

Cystic Fibrosis Fund

The Cystic Fibrosis Fund is designed to assist eligible people living with cystic fibrosis with cost-shares associated with CF-specific treatments. In addition, HealthWell is also able to assist with the full cost of some vitamins, supplements, hypertonic saline solution, nebulizers paired with treatments, and certain handsets.

This is a list of treatments we can help cover (this requires the patient's insurance to cover or pay first):

Acetylcysteine solution	Kitabis	Pulmozyme
Actigall	Nebcin	Sodium Chloride
Albuterol Sulfate HFA	Nebusal	Tobi
Bethkis	Orkambi	Tobi Podhaler
Cayston	Pancreaze	Tobramycin
Colistin	Pertzeye	Ultresa
Creon	Proair HFA	Ventolin HFA
Ipratropium combine with Albuterol	Proventil HFA	Xopenex

Altera Nebulizer System	PARI eRapid Nebulizer Handset
Durable Sidestream Handset	PARI LC Plus Handset
Hudson T Up-draft II Handset	PARI PEP Handset
PARI Baby Handset	PARI Vios Handset

HealthWell is committed to supporting the CF Community and the established guidelines around our covered product list are meant to focus on the areas of greatest need for the majority of people living with CF. We understand there are additional areas to be addressed and, over time, it is our hope to be able to expand our coverage even further.

As an independent, non-profit organization, HealthWell works closely with many advocacy groups associated with the funds we manage, including the Cystic Fibrosis Foundation. While we may seek their insight related to some aspects our CF program, the decisions are ultimately ours.

The following products have already been considered by HealthWell and, at this time, are not covered under the fund. We periodically reconsider coverage for these products; any changes to the list of covered products will be made available through our website at www.healthwellfoundation.org.
