Audaire HEALTH

Simplifying rare disease management

Audaire Health App

Setup & Training Guide

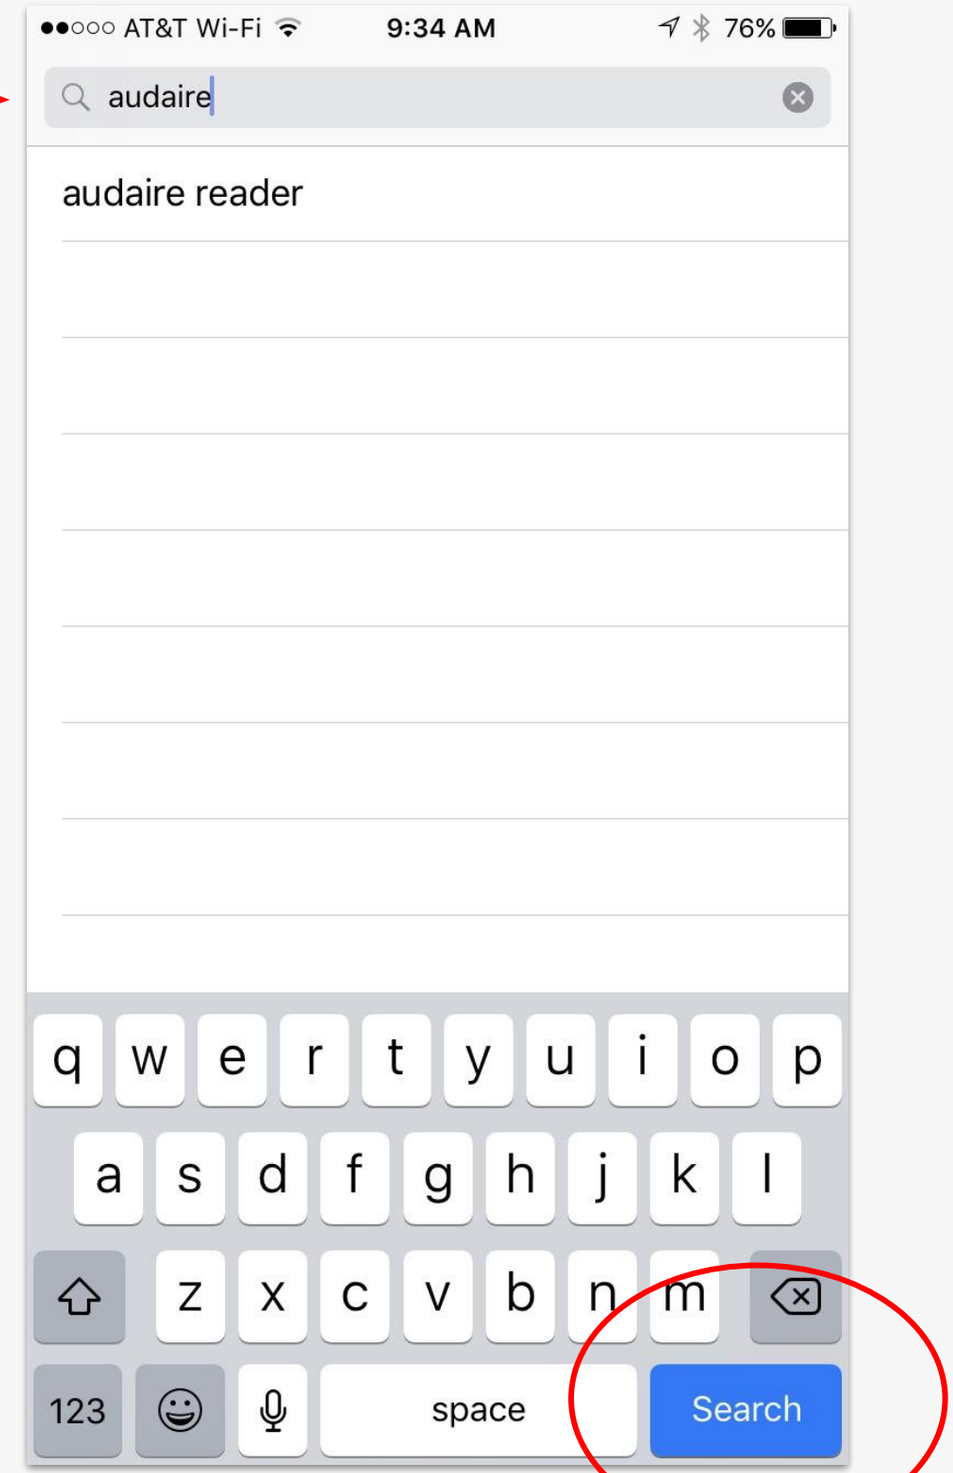
Download the app

Locate and launch the App Store (iPhone) or Google Play Store (Android) on your phone.

Download the app

Type “audaire reader” in the top text box.

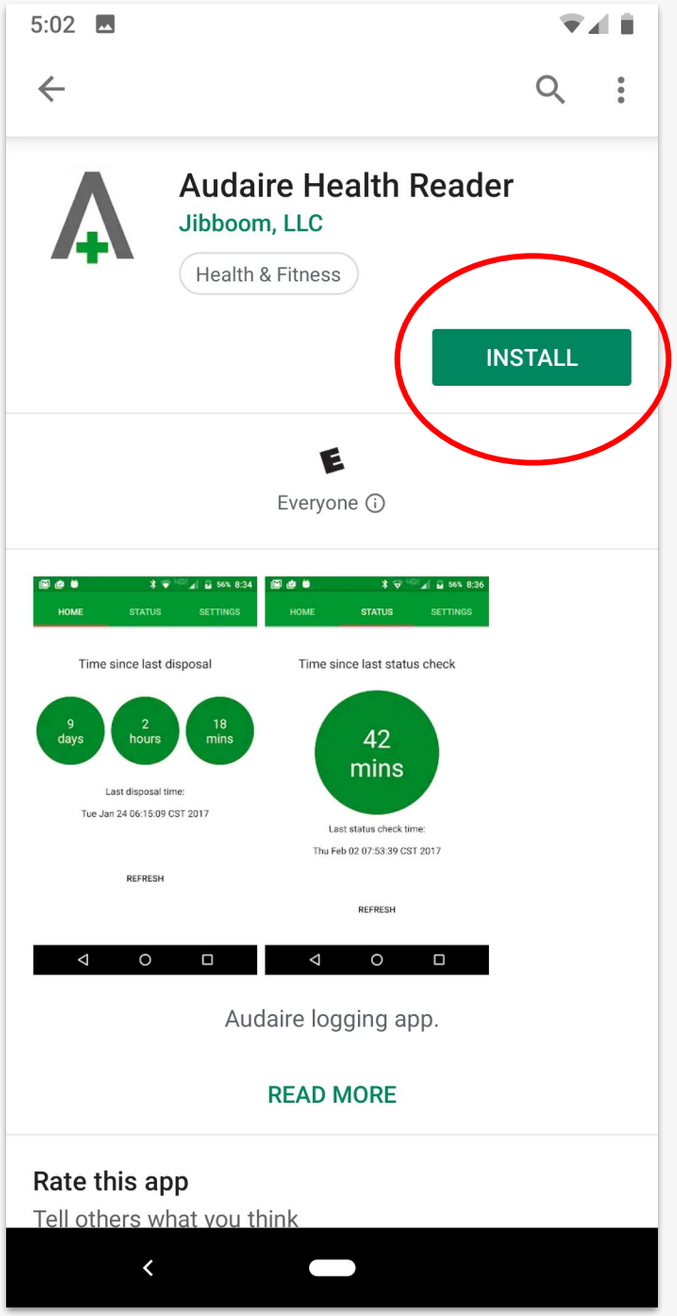
Then, click “Search” in the bottom right.

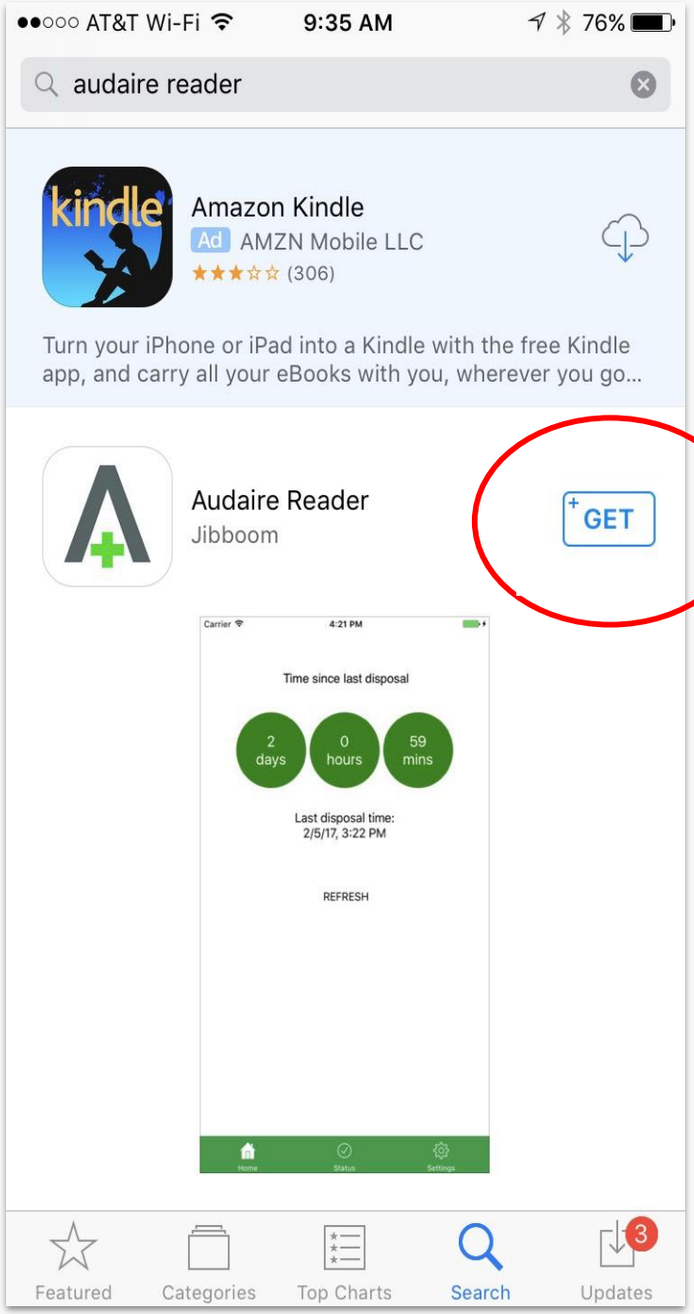


Download the app

You will see the Audaire Health app appear below the search bar. Click either “INSTALL” on Google or “GET” on iPhone.

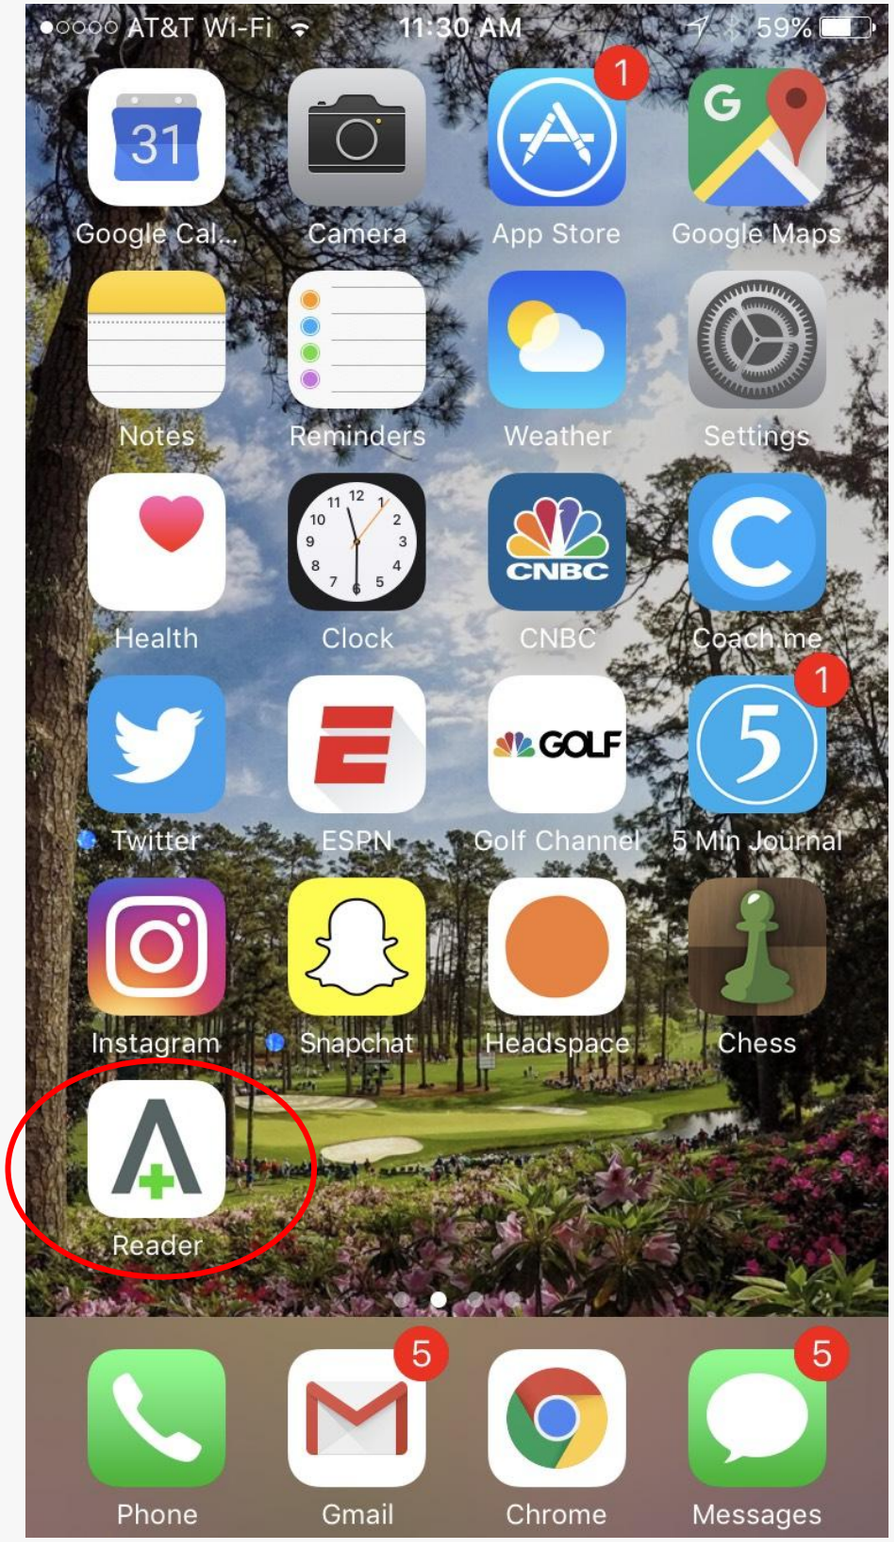
Depending on settings, you might need to enter in a password, or provide a fingerprint or facial recognition to start the download.





Launch the app

Find and launch the Audaire Health app.



Setup your password

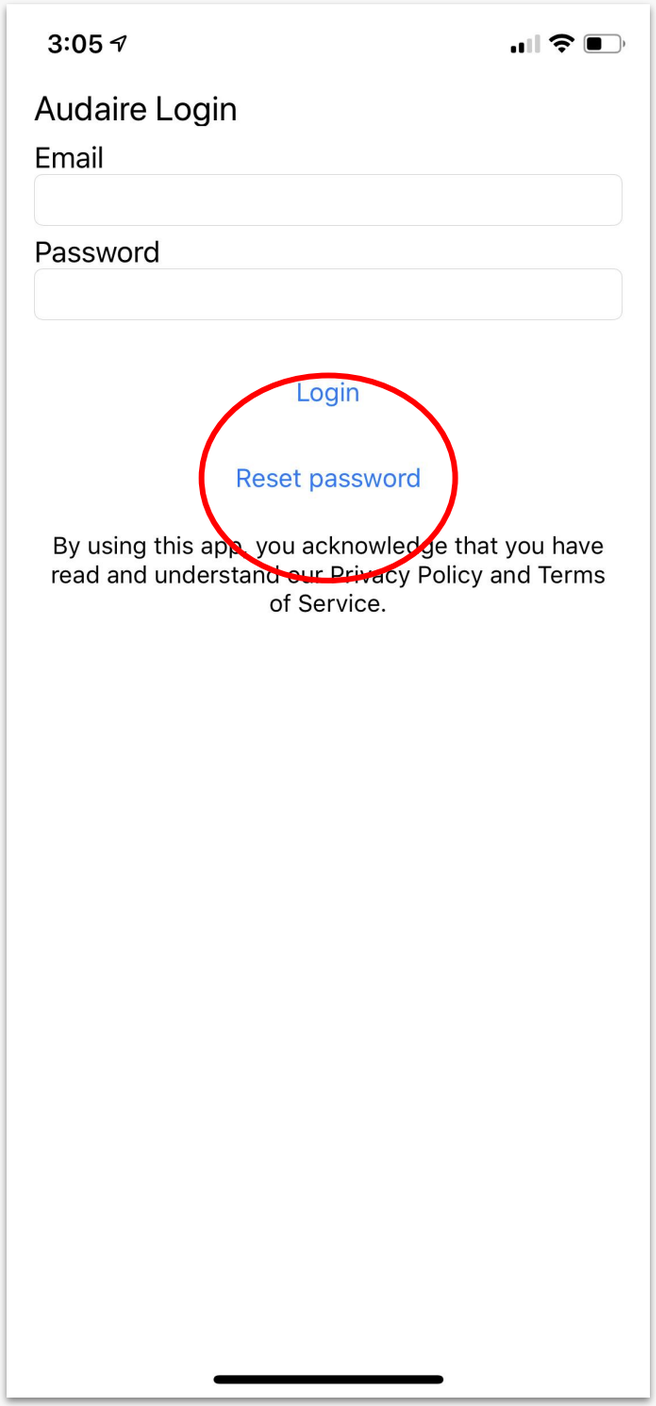
Type in your email address associated with your account.

Click “Reset password.”

A time-sensitive email with directions for resetting your password will be sent to your Audaire Login address.

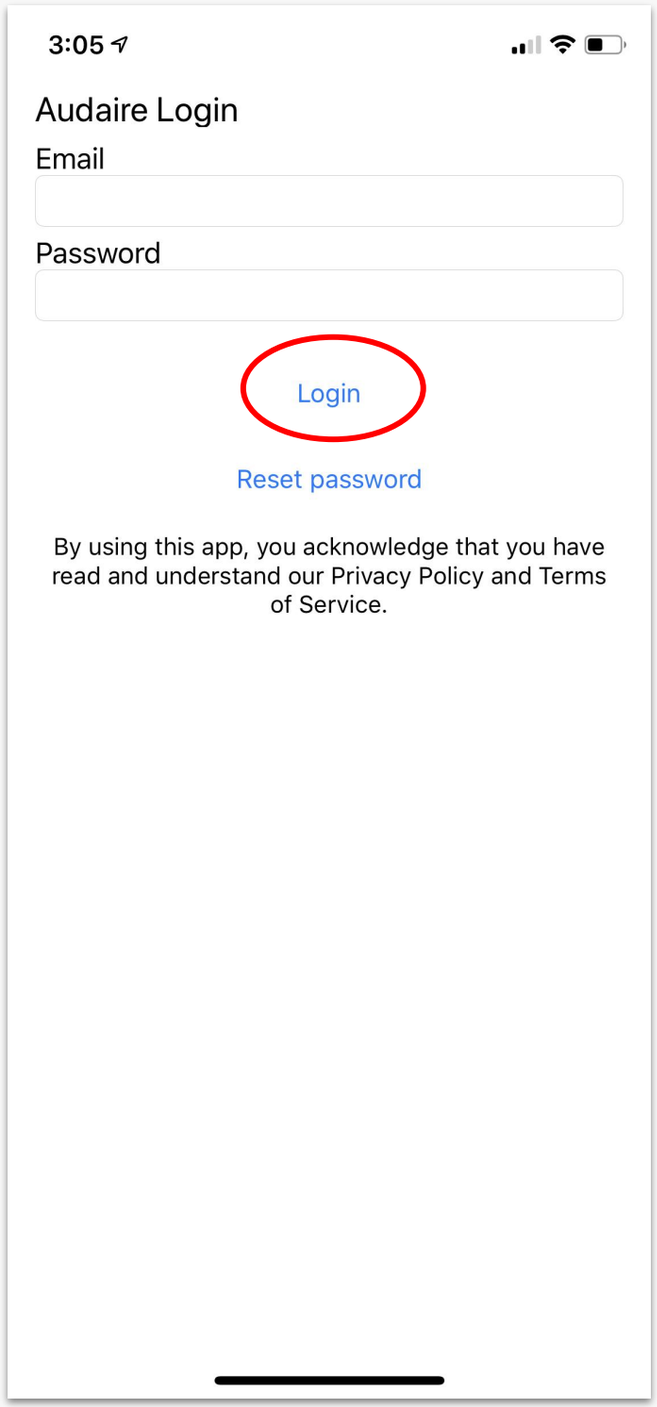
Reset your password immediately.

Then sign into the app.



Sign in

Sign in with your email and password.

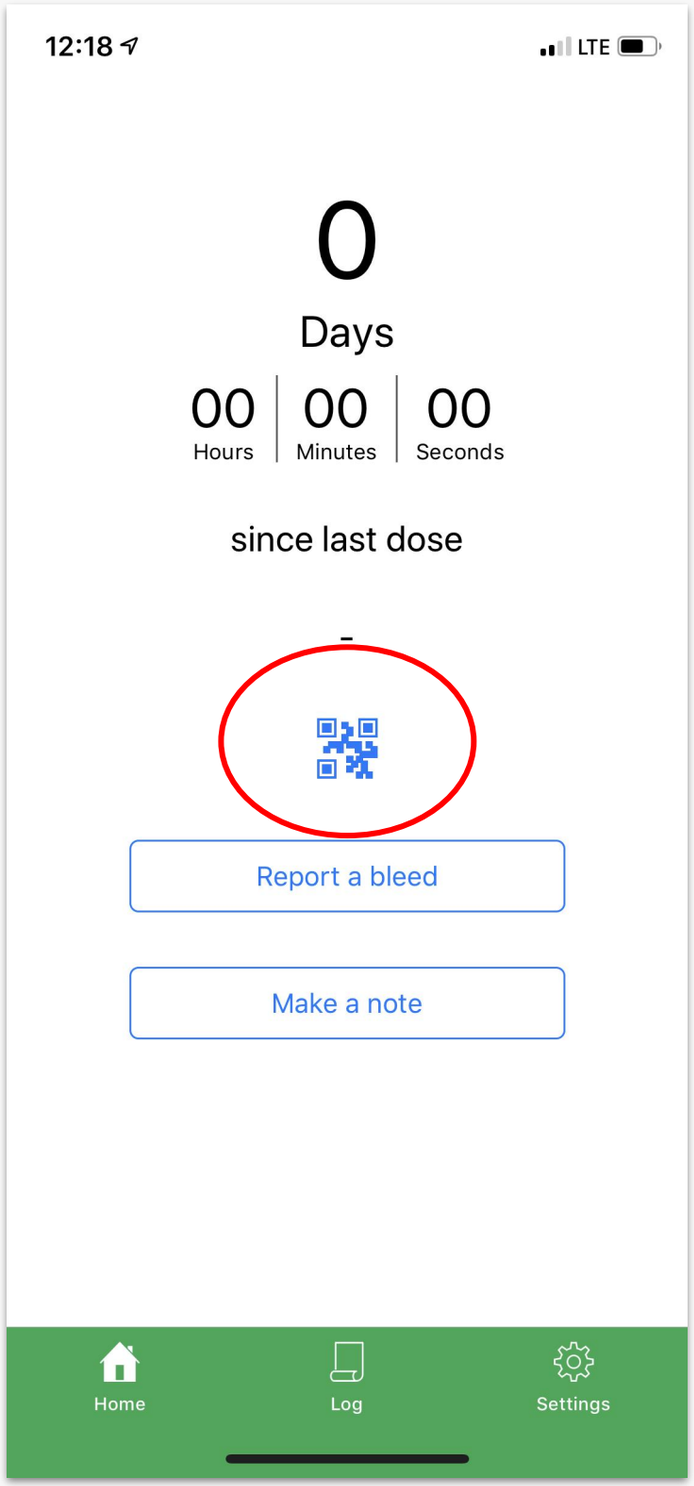


Logging your infusions

Now you have reached the app's home screen.

To log a dose, just tap the barcode button in the middle of the screen.

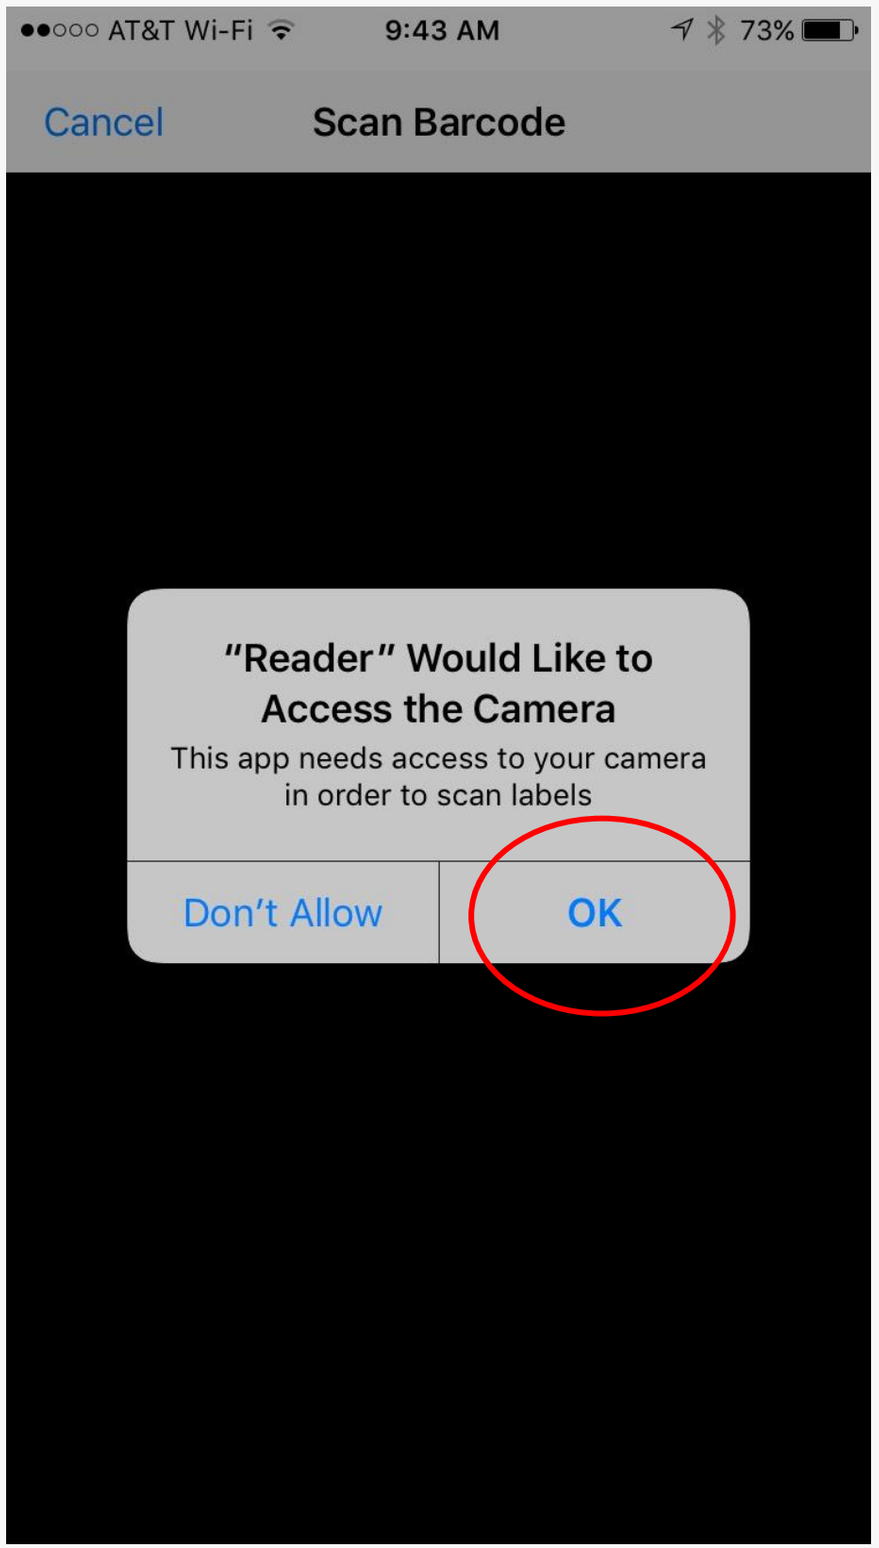
**for those not using the in-home device, please ignore the "Time since last check" as this applies only to the in-home box.*



Logging your infusions

The first time you use the app, you will have to give the app access to your phone's camera.

Click "OK" when this alert pops up.



Logging your infusions

Now, the scanning window appears.

To log a dose, all you need to do is point the phone's camera at the green barcode on your medication box to indicate you've used that dose (example barcode to the right).

Once the scanner picks up the barcode and logs it, you will hear an audible beep.

**If you do not hear the beep, turn your phone's ringer on.*

****Multiple vials** - if your dose requires multiple vials, please scan each box's barcode to log that you infused those vials.*

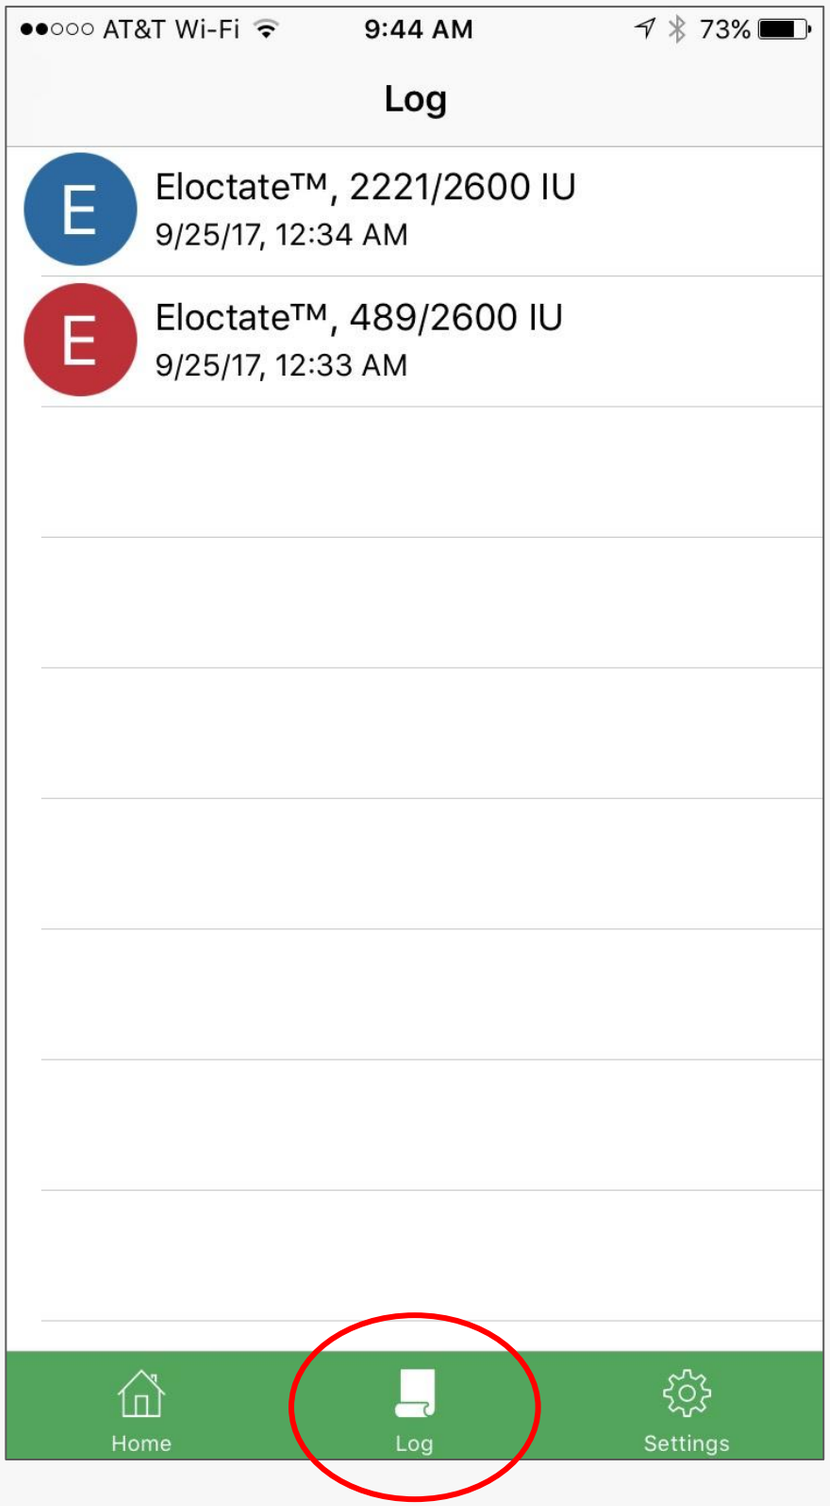
Practice scanning

To practice scanning, please scan the barcode below.

If your ringer is on, you will hear the audible beep when the scanner reads the code.

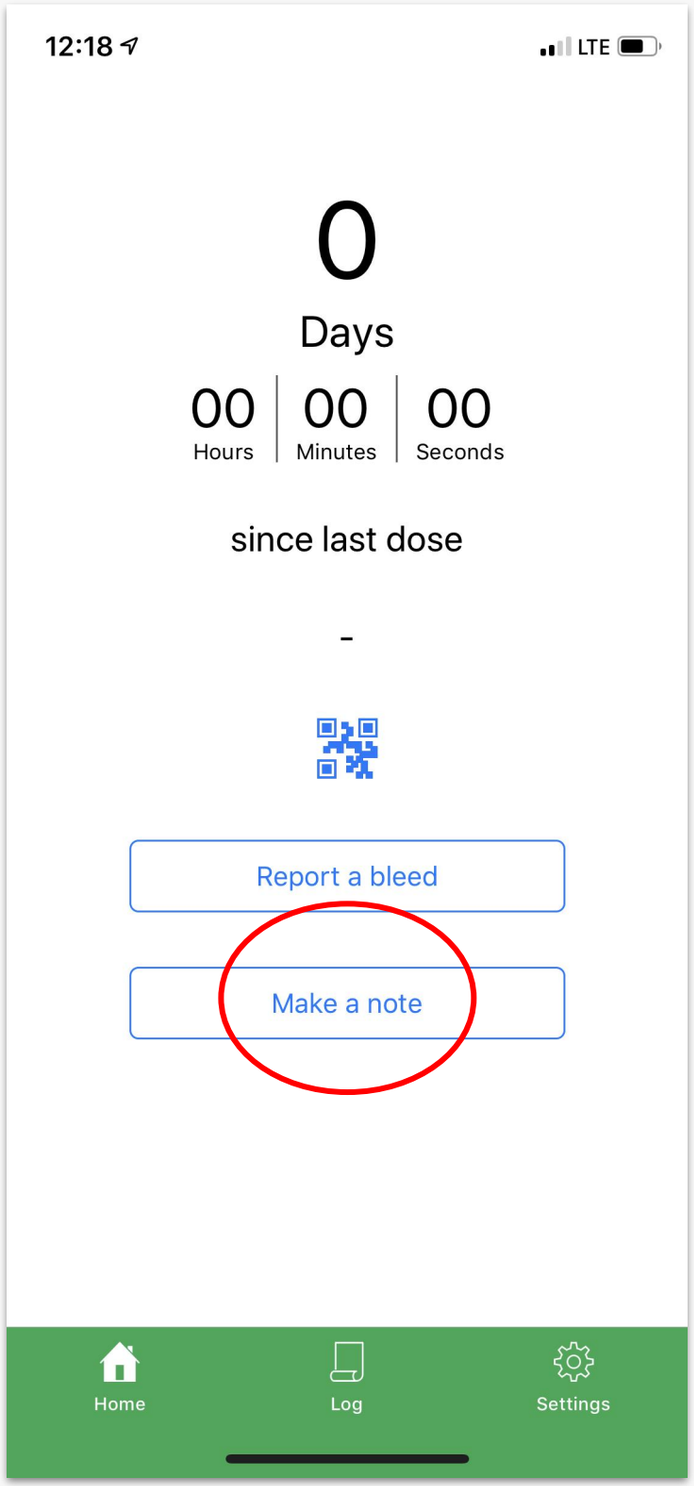
Viewing Logs

To view your log, as well as check if your recent scans were logged properly, click the “Log” button on the bottom bar.



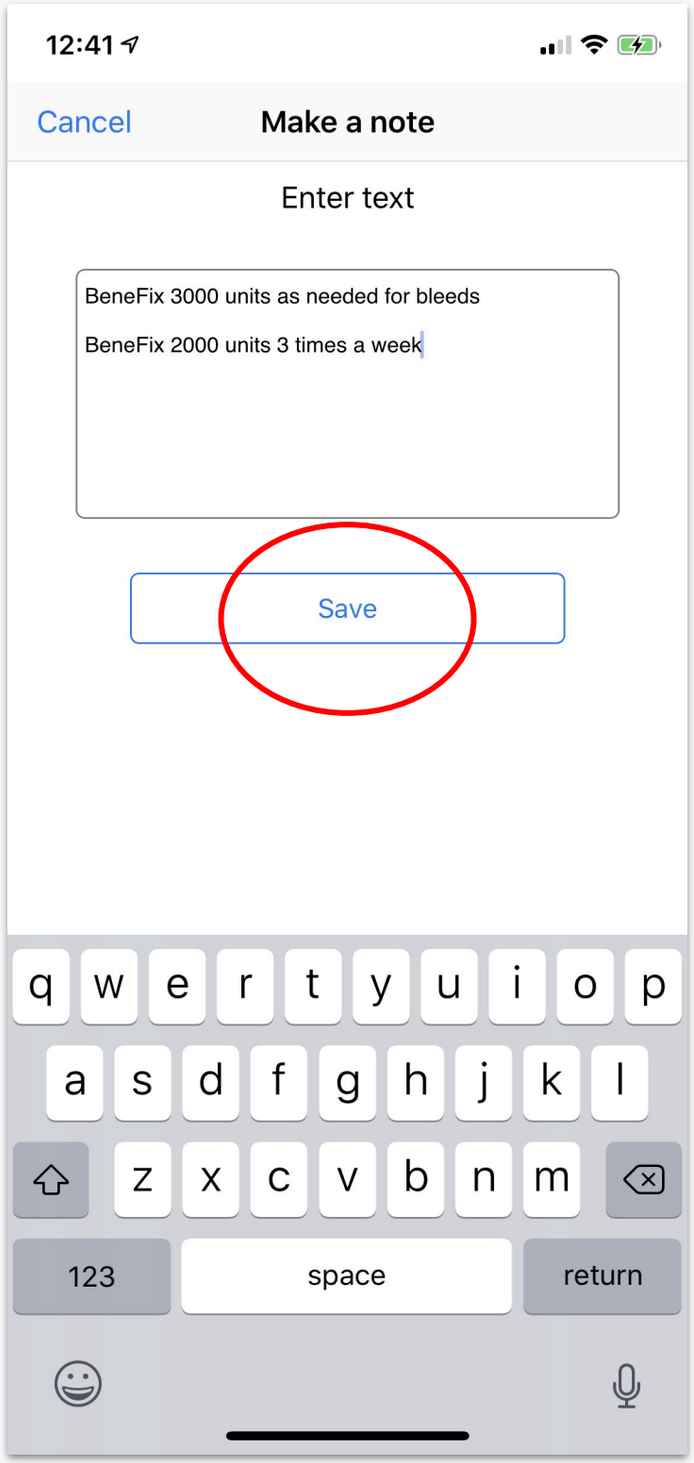
Taking notes (1/2)

To create a note, click the "Make a note" button on the home screen



Taking notes (2/2)

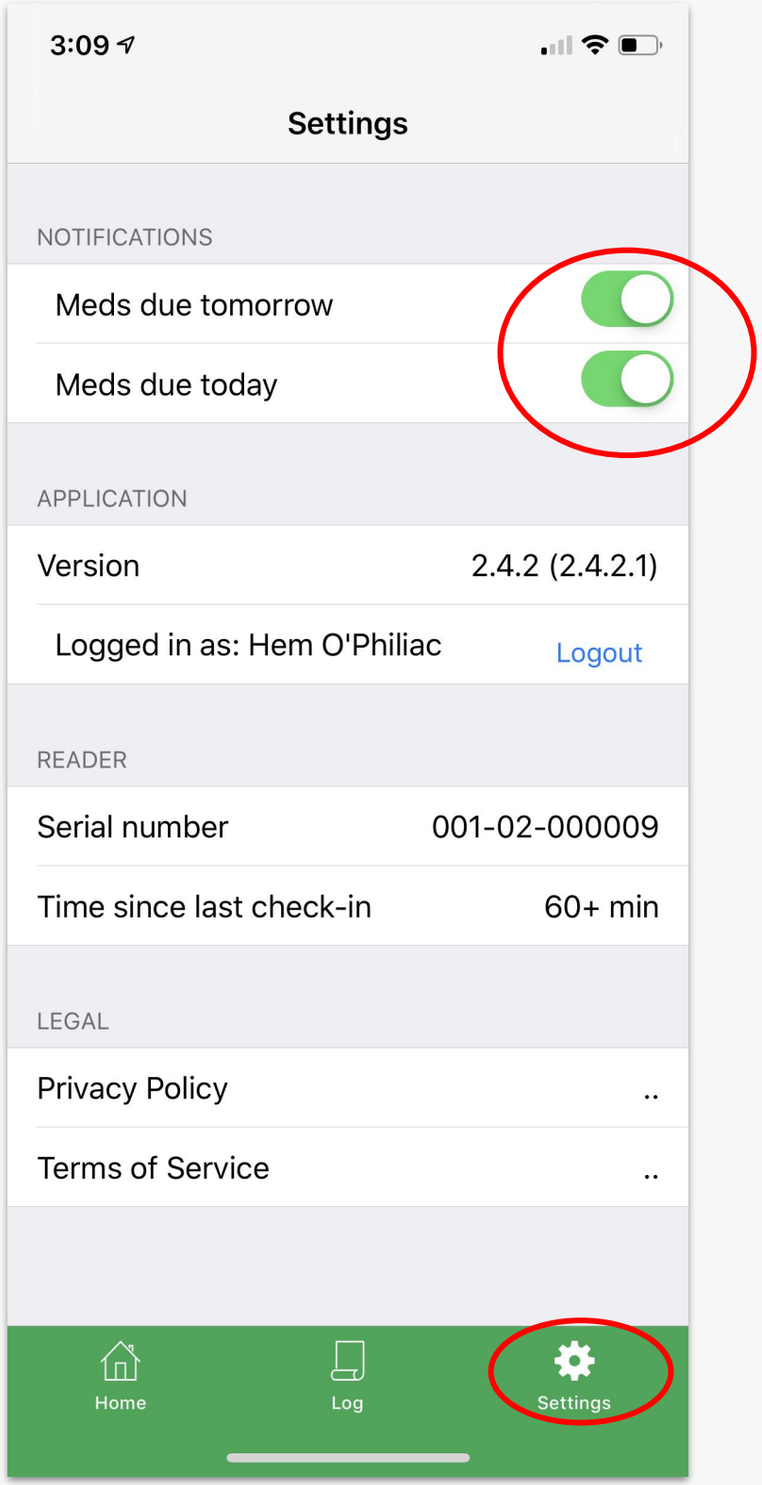
In the text box, enter in your note and click “Save”



Updating Notifications

To update infusion notifications (reminders) from the app, click the “Settings” tab in the bottom right of the tab bar.

Then, choose how you'd like to be reminded when your meds are due.



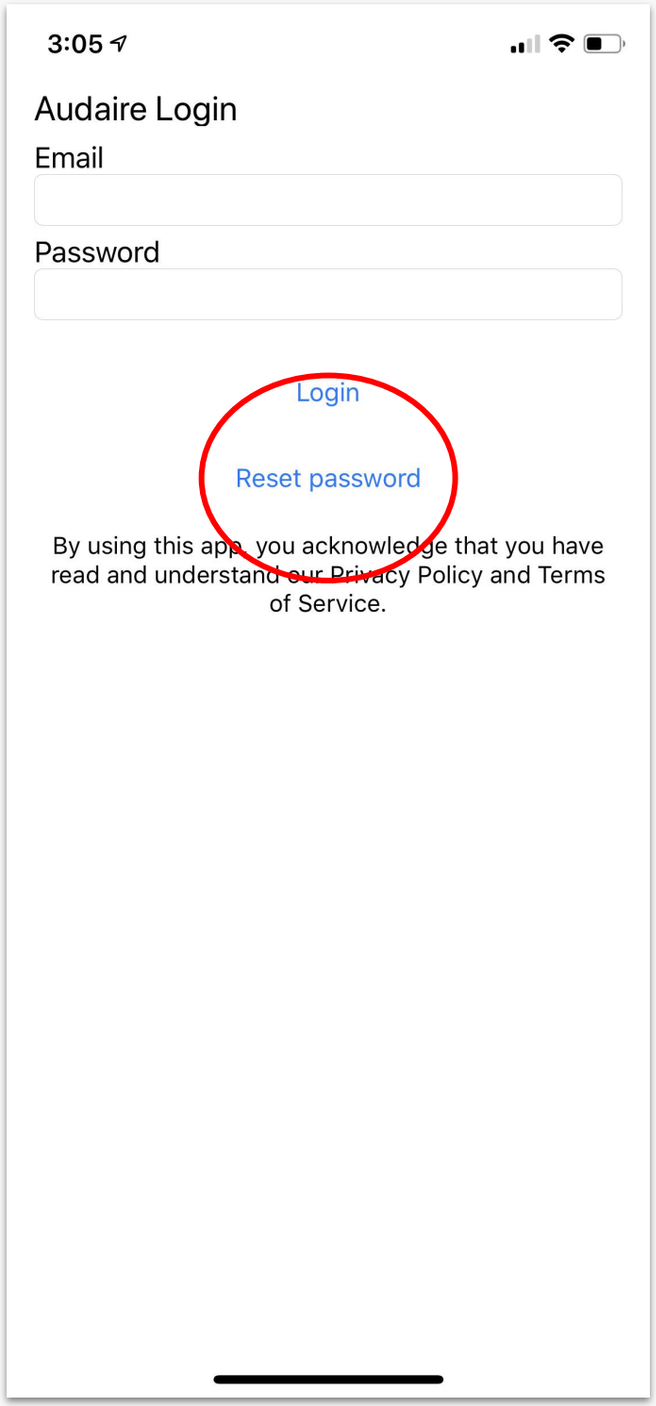
Resetting your Password

To reset your password, first log out of the app.

Then type in your email address associated with your account.

Finally, click “Reset password.”

An email with directions for resetting your password will be sent to your Audaire Login address.



Logging Out

To logout of the app, click the “Settings” tab in the bottom right of the tab bar.

Then, click “Logout” next to your name.
