UNC SCHOOL OF MEDICINE

Department of Allied Health Sciences, Division of Speech and Hearing Sciences

OBSERVATION RECORD FORM

Student Name: _____

ASHA Standard IV-C: Twenty-five hours must be spent in clinical observation. Implementation: The observation and direct client/patient contact hours must be within the scope of practice of speech-language pathology. Observation experiences must be under the direction of a qualified clinical supervisor who holds current ASHA certification in the appropriate practice area. Such direction may occur simultaneously with the student's observation or may be through review and approval of written reports or summaries submitted by the student. Students may use videotapes of the provision of client services for observation purposes. The applicant must maintain documentation of time spent in supervised observation.

Date	Name of Site	Population(s) Observed (adult or child; disorder; evaluation or intervention)	Time in Minutes	Clinician's ASHA Number	Clinician's Name Clinician's Signature

TOTAL OBSERVATION HOURS: (Round up to nearest quarter hour) _____
