

## LEAN SIX SIGMA BLUE BELT

### About the Class

Blue Belt is for all employees at the manager-level or above and all physician leaders to learn how to become a successful improvement project Sponsor. In this one-day training, you will learn essential leadership practices, understand your role in improvement projects, and how to successfully launch projects.

### Topics

- Blue Belt Overview
- Reason for Action
- Frame the Problem
- Project Charter
- Launch your Project
- Sponsorship = Leadership
- Problem and Methodology Matching
- Blue Belt Next Steps

### Enroll

Email [oe@unchealth.unc.edu](mailto:oe@unchealth.unc.edu) to enroll. Yellow Belt Orientation is a prerequisite for this class.

### Additional Information

Please wear layers to maintain a comfortable temperature. We recommend no skirts/dresses, due to the nature of the activities. For more details, please visit the Operational Efficiency website.

### Certification

To certify as a Blue Belt, you must sponsor and sign-off on a Lean Six Sigma project (Express Workout, Kaizen Event, A3 Project, DMAIC). Once certified, you are expected to continuously identify issues in your scope of responsibility for which to charter additional projects. You are also encouraged to identify staff in your area to train as Yellow Belts, Blue Belt, Purple Belts, and Kaizen Coaches.
