in addition to further counseling experiences, students may also participate in service delivery such as case management, community re-entry, vocational placement, assessment, advocacy, and administrative activities.

During internship, students are required to complete the full 15 weeks, uninterrupted, and to have a minimum of 600 hours of applied experience in an agency pre-approved by Division faculty. **Students are expected to comply with the clinical site’s work schedule, which typically does not recognize class holidays such as Spring Break.** If students must take time off during internship, ample notice is to be given to your site supervisor and CRMH Clinical Coordinator and a plan must be in place to make up the time off. Please be aware that taking time off may delay completing internship and may delay graduation. At least 240 hours in internship must consist of direct service to consumers. Failure to attain direct client service hours or failure to attain the minimum internship hours may necessitate extension of the internship experience beyond the 15 weeks and potentially postpone a student’s graduation from the program. Students are required to have at least one hour per week of individual and/or triadic supervision on site by a designated faculty approved site supervisor. The designated site supervisor must have at least a master’s degree in Rehabilitation Counseling (CRC licensing required) or a master’s degree in Clinical Mental Health Counseling (LPC/LCMHC licensing required). Students are expected to attend and participate in group supervision on campus with Division faculty with no more than 12 students in each group. All internship placements must be within an hour and a half of traveling time from campus unless preapproved by the faculty. **Students must complete all the requirements for internship with a “P” or better in order to qualify for graduation from the program.** Students who fail to reach a satisfactory level of competence in the estimation of the faculty and/or site supervisor will, depending on the seriousness of the deficit, extend internship, repeat internship, or in the most severe cases, be dismissed from the program. Students should refer to the course syllabus for a complete listing of all requirements.

Students must start Internship by February 1 or wait for the next year.

**REQUIREMENTS FOR CLINICAL EXPERIENCE (Practicum and Internship)**

**Division Program Requirements for Clinical Education**

1. All practicum or internship sites must be pre-approved by faculty.

   **Sites approved by faculty for practicum or internship must meet the following educational and credentialing requirements:**

   a. **Education & Licensing:**

      **MS CRC Program:** Have at least one person at the site with at least a master’s degree in Rehabilitation Counseling or other rehabilitation counseling-related field who is willing to provide one hour per week of one-on-one supervision of the student. Clinical site supervisors must have CRC certification.

      **MS CMHC Program:** Have at least one person at the site with at least a master’s degree in Mental Health Counseling or other mental health counseling related field who is willing to provide one hour per week of one-on-one supervision of the student. Clinical site supervisors must hold LPC or LCMHC credentials.

   b. **Specialization:**

      **MS CRC Program:** Internship sites must serve individuals with disabilities, developmental or psychiatric disability or both, that fall within the student’s area of specialty.

      **MS CMHC Program:** Internship sites must serve individuals with disabilities,
developmental or psychiatric disability or both, that fall within the student’s area of specialty.
c. Have a signed and fully executed Affiliation Agreement between the School of Medicine and the agency.
d. Be recognized by state or federal licensure or accreditation by the accrediting body appropriate to that agency.
e. Be able to provide the student with a representative sample of the agency’s client population for counseling.
f. Allow students to tape the counseling session (or an approved alternative).

2. First and second year students **must** meet the following requirements to participate in clinical training:
   - Enrollment in personal health and accident insurance
   - Immunization record as well as any other specific health record required by the clinical site
   - Results of Tuberculosis Test
   - Current CPR certification
   - Record of Hepatitis B series (or Waiver as appropriate)
   - Completion of OSHA Training including blood borne pathogens and Tuberculosis/General Infection
   - Completion of HIPAA Training
   - Influenza vaccination each fall
   - Results of Drug Tests and fingerprinting (if required by Clinical Site)
   - Although not mandated, all students are strongly recommended to receive the COVID-19 vaccination and recommended booster(s). Some clinical training sites explicitly require vaccination.
   - All clinical training sites work on a site-specific schedule. Therefore, some sites begin interviewing earlier than other. Please allow for flexibility in this process.

3. Paid tuition receipt for CRMH 802: Practicum and for CRMH 810 or CRMH 811: Internship. Students cannot participate in any fieldwork related activity unless registration is complete with tuition and other requirements in place, with the student’s name appearing on the class roster. The Clinical Coordinator will verify registration prior to the student’s clinical start date. A delay in beginning practicum or internship will delay graduation.

4. In the extreme circumstance that a student has not successfully proposed their master’s paper, project, or thesis, they will not be allowed to begin practicum in the fall of their 2nd year.

5. Results of current criminal background check* (completed during summer after first year).

Criminal Background checks are facilitated through CastleBranch during the summer after the first year of courses before beginning clinical rotations in the Fall of the second year. Any problems with the system are to be addressed to CastleBranch Student Support: Student Support Line: 888-914-7279 Student Support Email: servicedesk.cu@castlebranch.com Do not contact Division faculty if you have problems with the program. We do not maintain the database or software.

To place your order, go to: https://portal.castlebranch.com/UE11
Package Names: UE17bg: Background Check Package –U.S. Students
UE17int: Background Check Package-INTL Students

To place your initial order, you will be prompted to create your secure myCB account. Please have ready 3 personal identifying information needed for security purposes. The email address you provide will become your username.

*Please be aware that a positive criminal background check may preclude you from participation in the clinical portion of the program. Please note you must complete the clinical components of the program in order to graduate. Students, who are concerned about this should contact their academic advisor or the Clinical Coordinator immediately.

**For Academic Year 2023-2024**, all students completing their clinical work are **required** to follow the COVID-19 guidelines for participating in clinical training established by the UNC School of Medicine and the Department of Health Sciences. These processes assure safety for students, clinical sites, and patients/clients being served. Students are also to comply with their clinical site’s guidelines for COVID-19 safety. Failure to comply with these guidelines may result in dismissal from clinical training and may possibly delay graduation.

Students are responsible for completing all requested requirements and providing the Clinical Coordinator with all documentation **before the semester starts or by the designated due dates via the class Sakai site. Students failing to complete all requirements and turn in documents on time will not be allowed to begin practicum in the fall.**

Students are also responsible for assuring that all clinical requirements remain in good standing and are current through the completion of internship in the spring. The Clinical Coordinator must have documentation reflecting the certifications by January 1, 2024, or internship may be delayed, thus possibly delaying graduation.

**Note:** When entering the program, even if certification or other requirements are not up for renewal, it is the student’s responsibility to renew requirements to meet 1) the deadline in order to remain within the Division course schedule and prevent any delays for entering practicum and 2) assure that all clinical requirements are current through internship ending in the spring. Students who withdraw from clinical experiences are responsible for renewing these requirements. All requirements must be updated and valid before students will be allowed to return to the clinical experience. It is the student’s responsibility to check with the selected practicum/internship site to determine if additional requirements or documentation are required.

**PROCESS FOR SELECTING CLINICAL SITES**

**Student placements at clinical sites are determined by several factors.**

- Placement at the site is determined by the availability of an opening at the site, a successful interview and an offer for practicum or internship opportunity by the site.
- A fully executed Affiliation Agreement between the site and the University is necessary.
- For MS CRC students, willingness of an individual at the site with at least a master’s degree or higher in Rehabilitation Counseling (CRC required) or closely related counseling profession to accept a practicum or internship student and to provide one hour of face-to-face supervision per week. For MS CMHC students, willingness of an individual at the site with at least a master’s degree or higher in Mental Health Counseling (LPC/LCMHC required) or a closely related counseling profession to accept a practicum or internship student and to provide one hour of face-to-face supervision per week.
● Specific interests and career goals of the student in collaboration and discussion with their academic advisor
● Student’s demonstrated skill and ability as well as professional presentation
● Final decisions on placement sites will be made based upon site availability, student interest in site, the faculty's judgment, and documentation of the student’s ability to perform the various tasks, duties, and demands of each site, and an offer for a practicum placement by the site supervisor following the site interview.
● The Clinical Coordinator or designee will share information with the site supervisor regarding the student’s strengths, limitations, and any accommodations that may be required prior to the final decision regarding a student’s placement.
● Even the best efforts to secure a placement site cannot account for all the possible factors which might influence securing a clinical site in a timely manner. The Division cannot guarantee a clinical site for every student, as a successful placement depends on certain factors that are beyond our control.
● If a student is offered a placement at a clinical site but chooses not to accept, this may delay your completion of practicum, internship or graduation. Failure to accept available clinical training experiences offered may delay program completion.

Note: New clinical sites are considered for approval by the faculty. In order for a prospective clinical site to be considered that is not on the approved list, faculty must have developed the placement and secured the signed affiliate agreement before a student can consider using the site. Developing a prospective placement site does not guarantee a clinical site will meet the approval criteria, only faculty can make that determination. A clinical site must be a Practicum site before serving as an Internship site.

**Practicum**

1. During the Spring Semester Year 1, students will receive an electronic list of all current clinical training sites from the Clinical Coordinator by mid-February. This list is expected to be reviewed by students prior to the Clinical Training Fair & prior to the Clinical Coordinators meeting with first year students later that month.
2. By late February, The Clinical Coordinator will meet with first year students to introduce clinical training, discuss clinical training site availabilities, review students’ areas of training interests, and disseminate the “Practicum Request Form.”
3. After attending the meeting with Clinical Coordinator and reviewing the sites, students must meet with their Faculty Advisor to discuss sites and work together to formulate their site rankings. Both student and advisor will sign the form indicating their support of the student’s practicum choices. Under no circumstances are students permitted to contact prospective placement sites directly.
4. Faculty, as a whole, will review student requests and make preliminary placement decisions. The final decision will be based on:
   a. Site availability
   b. Number of students choosing a particular site
   c. Student performance/skill level in Division Lab Class
   d. Faculty judgment regarding which site will best meet individual student needs.
5. The Clinical Coordinator or a designee will contact each site to confirm the site’s availability and willingness to take a student. Under no circumstances should a student contact a site directly.
6. Once this confirmation has been obtained, the Clinical Coordinator or a designee will notify each student of the availability of potential placement sites to work with a practicum student.
7. Once students receive confirmation of site availability, they should update their resume and have it reviewed by the Clinical Coordinator or a designee. Then students are connected with the site to arrange an interview. Students should view the interview in the same way as they would if they
were interviewing for a job at the site. **Individual sites have the right to make the final determination regarding whether the student will be able to complete and/or continue their practicum at the site.**

8. The Clinical Coordinator or a designee will notify the student of final placement once confirmation from the site is received. If the student’s first interview is not successful, then the Clinical Coordinators will notify the student and the process described above will be repeated.

9. If a student is offered a placement at a clinical site but chooses not to accept, this may delay your completion of practicum, internship, or graduation. Failure to accept available clinical training experiences offered may delay program completion.

10. **Students must start practicum by October 1 or wait for the next year.**

**Internship**

Prior to entering internship, students must have successfully completed all didactic/experiential course work, successfully completed CRMH 714: Principles of Group Counseling and CRMH 802: Practicum with a “P” or better and be recommended through faculty progress review.

All sites must be pre-approved by faculty and meet the criteria for faculty approved sites as described above. In addition, internship sites must serve the population that is consistent with the student’s chosen specialty of DD or PD, or both (Dual Track). A site must be a practicum site before serving as an internship site.

1. During the Fall semester Year 2, the Clinical Coordinator or designee will contact clinical sites for availability to work with interns and begin developing the list of available sites. Students should begin exploring specific interests for internship with their Faculty Advisor and the Clinical Coordinator early in their 1st year. **Under no circumstances should a student contact a site directly.**

2. By September 24 of their 1st year students should submit an internship request form to the faculty advisor and identify their top 3-4 sites. Students are to update their resume and have them reviewed by their faculty advisor or Clinical Coordinator.

3. All internship sites must be sites that have been pre-approved by Faculty.

4. Faculty as a whole will review student requests and make preliminary placement decisions. Although the student’s first choice will be considered as much as possible, the final decision will be based on:
   a) Site availability
   b) Number of students choosing a particular site
   c) Student performance in practicum
   d) Faculty judgment and documentation regarding which site will best meet individual student needs and whether the student is likely to meet the site’s expectations.

5. The Clinical Coordinator or a designee will contact each site to reconfirm site availability and connect students to interview. The student then connects with the site to arrange an interview and sends their resume for the site’s review before the interview. Students should view the interview in the same way as they would if they were interviewing for a job at the site. **Individual sites have the right to make the final determination regarding whether the student will be able to complete and/or continue their practicum at the site.**

6. The Clinical Coordinator or designee will notify each student of final placement once confirmation from the site is received. If the student’s first interview is not successful, then the Clinical Coordinator will notify the student and the process described above will be repeated.
7. Verification to confirm the intern placement with a site is then made by the Division.

8. Verification that Health Sciences has an active formal affiliation to cover the placement is confirmed. If the affiliation nears expiration, a new one will be developed in advance of the student’s beginning a placement there.

9. **Students must start internship by February 1 or wait for the next year.**

Students who are interested in pursuing professional credentials other than CRC or LPC/LCMHC should check specific requirements for the credential prior to assignment to an internship site. It is the student’s responsibility to inform faculty of supervision and field experience requirements for the credential to determine whether a placement may be used to address the requirement.

**Internship placements cannot be split between two sites unless pre-authorized by the Division in order to obtain appropriately credentialed supervisors as related to specializations.**

---

**Student Performance & Remediation in Practicum/Internship**

All students must perform satisfactorily in both their clinical placements. In the unusual situation where a mid-term evaluation indicates unsatisfactory performance, the supervisor(s) will meet with the student to develop a remediation contract. Students requiring remediation in their clinical training will be required to meet with the site supervisor and faculty supervisor to review the student’s performance difficulties and develop an action plan. All parties will collaboratively develop a written corrective action plan for remediation or resolution of issues or problems. The student’s advisor will also be informed of the corrective action plan. The written determination will serve as a contract and include:

* Specific performance issues needing to be addressed
* Concrete steps to address the issues
* Clear plan with actions to identify how these steps will be evaluated
* Clinical practice measures which will be used to determine if effective remediation of the student’s performance difficulties has occurred

Following evaluation of the student’s progress in the action plan, an additional meeting with the site supervisor and faculty supervisor will occur to determine if performance is acceptable; if the placement needs to be extended; if the placement needs to be repeated; or if the placement should be terminated. The student’s effort in the remediation plan will be factored into the final grade assigned in the clinical course.

**Completion of Clinical Requirements and Extensions of Clinical Training**

All students are expected to finish their clinical requirements for practicum and internship on schedule within the semester of their original placement(s). It is the determination of the faculty supervisor in conjunction with the site supervisor’s evaluation as to whether or not the student has successfully met the clinical training requirements in either of these courses based on the observed performance and professional conduct of the student. The Clinical Coordinator or designee will meet with the student and/or the site supervisor to discuss the recommendations. If all parties deem that the completion of the clinical training requirements is unsatisfactory, a student may need to complete additional hours on site and, in
effect, extend their clinical placement(s). The Clinical Coordinator, faculty supervisor and site supervisor will make the final decision. A remediation plan will be developed that explicitly outlines the extended training plan, performance expectations and professional conduct of the student, and an anticipated completion date of the clinical coursework. Completion of clinical training will be determined once the specified extension and performance/behavior requirements are accomplished during this period.

Under no circumstances will students be permitted to continue in clinical placements after their requirements have been met at the end of the semester. Students must terminate all their clinical client relationships in an ethically appropriate manner as part of their completion of clinical training. Per our contractual agreements with clinical training sites, student liability insurance coverage ends when a semester ends, and students have completed all clinical training goals.

Under the new curriculum, failure to complete all the requirements of practicum and receive a grade for the class at the end of the fall semester will result in an inability to continue on into internship and consequently delay finishing your program/graduating on time. Such is the case also for finishing internship, including fulfilling documentation requirements that will delay grading and finishing the program on schedule.
SECTION VII: GRADUATION

GRADUATION PLANNING

Graduation is self-funded and organized with the assistance of the faculty advisor of the student group representative. In other words, the graduating class is in charge of planning, scheduling, and running graduation, under the guidance of the faculty advisor for the student group. At the beginning of second semester, the Future Counselors Association takes the total amount of money they have, and they divide it evenly between the two cohorts. The half that the second years receive is the money that is used toward their graduation.

Graduation ceremonies for Division students are typically held on Friday evening or the Saturday before Mother’s Day. All students are expected to attend the Division graduation ceremony. The large university-wide commencement is generally on Mother’s Day, and students are encouraged to walk in that ceremony in addition to the Division ceremony.

In years past, cohorts have opted to use free spaces on campus for the Division graduation to reduce costs. The MBRB building is most often used, as it is closest to Bondurant and has beautiful auditoriums. Day, time, and location are all decided as a class. There are other venues that can be rented for a fee if that is something of interest, for example, The Friday Center, The Rizzo Center, etc. When deciding on a venue, it is important to book the room (if on campus) or venue in the fall of the second year, with attention to the maximum occupancy so that students can know how many family members and friends they may bring. Once a venue has been chosen, the remainder of the money can be spent on light refreshments for the ceremony, decorations (balloons, table cloths etc.), a cake, and a photographer, for example. Graduation plans should be consistent with the most recent COVID-19 pandemic health guidelines.

It is also important that the first-year cohort helps during the graduation day with the transportation of food, set-up, and cleanup so that the day can run smoothly for the graduates.

As soon as a date is selected and the venue arranged, the graduation committee is to invite the following:

- Dr. Burker, the Division Director, to speak and act as MC for the graduation.
- Dr. Stephen Hooper, Chair of DHS, is invited to speak. His schedule fills up early, so please be sure to invite him as early as possible.
- Additionally, the graduating class is to select a core faculty member to speak at graduation, as well as a graduating student to speak.
- Some classes choose to invite an additional guest speaker.

Although it seems early, this is an important conversation to be had in the spring semester of your first year so that FCA can plan fundraising accordingly and arrangements can be made.

GRADUATION CHECKLIST

Once ideas for graduation are formulated, at least 4 students should be nominated and approved to work as the “Graduation Committee” for their class. These students have the responsibility of planning the graduation and providing feedback and information to the class for final approval of plans.

The Faculty Advisor for the Division FCA is also the Faculty Advisor for graduation. The Faculty Advisor should be kept informed and involved during the planning stages. The Faculty Advisor also has a folder
with information from previous graduations available for review.

Please use this checklist for planning graduation:

1. RCA and MHCA executive committees meet to discuss graduation ideas and hold a joint meeting with all students to begin planning. Select a minimum of 4 students to be on the Graduation Committee.

2. Members of the Graduation Committee will be designated to handle the following duties:
   - Liaison with the venue on details such as coordinating logistics for graduation, available times for graduation, access to the building, parking, guidelines for food and beverage and clean up, etc.
   - Invitations
   - Programs
   - Speaker Liaison – coordinate details with speakers
   - Food – set up and clean up

3. The committee is responsible for researching available space for graduation and selecting the time of the ceremony.

4. All students in the graduating class are to vote. Notify the Faculty Advisor of day, time, and site for graduation.

5. Invite Dr. Burker, the Division Director, to speak and act as MC for the graduation.

6. Invite Dr. Hooper, the Associate Dean and Chair of the Department of Health Sciences, to speak.

7. All students in the graduating class are to vote on the following:
   A) A current, core Division Faculty Member to speak
   B) A graduating, fellow student to speak
   C) The Graduation Committee will draft a timeline for the graduation ceremony. An hour is usually allotted for the ceremony. The timeframe for refreshments after the ceremony is determined by the venue based on their schedule of other graduation ceremonies for the selected day.
   D) Speakers for graduation are to be made aware of time allotment for speaking. A 10-minute length usually fits well with the hour-long format for graduation.
   E) PowerPoint slides should be created for graduation and the committee should coordinate this. These slides typically have a photo of the graduate, their track, and the title of their paper/project or thesis at a minimum. Some also include where they completed practicum and internship or where they have accepted a job or PhD program post-graduation.
   F) Present all speakers with a token of appreciation from the class.
GRADUATION REQUIREMENTS

The requirements for graduation in the Division academic program for the Class of 2024 and Class of 2025 are listed in this section of the handbook. Any discrepancies between the Division brochure or website, Graduate School Record, or other printed documents are a result of the production timetables of those documents. Students should refer to the Graduate School’s Handbook for details on graduation procedures. A Master of Science degree in Clinical Rehabilitation Counseling or Clinical Mental Health Counseling will be conferred upon those members of the Class of 2024 and Class of 2025 who successfully complete the following:

1. All required courses prescribed for the degree by the graduate catalog, including practicum and internship
2. Completion of Research Paper, Project, or Thesis

GRADUATION APPLICATION

In order to be eligible to graduate at the desired commencement, the student must submit an “Application for Graduation” to the Graduate School. Please do not miss the deadline for this paperwork!

To apply for graduation:
Complete the Graduation check-out page in ConnectCarolina's Self Service area:
Log in to [http://connectcarolina.unc.edu/](http://connectcarolina.unc.edu/) → Connect Carolina → In your Student Center, under the "Academic" tab, choose "Apply for Graduation" in the drop-down box, and then click the double arrows.

In addition, the Division must submit 3 forms, 2 related to your Master’s paper, project or thesis and 1 indicating that you have completed all the requirements for graduation. Students must provide information regarding their paper/project/thesis title and PID to Perry Studevent in Health Sciences Student Services prior to your defense meeting so he can prepare the required graduation paperwork in advance. These documents will be signed by your chair and reader(s) once you successfully complete your defense, and then forwarded to the Graduate School in order for you to graduate. Fillable versions of these forms are located on the graduate school website and examples are found at the end of this Student Handbook as Appendix C.:

- Program Certification of Degree Requirements Form
- Master’s Comprehensive Exam or Approved Substitute Form
- Report of Approved Substitute for a Master’s Thesis Form

This link provides information on important graduate school deadlines:
[http://gradschool.unc.edu/academics/resources/graddeadlines.html](http://gradschool.unc.edu/academics/resources/graddeadlines.html)

*Students who choose the thesis option must follow the Graduate School’s timelines and procedures for submitting their work.* Graduation timelines are published on the University Registrar’s Calendar found at: [http://registrar.unc.edu/academic-services/graduation/important-graduation-dates/](http://registrar.unc.edu/academic-services/graduation/important-graduation-dates/)

A Master's degree candidate at UNC-CH has 5 calendar years starting with the date of initial registration to complete the degree requirements. Most full-time Clinical Rehabilitation Counseling and Clinical Mental Health Counseling students complete graduation requirements by the end of the second spring semester, two calendar years after beginning the program.
SECTION VIII: PROFESSIONAL CREDENTIALS

Graduates of the MS in CRC and CMHC programs are eligible to obtain various credentials. Credentialing processes are governed by independent credentialing boards. Therefore, the Division of Clinical Rehabilitation and Mental Health Counseling cannot guarantee eligibility for any credential to its graduates. Each board has specific requirements regarding reporting of legal/criminal history and other personal information that may affect your eligibility. Please contact the respective board with questions about eligibility.

**Certified Rehabilitation Counselor (CRC)**
The Commission on Rehabilitation Counselor Certification (CRCC), the oldest credentialing agency in the Rehabilitation and Counseling fields, administers the CRC credential. The National Commission accredits the CRCC for Certifying Agencies (NCCA). The CRC credential is based on uniform, national standards for education and experience and documents that individuals have met minimum criteria for acceptable standards of practice. Such certification shows that the rehabilitation counselor has the knowledge base necessary for success in the field. Students in the MS CRC program are eligible to sit for the CRC certification examination in the spring semester of their second year in the program. If interested in this credential, it is strongly recommended that students consider taking the examination during the spring or summer of the second year, or shortly after completion of the master’s program. The CRC examination is offered in computer-based format three times per year. Students interested in taking the examination should initiate contact with the Commission on Rehabilitation Counselor Certification prior to October in the fall semester of their second year to ensure that they do not miss the examination registration deadlines. For more information regarding the CRC, please go to: [http://www.crccertification.com/](http://www.crccertification.com/)

**National Certified Counselor (NCC)**
National Certified Counselor (NCC) is the counseling board certification offered through the National Board for Certified Counselors. Obtaining board certification demonstrates that you have voluntarily met national standards for the practice of counseling, including mastery of counseling knowledge and skills by completing a graduate degree from an institutionally accredited or CACREP counseling program, passing a rigorous national examination, the documentation of work experience and supervision requirements, and subscribing to the highest ethical and practice standards. To be NCC, you must obtain a passing score on the National Counselor Examination (NCE) or the National Clinical Mental Health Counseling Examinations (NCMHCE). Students from both programs are eligible to sit for the National Counselor Exam (NCE) in the spring semester of their second year in the program. If interested in this credential, it is strongly recommended that students consider taking the examination during the spring or summer of the second year, or shortly after completion of the master’s program. For more information regarding the NCC and NCE, please go to: [https://www.nbcc.org/certification](https://www.nbcc.org/certification).

**North Carolina Licensed Clinical Mental Health Counselor (NCLCMHC)**
Licensed Clinical Mental Health Counselor (LCMHC) is a state-issued professional credential for those individuals seeking a profession as a counselor. The purpose of the LCMHC is to ensure that counselors have an established knowledge base and skills important for providing appropriate counseling services. They are permitted to practice counseling independently and are able to receive payment through many 3rd party insurers. In addition to successful completion of an approved master’s degree, persons seeking the LCMHC must pass a comprehensive exam (North Carolina accepts the CRC or NCE exam for licensure) and obtain a determined number of post-master’s hours of practice under the supervision of an approved professional.

For information about obtaining the LCMHC in North Carolina, please visit the North Carolina Board of Licensed Clinical Mental Health Counselors at: [http://www.ncblpc.org/](http://www.ncblpc.org/)
For each of these licenses, knowledge of what CACREP standards are addressed by each class is often necessary. Each syllabus offers information regarding what standards are addressed. You will find this in each course syllabus included in a chart provided under the objectives. All of the CACREP standards are located at the end of this handbook in Appendix A. These standards can be used to identify each standard that corresponds to the objectives on each syllabus.

Additionally, our students are eligible to take the exam to become a Certified Case Manager. If you have a CRC, 12 months of case management employment experience is required to take the exam. If you have a master’s degree from our program, but have not obtained CRC certification, 24 months of case management employment experience is required before you take the CCM exam. More information can be found at: https://ccmcertification.org/faqs/certification/certification

**Please keep all your syllabi from the program.** It is very likely that you will need them at some point in the future, for example when applying for these different licenses/certifications. We have had students contact us asking for syllabi from 10 or 20 years ago because they moved to a different state or decided to pursue a new certification. We do not keep copies of syllabi from years past.
SECTION IX: PROFESSIONAL AND COMMUNITY STANDARDS

As a student in the MS in CRC or MS in CMHC program, you are entering a professional field. One important aspect of a profession is participation in professional organizations. The major organization for the CRC and CMHC counseling specialties is the American Counseling Association (ACA), with its several subdivisions, including the American Rehabilitation Counseling Association (ARCA), the National Rehabilitation Counseling Association (NRCA) and the American Mental Health Counselors Association (AMHCA). Membership in the ACA is required for all students. If you have financial concerns about the membership fee, please let your advisor know. Membership and participation in local, state-wide organizations are also encouraged, including the Licensed Professional Counselors Association of North Carolina (LPCANC).

You are encouraged to join professional organizations as they provide avenues for networking, up-to-date information regarding the field, research, and ethical guidelines for best practice. You are encouraged to attend professional conferences. In addition, there are community groups and organizations that can use your skills as well as provide you an opportunity to develop new ones. While your studies should be your first priority, some involvement with the community can certainly supplement your professional growth.

Additionally, you are encouraged to attend local and national conferences, meetings, seminars, workshops, etc. Our students have presented at the NCRCA/VEWAA state conference, the NCRA conference, the NCRE/RSA national conference, the annual ACA national conference, and our state counseling conferences. You will find that conferences provide you with an opportunity to connect with professionals in the field and learn about the newest research. Should you wish to participate in a conference, the faculty is more than willing to assist you and guide you through the process. Funding for presenting at a conference may be available.

Endorsement Policy:

Endorsement for any professional license, certification, or occupation requires the completion of a specialized curriculum designed to prepare individuals for the specified professional role. To receive an endorsement in the areas of Clinical Rehabilitation Counseling and/or Clinical Mental Health Counseling, the individual must have met the professional preparation requirements in CRC or CMHC.

Before an individual requests endorsement by the Division of Clinical Rehabilitation and Mental Health Counseling in a different subspecialty than the one they received from graduation, they must demonstrate that all course and experiential requirements have been satisfied for their new specialty.

This policy pertains to oral and/or written recommendations for:

1. Licensure as a counselor in NC and any state licensing board,
2. Certification by the National Board for Certified Counselors,
3. Certification by the Commission on Rehabilitation Counselor Certification, and
4. Employment in counseling or counseling related positions.

Students in the MS in CRC and MS in CMHC programs are expected to follow and uphold the professional code of ethics and certification/licensure guidelines established by the following organizations:

- American Counseling Association
- National Board for Certified Counselors

APPENDIX A
2016 CACREP Standards and FAQ

SECTION 2: PROFESSIONAL COUNSELING IDENTITY

The following Standards apply to all entry-level and doctoral-level programs for which accreditation is being sought unless otherwise specified.

FOUNDATION

A. The counselor education program has a publicly available mission statement and program objectives.
B. The program objectives (1) reflect current knowledge and projected needs concerning counseling practice in a multicultural and pluralistic society; (2) reflect input from all persons involved in the conduct of the program, including counselor education program faculty, current and former students, and personnel in cooperating agencies; (3) address student learning; and (4) are written so they can be evaluated.
C. Students actively identify with the counseling profession by participating in professional counseling organizations and by participating in seminars, workshops, or other activities that contribute to personal and professional growth.

COUNSELING CURRICULUM

D. Syllabi are available for review by all enrolled or prospective students, are distributed at the beginning of each curricular experience, and include (1) content areas, (2) knowledge and skill outcomes, (3) methods of instruction, (4) required text(s) and/or reading(s), (5) student performance evaluation criteria and procedures, and (6) a disability accommodation policy and procedure statement.
E. Current counseling-related research is infused in the curriculum.
F. The eight common core areas represent the foundational knowledge required of all entry-level counselor education graduates. Therefore, counselor education programs must document where each of the lettered standards listed below is covered in the curriculum.

1. PROFESSIONAL COUNSELING ORIENTATION AND ETHICAL PRACTICE
   a. history and philosophy of the counseling profession and its specialty areas
   b. the multiple professional roles and functions of counselors across specialty areas, and their relationships with human service and integrated behavioral health care systems, including interagency and interorganizational collaboration and consultation
   c. counselors’ roles and responsibilities as members of interdisciplinary community outreach and emergency management response teams
   d. the role and process of the professional counselor advocating on behalf of the profession
   e. advocacy processes needed to address institutional and social barriers that impede access, equity, and success for clients
   f. professional counseling organizations, including membership benefits, activities, services to members, and current issues
   g. professional counseling credentialing, including certification, licensure, and accreditation practices and standards, and the effects of public policy on these issues
   h. current labor market information relevant to opportunities for practice within the counseling profession
i. ethical standards of professional counseling organizations and credentialing bodies, and applications of ethical and legal considerations in professional counseling
j. technology’s impact on the counseling profession
k. strategies for personal and professional self-evaluation and implications for practice
l. self-care strategies appropriate to the counselor role
m. the role of counseling supervision in the profession

2. SOCIAL AND CULTURAL DIVERSITY

a. multicultural and pluralistic characteristics within and among diverse groups nationally and internationally
b. theories and models of multicultural counseling, cultural identity development, and social justice and advocacy
c. multicultural counseling competencies
d. the impact of heritage, attitudes, beliefs, understandings, and acculturative experiences on an individual’s views of others
e. the effects of power and privilege for counselors and clients
f. help-seeking behaviors of diverse clients
g. the impact of spiritual beliefs on clients’ and counselors’ worldviews
h. strategies for identifying and eliminating barriers, prejudices, and processes of intentional and unintentional oppression and discrimination

3. HUMAN GROWTH AND DEVELOPMENT

a. theories of individual and family development across the lifespan
b. theories of learning
c. theories of normal and abnormal personality development
d. theories and etiology of addictions and addictive behaviors
e. biological, neurological, and physiological factors that affect human development, functioning, and behavior
f. systemic and environmental factors that affect human development, functioning, and behavior
g. effects of crisis, disasters, and trauma on diverse individuals across the lifespan
h. a general framework for understanding differing abilities and strategies for differentiated interventions
i. ethical and culturally relevant strategies for promoting resilience and optimum development and wellness across the lifespan

4. CAREER DEVELOPMENT

a. theories and models of career development, counseling, and decision making
b. approaches for conceptualizing the interrelationships among and between work, mental well-being, relationships, and other life roles and factors
c. processes for identifying and using career, avocational, educational, occupational and labor market information resources, technology, and information systems
d. approaches for assessing the conditions of the work environment on clients’ life experiences
strategies for assessing abilities, interests, values, personality and other factors that contribute to career development

e. strategies for career development program planning, organization, implementation, administration, and evaluation

f. strategies for advocating for diverse clients’ career and educational development and employment opportunities in a global economy

g. strategies for facilitating client skill development for career, educational, and life-work planning and management

h. methods of identifying and using assessment tools and techniques relevant to career planning and decision making

i. ethical and culturally relevant strategies for addressing career development

5. COUNSELING AND HELPING RELATIONSHIPS

a. theories and models of counseling

b. a systems approach to conceptualizing clients

c. theories, models, and strategies for understanding and practicing consultation

d. ethical and culturally relevant strategies for establishing and maintaining in-person and technology-assisted relationships

e. the impact of technology on the counseling process

f. counselor characteristics and behaviors that influence the counseling process

g. essential interviewing, counseling, and case conceptualization skills

h. developmentally relevant counseling treatment or intervention plans

i. development of measurable outcomes for clients

j. evidence-based counseling strategies and techniques for prevention and intervention

k. strategies to promote client understanding of and access to a variety of community-based resources

l. suicide prevention models and strategies

m. crisis intervention, trauma-informed, and community-based strategies, such as Psychological First Aid

n. processes for aiding students in developing a personal model of counseling

6. GROUP COUNSELING AND GROUP WORK

a. theoretical foundations of group counseling and group work

b. dynamics associated with group process and development

c. therapeutic factors and how they contribute to group effectiveness

d. characteristics and functions of effective group leaders

e. approaches to group formation, including recruiting, screening, and selecting members

f. types of groups and other considerations that affect conducting groups in varied settings

g. ethical and culturally relevant strategies for designing and facilitating groups

h. direct experiences in which students participate as group members in a small group activity, approved by the program, for a minimum of 10 clock hours over the course of one academic term

7. ASSESSMENT AND TESTING

a. historical perspectives concerning the nature and meaning of assessment and testing in counseling

b. methods of effectively preparing for and conducting initial assessment meetings
procedures for assessing risk of aggression or danger to others, self-inflicted harm, or suicide

c. procedures for identifying trauma and abuse and for reporting abuse
d. use of assessments for diagnostic and intervention planning purposes
e. basic concepts of standardized and non-standardized testing, norm-referenced and criterion-referenced assessments, and group and individual assessments
f. statistical concepts, including scales of measurement, measures of central tendency, indices of variability, shapes and types of distributions, and correlations
g. reliability and validity in the use of assessments
h. use of assessments relevant to academic/educational, career, personal, and social development
i. use of environmental assessments and systematic behavioral observations
j. use of symptom checklists, and personality and psychological testing
k. use of assessment results to diagnose developmental, behavioral, and mental disorders
l. ethical and culturally relevant strategies for selecting, administering, and interpreting assessment and test results

8. RESEARCH AND PROGRAM EVALUATION

a. the importance of research in advancing the counseling profession, including how to critique research to inform counseling practice
b. identification of evidence-based counseling practices
c. needs assessments
d. development of outcome measures for counseling programs
e. evaluation of counseling interventions and programs
f. qualitative, quantitative, and mixed research methods
g. designs used in research and program evaluation
h. statistical methods used in conducting research and program evaluation
i. analysis and use of data in counseling
j. ethical and culturally relevant strategies for conducting, interpreting, and reporting the results of research and/or program evaluation

SECTION 5: ENTRY-LEVEL SPECIALTY AREAS

C. CLINICAL MENTAL HEALTH COUNSELING

Students who are preparing to specialize as clinical mental health counselors will demonstrate the knowledge and skills necessary to address a wide variety of circumstances within the context of clinical mental health counseling. Counselor education programs with a specialty area in clinical mental health counseling must document where each of the lettered standards listed below is covered in the curriculum.

1. FOUNDATIONS

a. history and development of clinical mental health counseling
b. theories and models related to clinical mental health counseling
c. principles, models, and documentation formats of biopsychosocial case conceptualization and treatment planning
d. neurobiological and medical foundation and etiology of addiction and co-occurring disorders
e. psychological tests and assessments specific to clinical mental health counseling

The University of North Carolina at Chapel Hill
Division of Clinical Rehabilitation and Mental Health Counseling 2023-2024 Student Handbook
Page 68
2. CONTEXTUAL DIMENSIONS

f. etiology, nomenclature, treatment, referral, and prevention of mental and emotional disorders
g. mental health service delivery modalities within the continuum of care, such as inpatient, outpatient, partial treatment and aftercare, and the mental health counseling services networks
h. diagnostic process, including differential diagnosis and the use of current diagnostic classification systems, including the Diagnostic and Statistical Manual of Mental Disorders (DSM) and the International Classification of Diseases (ICD)
i. potential for substance use disorders to mimic and/or co-occur with a variety of neurological, medical, and psychological disorders
j. impact of crisis and trauma on individuals with mental health diagnoses
k. impact of biological and neurological mechanisms on mental health
l. classifications, indications, and contraindications of commonly prescribed psychopharmacological medications for appropriate medical referral and consultation
m. legislation and government policy relevant to clinical mental health counseling
n. cultural factors relevant to clinical mental health counseling
o. professional organizations, preparation standards, and credentials relevant to the practice of clinical mental health counseling
p. legal and ethical considerations specific to clinical mental health counseling
q. record keeping, third party reimbursement, and other practice and management issues in clinical mental health counseling

2. PRACTICE

a. intake interview, mental status evaluation, biopsychosocial history, mental health history, and psychological assessment for treatment planning and caseload management
b. techniques and interventions for prevention and treatment of a broad range of mental health issues
c. strategies for interfacing with the legal system regarding court-referred clients
d. strategies for interfacing with integrated behavioral health care professionals
e. strategies to advocate for persons with mental health issues

D. CLINICAL REHABILITATION COUNSELING

Students who are preparing to specialize as clinical rehabilitation counselors will demonstrate the professional knowledge and skills necessary to address a wide variety of circumstances within the clinical rehabilitation counseling context. Counselor education programs with a specialty area in clinical rehabilitation counseling must document where each of the lettered standards listed below is covered in the curriculum.

1. FOUNDATIONS

a. history and development of rehabilitation counseling
b. theories and models related to rehabilitation counseling
c. social science theory that addresses psychosocial aspects of disability
d. principles, models, and documentation formats of biopsychosocial case conceptualization and treatment planning
e. neurobiological and medical foundation and etiology of addiction and co-occurring disorders
f. etiology and effects of disabilities and terminology relevant to clinical rehabilitation counseling
g. screening and assessment instruments that are reliable and valid for individuals with disabilities

2. CONTEXTUAL DIMENSIONS

a. roles and settings of rehabilitation counselors
b. relationships between clinical rehabilitation counselors and medical and allied health professionals, including interdisciplinary treatment teams
c. rehabilitation service delivery systems, including housing, independent living, case management, public benefits programs, educational programs, and public/proprietary vocational rehabilitation programs
d. rehabilitation counseling services within the continuum of care, such as inpatient, outpatient, partial hospitalization and aftercare, and the rehabilitation counseling services networks
e. operation of an emergency management system within rehabilitation agencies and in the community in relation to accommodating individuals with disabilities
f. diagnostic process, including differential diagnosis and the use of current diagnostic classification systems, including the Diagnostic and Statistical Manual of Mental Disorders (DSM) and the International Classification of Diseases (ICD)
g. potential for substance use disorders to mimic and/or co-occur with a variety of neurological, medical, and psychological disorders
h. impact of crisis and trauma on individuals with disabilities
i. impact of biological and neurological mechanisms on disability
j. effects of co-occurring disabilities on the client and family
k. effects of discrimination, such as handicapism, ableism, and power, privilege, and oppression on clients’ life and career development
l. classifications, indications, and contraindications of commonly prescribed psychopharmacological medications for appropriate medical referral and consultation
m. effects of the onset, progression, and expected duration of disability on clients’ holistic functioning (i.e., physical, spiritual, sexual, vocational, social, relational, and recreational)

n. transferable skills, functional assessments, and work-related supports for achieving and maintaining meaningful employment for people with disabilities
o. role of family, social networks, and community in the provision of services for and treatment of people with disabilities

p. environmental, attitudinal, and individual barriers for people with disabilities
q. assistive technology to reduce or eliminate barriers and functional limitations
r. legislation and government policy relevant to rehabilitation counseling
s. cultural factors relevant to rehabilitation counseling
t. professional issues that affect rehabilitation counselors, including independent provider status, expert witness status, forensic rehabilitation, and access to and practice privileges within managed care systems
u. record keeping, third party reimbursement, and other practice and management issues in rehabilitation counseling
v. professional organizations, preparation standards, and credentials relevant to the practice of clinical rehabilitation counseling
w. legal and ethical considerations specific to clinical rehabilitation counseling
3. PRACTICE
   a. diagnostic interviews, mental status examinations, symptom inventories, psychoeducational and personality assessments, biopsychosocial histories, assessments for treatment planning, and assessments for assistive technology needs
   b. career- and work-related assessments, including job analysis, work site modification, transferable skills analysis, job readiness, and work hardening
   c. strategies to advocate for persons with disabilities
   d. strategies for interfacing with medical and allied health professionals, including interdisciplinary treatment teams
   e. strategies to consult with and educate employers, educators, and families regarding accessibility, Americans with Disabilities Act compliance, and accommodations
APPENDIX B-1
UNC Covid-Related Information

Because of the COVID-19 pandemic, all students, particularly those entering clinical training or coming on campus, may have additional requirements to complete before beginning clinical training. Faculty will provide updates about vaccinations, testing protocols, and attendance policies as provided by Campus Health and the University. Students may also receive information and guidelines through Connect Carolina and the Hallpass system (https://carolinatohgether.unc.edu/carolina-together-testing-program/). Please be aware that CRMH faculty will not be privy to your vaccination status unless volunteered by you or as a requirement of your clinical training site.

Any revised health guidelines or new clinical requirements related to COVID that may impact classroom attendance and clinical training will be sent via email. We encourage students to review Campus Health Guidelines on a regular basis at https://carolinatohgether.unc.edu.

Classroom Attendance: At this time, we consider attendance in class and clinical training to be mandatory; however, this does NOT mean you should come to class or your clinical training site with symptoms of illness. Please make sure you are completing personal wellness monitoring daily. You should contact Campus Health (919-966-6573) or your primary care physician if you begin experiencing symptoms of illness even if you have been vaccinated.

Clinical Training: Students in clinical training (practicum and internship) are required to follow the COVID protocols of their clinical site. If you have questions about the COVID protocols related to your clinical site, please talk with Dr. Schmidt, Practicum and Internship Coordinator or Dr. Rose, Assistant Practicum and Internship Coordinator.

As we are all well aware, we can reduce risk of exposure by limiting contacts, wearing a mask, maintain distance, etc. It is clear that COVID is going to be with us, and we will be dealing with periodic ups and downs. Please stay connected, modify your behaviors and layer protections when needed. As life continues to return to “normal,” we very much want to protect each other and our clients/patients and avoid illnesses/absences that may delay progression in the program.
APPENDIX B-2

Health Clearance Protocol for Health Professions Students

Please note that public health guidance and protocols are subject to change. This protocol is effective as of June 1, 2022. Failure to follow this protocol is a deficiency in professional behavior and may be cause for disciplinary action. The Health Clearance Protocol is important to protect both the physical and mental health of students, faculty, preceptors, and patients.

KEY POINTS:

- If you have symptoms that suggest you may pose risk to others, you must STAY HOME. While this clearance protocol was initially developed to offer guidance for students with COVID-19, it is intended to also apply to other illnesses that may put your patients, clinical preceptors, faculty, and/or fellow students at risk (especially highly-contagious respiratory or gastrointestinal illnesses such as flu, norovirus, etc.).
- When you are sick, it is highly recommended that you seek the advice of Campus Health, especially if you have any questions about whether you should attend classes. While you may seek care and/or testing anywhere, Campus Health serves as the de facto “occupational health clinic” for Health Professions students and can help you determine whether your illness may pose risk to others. Call 919-966-6573 (number specifically for Health Professions students) to speak to a provider.
- If you test positive for COVID-19, share your results with Campus Health. If you obtain testing at Campus Health, this will be automatic. If you obtain results elsewhere, report them at https://go.unc.edu/covidpositive. You will receive instructions for isolation, instructions for obtaining a University Approved Absence, and general* guidance for return to campus/daily activities.
- Campus Health will not communicate with your program or school about results. You must communicate their guidance to the designated person or office for your school or program. Students are also encouraged to notify close contacts who may have been exposed to illness.
- *Guidance for return to CLINICAL settings MAY DIFFER from the general guidance to return to CAMPUS. Therefore it is critical that you communicate with your preceptor, your clinical coordinator or other designated person(s) at UNC, and/or the facility’s Occupational Health Service to confirm the appropriate time for return to your clinical rotation.

What to do if you have a POSITIVE COVID-19 test:

If you have a positive COVID test result at any time, regardless of vaccination status, whether or not you have symptoms, and regardless of where the test was performed, immediately self-isolate. If you were tested at Campus Health, you will receive an email with instructions* for isolation and return to activities. If you were tested elsewhere, report your results at https://go.unc.edu/covidpositive to receive these instructions. You will NOT receive a clearance letter from Campus Health at the end of your isolation. You should communicate with the designated person for your program regarding the advice you’ve received and the date of your return.

*Please note that these instructions are written based on guidance for the general public. Healthcare facilities must simultaneously balance the need for adequate staff with the priority to protect vulnerable patients. Because of this, your length of isolation may vary if you are in clinical rotation and may not be the same as the return to campus guidance. Please communicate with your clinical coordinator, preceptor, and/or the Occupational Health Service at your assigned facility regarding return to clinicals.
What to do if you have possible SYMPTOMS of COVID-19 or other illness that may put others at risk:

All students are required to self-monitor for symptoms on a daily basis:

- Do you have new muscle aches not related to another medical condition or another specific activity (e.g. due to physical exercise)?
- Do you feel like you may have a temperature of greater than 100.0°F?
- Do you have sore throat, runny nose and/or congestion not related to another medical condition (e.g. allergies)?
- Do you have a new or worsening cough that is not related to another medical condition?
- Do you have shortness of breath that is not attributable to another medical condition?
- Do you have recent (<5 days) loss of smell and taste?
- Do you have new onset of vomiting or diarrhea not related to another medical condition?

If you answer yes to any of the questions above, immediately self-isolate and do not attend class or clinical rotations. Students who have symptoms consistent with possible COVID-19 must be tested, regardless of vaccination status. Follow Campus Health instructions for testing. You are encouraged to seek a PCR test as soon as possible, as you cannot be cleared by a negative at-home or rapid antigen test.

- If your test result is POSITIVE, including a positive at-home test, you will be required to isolate. Follow the instructions above for positive tests.
- Most rapid tests, including at-home tests and those performed at a physician’s office, are antigen tests. You cannot be cleared by a negative antigen test. You must follow up with a PCR test if you have symptoms consistent with possible COVID-19.
- If your PCR test result is NEGATIVE, you may return to classes or the healthcare setting (i.e., clinical rotations) once your symptoms resolve/improve. You must be fever-free without antipyretics (fever-reducing medicines such as Tylenol) for at least 24 hours, AND you must have had no diarrhea or vomiting for at least 48 hours, regardless of the cause. Return to class or clinicals may be allowed without full resolution of all symptoms (e.g., cough) so long as those symptoms are improving and your test is negative. Call Campus Health or consult with your clinical coordinator/preceptor/facility Occupational Health if unsure about whether return is permitted.
- Return guidance may include additional precautions such as masking for a certain period of time or until symptoms resolve. Students are expected to follow this guidance upon return.

What to do if you are EXPOSED to COVID-19:

If you are exposed to COVID-19, whether at home, in the community, in class, in rotations, or at work, you must be extra-vigilant about self-monitoring and follow recommended precautions for a period of time after exposure.

- If you are up to date regarding recommended vaccines (i.e. fully vaccinated and boosted, if eligible), you may continue normal activities as long as asymptomatic, but you should wear a mask and avoid being around people vulnerable to illness.
- If you have been granted a vaccine exemption, or if you have been vaccinated but have not received a booster for which you are eligible, you will need to quarantine (stay home) as recommended in the CDC guidelines**.
- If you notice ANY symptoms during this time, even if very mild, you must immediately self-isolate and follow the instructions above for symptoms.
• If any post-exposure test is POSITIVE, you will be required to isolate. Follow the instructions above for positive tests.

**Your recommended length of quarantine may vary if you are in a clinical rotation. Please communicate with your clinical coordinator, preceptor, and/or the Occupational Health Service at your assigned facility regarding return to clinicals.

HEALTH CLEARANCE FOR HEALTH PROFESSIONS STUDENTS

I'VE BEEN EXPOSED TO COVID-19

DO YOU HAVE SYMPTOMS?

NO

ARE YOU UP-TO-DATE WITH COVID VACCINATION (vaccinated & boosted if eligible)?

NO

Quarantine: Monitor for symptoms*; follow guidelines for testing and precautions. Communicate with your program representative and your clinical facility, if applicable, about length of quarantine.

You may attend class; Monitor for symptoms*; follow guidelines for testing and precautions.

YES

ISOLATE and GET a TEST:
Call Campus Health if eval needed: 919-966-6573.
Communicate with your program representative and your clinical facility, if applicable, about length of isolation & return date.
If PCR test is negative, may return to class/clinicals when symptoms resolve/improve, with recommended precautions.

* SYMPTOMS DEVELOP

+ POSITIVE TEST

I HAVE SYMPTOMS OF COVID-19

YES

I'VE HAD A POSITIVE COVID-19 TEST

ISOLATE:
Follow Campus Health instructions.
If you were tested off-campus, report results at go.unc.edu/covidpositive
Communicate with your program representative and your clinical facility, if applicable, about return date.

MASTER’S COMPREHENSIVE EXAM or APPROVED SUBSTITUTE REPORT

Student's Name ___________________________ PID# ___________________________
Department/Curriculum/School: ____________________________________________

PART I: REPORT OF WRITTEN EXAMINATION □ or APPROVED SUBSTITUTE □
On behalf of a majority of the examining committee, I certify that the above named student:

□ successfully passed the requirement

□ failed to pass the requirement

signature of committee chair __________________________ date ____________

□ Check here if student previously failed this requirement. Date(s): __________________________

□ By initialing, the committee chair certifies that this student was registered as required during the term this work was completed.

PART II: REPORT OF ORAL EXAMINATION □ or APPROVED SUBSTITUTE □
On behalf of a majority of the examining committee, I certify that the above named student:

□ successfully passed the requirement

□ failed to pass the requirement

signature of committee chair __________________________ date ____________

□ Check here if student previously failed this requirement. Date(s): __________________________

□ By initialing, the committee chair certifies that this student was registered as required during the term this work was completed.

PART III: REPORT OF THE FINAL ORAL EXAMINATION (defense of thesis)
A majority of the committee for the above named student has judged the thesis defense to be:

□ acceptable __________________________ signature of committee chair __________________________ date ____________

□ unacceptable __________________________

Committee member signature/date __________________________ Pass/Fail __________________________

□ Check here if student previously failed exam. Date(s): __________________________

□ By initialing, the committee chair certifies that this student was registered as required during the term this work was completed.

PART IV: REPORT OF THE FINAL THESIS (can be completed at the same time as Part III as appropriate)
A majority of the committee for the above named student has judged the thesis to be:

□ acceptable __________________________ signature of committee chair __________________________ date ____________

□ unacceptable __________________________

Committee member signature/date __________________________ Pass/Fail __________________________

□ By initialing, the committee chair certifies that the required edits were made and the final document is approved for electronic submission.

Submit to the Graduate School after all activities have been successfully completed
Keep copies for your files

PROGRAM CERTIFICATION OF DEGREE REQUIREMENTS FORM

Student’s Name ___________________________ PID# _______________________

Student’s Email Address ___________________________

Major: ___________________________ Degree Intent: ___________________________

Together with university and Graduate School requirements, all program-level requirements for a graduate degree must be satisfied and properly documented before The Graduate School can complete degree clearance.

By approving this form, the graduate program is certifying that the student has met all program requirements for degree clearance. Such requirements may include specific coursework, foreign language certification, or any other requirements tracked at the degree program level.

Approved: ___________________________

Director of Graduate Studies ___________________________ Date ___________________________

Not approved: ___________________________

Director of Graduate Studies ___________________________ Date ___________________________

Please submit this form to The Graduate School for processing and inclusion in the student record when all program requirements are completed. It should only be submitted once.

Degree requirements tracked at the university and Graduate School level, such as exam results and thesis/substitute or dissertation defenses, should continue to be submitted on appropriate forms.
