

Welcome everyone! Let me know if you did not receive the email with the handouts?

We'll get started in about 10m

[handouts not received-deleted...]

We'll get started in about 5minutes

Shout out to Amanda Rollins, Janet McIntyre and Sonny Gasaway for representing PTs well in the earlier presentation!!

I'm not seeing padlet.

me either; there it is

Yes, see it now.

https://padlet.com/laurieray/SBPT_Remote_Assessment

Password= SBPT Remote Assessment

There's some gray boxes partially covering the slides

Are the links also in the handouts? *[Yes]*

Congratulations Karen!

Congrats to both!!

Congratulations! *[Lots of congratulations...]*

Congratulations and KUDOS!

And Congratulations to Margaret!

Great job Karen! You definitely are deserving of that!

Congrats to both! And Margaret I can't believe 45 yrs!

Renee Gursky to everyone: I took Pat Halsey place

Mary Lou Dodd - Wake Co - retiring; we're in denial too

We will miss all these retirees!

Fact Sheet - for Abuse - warning signs -some of your school based therapists in NC were on this committee who worked on this document.

Can you repeat the days for the new to SBP PT meetings? [Mondays 11-11:30a; Fridays 1-2p]

Bet a lot of people WANT to retire LOL!

excited to see that!

We are ordering the PEDI CAT

I like having the Q global version - emailing the PEDI-CAT to the parent (after first observing the student). Limits amount of face to face time.

The PEDI- CAT provides a lot of information that helps with planning transition to adulthood.

are you asking about the motor question

Is anyone having trouble with POCs in ECATS?

Can we discuss the POC info you shared this week ~ specifically who is qualified to a skill ~ is this just referring to PTA skill or is it stretching out to include classroom staff. We are documenting staff training but to put that on the POC is scary

No but I want some more clarification on the email Laurie sent out.

poc is better than it was but we still can not finalize poc until iep is locked

It is a pain that you can not pre date a POC if you do it early and have to set a reminder to do it when the IEP closes.

I use the PEDI-CAT as a supplemental tool and note Parent was respondent. If you email it - the parent is on their own but when I send the link- I will make sure that they read the information about how to answer the questions. The other option is to just share your screen so you are right there with them.

What are some suggestions for the relevant essential standards section on the POC?

<https://ec.ncpublicschools.gov/disability-resources/significant-cognitive-disabilities/nc-extended-content-standards> (scroll to bottom for Vocational Prep & Health, Safety & Independent Living)

Yes you never know when the teacher will close the IEP.

So what if its not skilled?

I agree with your interpretation/assessment on the POC there, Laurie.

My team is typically split on whether supports are billable or not and whether they need a POC or not. In other settings, some of these things would be totally billable.

I usually document on forms when I do teaching on equipment and am delegating to staff.

The forms from Durham are great and I do not bill for any SAS

We don't bill ours but do a simple POC just in case.

I started doing the POC's for SAS since ECATs added the check box for it HA!

Yes I was wondering that too.. if you do a POC for SAS since there is a check box

We did do POC's for consultative kids in Florida just FYI

FOR POCs, are you including actual diagnosis codes for SAS

Yes - impairment codes

[Lots of thanks expressed...]

Great getting to spend some time all together! Thank you Laurie!

Thank you everyone!

Thank you Dreama and Amy!

Thank you, Laurie!!

Happy Thanksgiving everyone!

Happy Thanksgiving to the best school-based PTs in the world!
