EDUCATION

- Aug. 2023-present **University of North Carolina, Chapel Hill, NC**
- Doctoral Student in Developmental Psychology under Dr. Clare Harrop
- 2016-2020 **Vassar College, Poughkeepsie, NY**
- B.A. in Neuroscience and Behavior, B.A. in Drama
 - Cumulative GPA: 3.64; Psychology GPA: 3.58
 - Relevant Coursework: Introduction to Neuroscience and Behavior; Introduction to Biological Investigation; Statistics and Experimental Design; Learning and Behavior; Neuropsychology; Human Physiology; Research Methods in Physiological Psychology; Seminar in Evolutionary Psychology; Autism; Psychology & Biology of Mental Disorders; Principles of Development; Seminar in Neuroethology; Epidemiology; Seminar in Developmental Psychology

HONORS, AWARDS, AND FELLOWSHIPS

- 2018, 2019 **Vassar Summer Internship Grant Fund Awardee: *Grant awarded to students completing competitive, unfunded summer internships***

RESEARCH EXPERIENCE

- 2022 – July 2023 **Center for Autism Research (CAR), Children’s Hospital of Philadelphia**
Clinical Research Coordinator I
Supervisors: Dr. Robert Schultz, Dr. Judith Miller, Dr. Julia Parish-Morris
- Maintained my clinical research assistant duties
 - Recruited, screened, scheduled, and conducted visits for participants (Sex, Gender, and Camouflage in ASD)
 - Lead the student management team at CAR
- 2020 – June 2022 **Center for Autism Research, Children’s Hospital of Philadelphia**
Clinical Research Assistant I
Supervisors: Dr. Robert Schultz, Dr. Judith Miller, Dr. Julia Parish-Morris
- Coordinated a randomized controlled clinical trial intended to determine the efficacy of a VR-based intervention for improving police safety skills in autistic people (the Floreo Police Safety Intervention study)
 - Coordinated an early life language study that uses linguistic and fMRI data from the IBIS Network to find specific vocalization characteristics that differentiate infants later diagnosed with ASD from other children
 - Coordinated an accelerated longitudinal study examining the trajectories of congruence/incongruence between assigned sex & gender in young autistic children (the Sex, Gender, and Camouflage in ASD study)
 - Recruited, screened, scheduled, and conducted virtual visits for participants (Floreo)
 - Analyzed behavioral, questionnaire, and linguistic data using R
 - Observed diagnostic, developmental, and cognitive evaluations (Autism Diagnostic Observation Schedule – all modules; Wechsler Abbreviated Scale of Intelligence; Mullen Scales of Early Learning) for children and adolescents with a current or suspected autism spectrum condition
 - Drafted abstracts and manuscripts for posters, presentations, and submission to scholarly journals
 - Interviewed, hired, managed, trained, and supervised a team of 29 students across the Center who assisted with data and clerical tasks for 8 studies
- Summer 2019 **The Center for Autism Research, The Children’s Hospital of Philadelphia**
Student Linguistic Research Assistant
Supervisor: Dr. Julia Parish-Morris
- Coded and interpreted data on early life vocalizations for a study on Autism and early language acquisition
 - Observed and coded videos of the AOSI and CSBS focused on child joint attention and speech rate
 - Assisted with file organization and clerical work

Fall 2018

Newman Laboratory, Research Methods, Vassar College

Research student

Supervisor: Dr. Lori Newman

- Tested the effects of 1-methionine sulfoximine (MSO) on working memory in rats in the context of education
- Performed hippocampal canulae insertion using stereotaxic surgery, and assisted others with surgery
- Performed rat husbandry
- Performed rat perfusion and subsequent histology on brain slices obtained from rats
- Class lab supervisor, estrus phasing lead, and literature review lead

Summer 2018

New York State Psychiatric Institute, Columbia University

Research Intern

Supervisor: Dr. Christina Hoven

- Consented and assented participants
- Conducted structured interviews for a study on adolescent decision making and brain imaging
- Reported clinical issues and directed participants to resources when applicable
- Collected DNA for use in a study focused on early life exposure to parental drug use
