

**COMMUNITY BASED LONGITUDINAL CARE COURSE**  
**REMOTE LEARNING PLAN as of 3/19/20**

**Course Directors:**

Kelly Bossenbroek-Fedoriw: kelly\_fedoriw@med.unc.edu

Karina Whelan: karina\_whelan@med.unc.edu

There will likely be at least one (maybe more) peds lectures added to this plan, we are just waiting for confirmation from potential facilitators. The curriculum for each session is the same as during our regular seasons. They are listed in the resources by lecture name on Sakai. The only session we are changing is the QI since we will need to modify our goals to meet the current situation with COVID.

-----

CBLC leaders,

This is our working schedule for Chapel Hill didactic sessions for students over the next 2 weeks. We may be editing the timing of these sessions but this is our working schedule. We will also add teaching about telephone triage, and conducting video visits in EPIC which all students will need to complete.

Each campus should decide and communicate with your students which sessions you want them to attend. It is up to the individual site coordinators (Erin @ Raleigh, Wanda @ Greensboro, Tiffany @ Wilmington) to keep track of the sessions that your students need to attend. We are happy to have all students attend these via WebEx but you could also continue your own schedules. The only exception to this is that **all students need to attend the two QI sessions led by Karina**. We want to make sure all students are on the same page about this assignment.

We tried to schedule most sessions that require quizzes over the next couple of weeks. These quizzes will open for students on Sakai with a time limit of 30 minutes to submit their answers. If you choose to do your own session, your students will need to do the quizzes on paper. We won't be able to coordinate quizzes in Sakai at all different times.

Importantly we want to have students taking this time seriously and learning everything they can to be ready to help out soon. **Please let Julie and Courtney know which of these sessions your students will be joining (Raleigh, Greensboro, Wilmington).**

This week:

**Thurs, 3/19: WebEx from Chapel Hill**

8:30-9am - QI (FOR ALL STUDENTS) - Karina

9-11am - Chronic pain and MSK - Kelly

11-11:30am - MSK quiz (released on Sakai)

**Fri, 3/20: WebEx from Wilmington**

8-10am - Dizziness and Headache (WILM & RDUCH/PHS STUDENTS) – James McKinney

Next week:

**Tues, 3/24: WebEx from Chapel Hill**

1-1:30pm - QI (FOR ALL STUDENTS) - Karina

1:30-3:30pm - Afib/CHF - Karina

3:30-4pm - Afib/CHF IRAT (released on Sakai)

**Thurs, 3/26: WebEx from Chapel Hill (we could also do this Wed)**

8-9:30am - COPD/Asthma - Kelly

9:30-10am - COPD IRAT (released on Sakai)

**Fri, 3/27: WebEx from Chapel Hill**

9-10am - Transgender Health – Rupal Yu

10am-12pm - DM/HTN - Kelly

12-12:30 - DM/HTN quiz (released on Sakai)

Thanks!

Kelly, Karina, Courtney, and Julie G
