Please fill out this survey for Sean Gaffney (it should only take ~3 minutes). The following questions are designed to better characterize our training and experience with code status discussions. Eliciting and documenting a patient's code status preference is a task we face every day as residents. We are hoping to use the results of this survey to better tailor future training/teaching related to code status communication. Your participation is completely voluntary, but we appreciate your assistance in advance. We hope to collect all of your responses by March 31. Here is the link:

CLINIC CORNER

See the attached tip sheet for how to order eConsults from clinic! Please bring your attention to the section regarding potential out-of-pocket costs to patient, however, this tends to be lower than office-based consultations. Please note this to the patient if using e-consults and consider using the SmartPhrase “.ECONSULTPATIENTEDUCATION” in the WrapUp section of your AVS.

RSVP For Primary Care Interest Event: Dr. Shaheen is hosting an informal primary care interest party at her house for all residents on Saturday, May 18th. Dinner will be provided! This will be a wonderful opportunity to learn more about General IM in the outpatient setting firsthand from our wonderful attendings. Please RSVP [here](#). Let me know if you encounter any glitches!
