TITLE OF POLICY
Policy on Student Progress Committee Functions

PURPOSE AND SCOPE
This policy establishes the composition of the Student Progress Committee (SPC), its protocol for convening a meeting, and the conditions for Level 1 and Level 2 Actions.

RESPONSIBLE PARTY AND REVIEW CYCLE
The Education Committee will review and approve the policy in odd-numbered years or as needed.

LCME REFERENCE(S)
LCME 9.9: Student Advancement and Appeal Process

HISTORY OF APPROVALS AND UPDATES
Approved by Education Committee February 2019
Approved by Education Committee February 2017
Approved by Curriculum Committee 2011

DEFINITION(S):

Technical Standards: Technical Standards establish the personal attributes and capabilities required for admission to, promotion within, and graduation from the UNC School of Medicine (SOM). Medical students are required to attest that they understand and will comply with these standards on an annual basis.

Academic Difficulty: The presence of any of the following:
1. One or more failing grades in:
   a. courses/clerkships (including electives), blocks or portions of courses or selectives
   b. the USMLE Step 1 or 2 (CK or CS)
   c. the Clinical Performance Examination (CPX)
   d. other requirements, including NBME subject shelf examinations
2. Failure to meet the requirements of any extramural academic activity approved and authorized by the Associate Dean of Student Affairs (e.g., requirements of the School of Public Health for the MPH degree or for other approved dual degree programs).
3. Documented difficulties in clinical performance in any course that leads to an incomplete or failing grade.
Professional Difficulty: The presence of behavior, including behaviors inconsistent with the Technical Standards, which interferes with the student’s responsibilities and progress through the curriculum or that may have influenced a failing or incomplete grade. Examples of behaviors that may establish professional difficulty include but are not limited to:

1. Habitual and unexcused lateness or absenteeism,
2. Inappropriate responses to feedback,
3. Unprofessional or inappropriate interactions with health care team members or patients,
4. Failure to submit assignments,
5. Missing deadlines,
6. Dishonesty,
7. Lack of responsiveness to communications from instructors or administrative staff,
8. Findings of responsibility by the Honor Court,
9. Convictions of criminal activity.

Faculty and staff members with knowledge of behavior(s) that may constitute Professional Difficulty must document and report such conduct to the SPC.

Action: Decisions made by the SPC in response to a student’s Academic or Professional Difficulty can either be classified as Level 1 or Level 2. Failure to comply with any Action imposed by the SPC may result in a student’s dismissal from the SOM.

Honor Court Sanction: Penalty imposed by the University Honor Court as a result of a finding of responsibility. Honor Court sanctions are noted in the Medical Student Performance Evaluation (MSPE).

Remediation or Remediate: Repeat a portion of a course.

Deceleration or Decelerate: Repeat one or more entire courses. A student can voluntarily Decelerate or be required to do so by the SPC.

POLICY AND PROCEDURES

Purpose of the SPC
The SOM has established a SPC to review the academic and professional performance of medical students, including compliance with the Technical Standards. For those students experiencing Academic Difficulty or Professional Difficulty, including non-compliance with the Technical Standards, the SPC will consider the totality of the circumstances and determine Level 1 and Level 2 Actions, carefully balancing the best interests of the student, SOM, profession, patients and the general public.

Composition of the SPC
The SPC is composed of 9 voting members, including the chair, and 5 ex-officio, non-voting members. The term for each member is defined by the SOM Bylaws.

SPC Composition is:
- Voting Members:
Three faculty members from basic science departments and three faculty members from clinical science departments (as defined by SOM Bylaws) appointed by the Dean serve as voting members of the SPC.

One faculty member from a basic science department and one faculty member from a clinical science department (as defined within the Bylaws) elected by SOM faculty from a pool of experienced educators (prior service as a medical school course or clerkship director and/or a member of the Academy of Educators) also serve as voting members of the SPC.

The Chair of the SPC, who is appointed by the Dean, serves as a voting member.

The Dean may also appoint up to four alternate members of the Committee.

- Ex officio non-voting member: The Associate Dean for Student Affairs, the Assistant Dean for Student Affairs, the Associate Dean for Inclusive Excellence, the Registrar, and the Director of Special Programs serve as ex officio non-voting members.
- Current Advisory College faculty are excluded from membership to avoid any potential conflict of interest.

**Procedural Notes for a Properly Convened Meeting**

The SPC reviews all students experiencing Academic Difficulty or Professional Difficulty. The SPC convenes meetings regularly during and at the end of each semester.

**Quorum**

An SPC quorum, for in person or electronic meetings, is defined as five or more voting members. The SPC may not act without a quorum. The decisions of the SPC are determined by a majority vote of the members present.

**Recusal**

SPC voting members involved in the following circumstances for a student’s review are required to recuse themselves from voting on any motions concerning that student.

- Healthcare provider to the student,
- Family member of the student,
- Evaluator of student’s performance in a course, or
- Self-identified conflict

**Electronic Vote**

The chair may call for an electronic vote if a physical meeting is not possible, except in the instance when a student is required to be present.

**Committee Members: Meeting Notification and Materials**

In advance of a meeting where a student is on the agenda, the faculty advisor, block or course directors, and the Registrar, as appropriate, will provide to the SPC written information about the academic or professionalism record of each student being reviewed to assist the SPC to render informed decisions.

**Students: Meeting Notification, Attendance, and Materials**
Students will be notified they are on the SPC agenda and will be provided the opportunity to provide written information to the SPC prior to the scheduled meeting. At any time, a student may request to attend a meeting if he/she is on the SPC agenda. Students are invited to attend if Level 1 or level 2 sanctions may be considered by the SPC. In this instance, the student will receive notification in writing at least 10 business days prior to the scheduled meeting. If the student declines to appear or does not respond to the notice, the SPC will meet as scheduled, and Level 1 or 2 Actions, as discussed below, will be determined in the student’s absence. The student will receive a written copy of the SPC decision.

During the meeting, the student may elect to present any information or documentation deemed relevant. The student may also bring one SOM faculty member of choice to the meeting to serve as an advocate. This faculty member is often a college advisor, but may not be a member of the SPC. Attorneys retained by the student cannot attend SPC meetings or meetings with medical school staff in preparation for an SPC meeting.

**Level 1 Actions to Address Academic or Professional Difficulty**

For any student meeting the definitions set forth for Academic or Professional Difficulty, the SPC may take any of the following Level 1 Actions, alone or in combination. Failure to comply with any Action imposed by the SPC may result in a student’s dismissal from the SOM.

1. Require a student to address a first report of Professional Difficulty through assignments determined by the SPC. Completion of assignments in response to a first report of Professional Difficulty may appear on a student’s Medical Student Performance Evaluation (MSPE).

2. Recommend that the student be referred for evaluation of difficulties that may impair his/her ability to be a physician, including but not limited to learning disabilities, medical disorders, psychological disorders, substance abuse disorder, and other psychiatric conditions.

3. Require the student to Remediate a portion of a course as recommended by the faculty, the Office of Academic Excellence, and/or the SPC. Remediation is noted in the student’s MSPE.

4. The SPC reserves the right to remove the student from performing clinical coursework until all issues before the SPC and all appeals have been resolved. This action would be noted in the student’s MSPE.

**Level 2 Actions to Address Academic or Professional Difficulty**

The SPC make take any of the following level 2 Actions alone or in combination. Failure to comply with any Action imposed by the SPC may result in a student’s dismissal from the SOM.

1. Require the student to Decelerate, repeating one or more entire courses. The student may also volunteer to Decelerate. Required or voluntary deceleration is noted in the student’s MSPE.
2. Recommend that the student withdraw from the regular curriculum to take a review (e.g., Basic Science Review) course or enter an external review program. Withdrawal from the curriculum is noted in the student’s MSPE.

3. Require the student to take a leave of absence with defined conditions for returning to the curriculum (See Leave of Absence Policy). Leaves of Absence are noted in the student’s MSPE.

4. Require the student to cease or to not perform clinical coursework until all issues before the SPC and all appeals have been resolved. This is noted in the student’s MSPE.

5. Recommend or require other actions to appropriately address the Professional or Academic Difficulty at issue. This level 2 Action is noted in the student’s MSPE.

6. Dismiss the student from the SOM. Students who are dismissed are removed from the SOM. Any opportunity for the student to request a leave of absence or to voluntarily withdraw from the curriculum ends when the SPC meeting is convened. Students who are dismissed from the SOM receive notice within ten business days that they may appeal the decision but may not continue in the curriculum while their appeal is being adjudicated.

A student cannot Decelerate a phase more than once whether voluntary or required by the SPC.

The entire curriculum must be completed within six academic years of initial matriculation, excluding approved leaves of absence. Failure to do so will result in dismissal from the SOM unless there are extraordinary extenuating circumstances that preclude the student’s progress and that, in the judgment of the SPC, warrant an extension.

Application of Level 1 and 2 Actions for Specific Circumstances
While the circumstances of an individual case will dictate the appropriate response, the following specific circumstances offer typical, but not universal, Level 1 or 2 Actions applied by the SPC:

- If a student in any phase is in Academic Difficulty, the student may be required to Remediate.
- Students who fail required Remediation may be required to enter a Decelerated curriculum, take a leave of absence with defined conditions for return, or be dismissed from the SOM.
- If a student does not pass the USMLE Step 1 at the end of the Foundation Phase, the student will not be allowed to continue in the clinical curriculum after October 1st of Application Phase until a passing score on the USMLE Step 1 is recorded by the registrar (see UNC SOM Policy for Completion of USMLE Step Examinations).
- If a student who is participating in a residency matching program does not pass the USMLE Step 2 CK and CS by November 1st of Individualization Phase, the student may be withdrawn from the Match for that year (see UNC SOM Policy for Completion of USMLE Step Examinations).
• Three failed attempts to pass a single USMLE Step exam will result in dismissal from the SOM absent a finding of exigent circumstances.

Relationship to the University’s Honor Code

If a student’s alleged conduct potentially constitutes an offense under the University’s Honor Code, the matter must be referred to the Student Attorney General. If, in the SPC’s reasoned professional judgment, the alleged conduct, if true, would constitute a risk to patient care or safety, the SPC may suspend the student from patient contact pending the outcome of the Honor Court case.

If, upon review of the matter, the Student Attorney General determines there is insufficient evidence to pursue a charge against the student or that the alleged conduct does not constitute an offense after the Honor Court review, there will be no notation in the MSPE. The SPC, however, may address conduct that calls into question the student’s professional fitness for the practice of medicine pursuant to this policy, the Technical Standards, or other applicable SOM or University policies. If the SPC were to decide on an Action based on their investigation, this would be noted in the student’s MSPE.

If the Attorney General initiates a charge against the student and the Honor Court finds the student responsible for the offense charged, there will be a notation in the MSPE. The SPC may also review the student’s conduct if that conduct calls into question the student’s professional fitness for the practice of medicine pursuant to this policy, the Technical Standards, or other applicable SOM or University policies. Such consideration shall not begin until all Honor Court proceedings, including any appeals, have concluded. The SOM may impose additional actions after the conclusion of the University Honor Court review and those additional actions would be noted in the MSPE.

Relationship to the Policy on Prohibited Discrimination, Harassment and Related Misconduct

The University’s Policy on Prohibited Discrimination, Harassment, and Related Misconduct prohibits discrimination or harassment on the basis of an individual’s age, color, disability, gender, gender expression, gender identify, genetic information, national origin, race, religion, sex, sexual orientation, or veteran status.

Students who want additional information regarding the University’s process for responding to allegations of discrimination or harassment should contact the Equal Opportunity and Compliance (EOC) Office for assistance:

Equal Opportunity and Compliance Office
Telephone: (919) 966-3576
eoc@unc.edu
https://eoc.unc.edu/

Any administrator or supervisor, including a department chair, associate dean or other administrator, who receives a student’s complaint about prohibited harassment or discrimination, must notify the EOC
Office. If a student alleges prohibited harassment or discrimination as a cause of the circumstances giving rise to the Academic or Professional Difficulty under review by the SPC, the SOM must consult with the EOC Office before rendering a decision regarding the imposition of Measures or Actions.
