

## NC INSURANCE PLANS AND PREFERRED FORMULARY INHALERS (2026)

### HOW TO USE THIS GUIDE/OTHER RESOURCES:

- This guide includes mostly preferred agents on each formulary. Plans may update their formularies more frequently than this resource is updated (~yearly).
- If there is no insurance under the EPIC Tab, ask patient or look under Media Tab to find **Pharmacy Benefit Card**. Usually it will have their plan name on the bottom right or left hand corner of the card
- The Insurance Plan labels for each row are also hyperlinks to click to the respective formulary document
- For Medicare, nebulized medications are primarily covered through Part B, will ask for diagnosis code on RX and potentially date of nebulizer machine purchase
