

BIOGRAPHICAL SKETCH

Provide the following information for the key personnel and other significant contributors in the order listed on Form Page 2.
Follow this format for each person. **DO NOT EXCEED FOUR PAGES.**

NAME Prema Menezes	POSITION TITLE Clinical Assistant Professor		
eRA COMMONS USER NAME PMENEZES			
EDUCATION/TRAINING <i>(Begin with baccalaureate or other initial professional education, such as nursing, and include postdoctoral training.)</i>			
INSTITUTION AND LOCATION	DEGREE <i>(if applicable)</i>	YEAR(s)	FIELD OF STUDY
University of North Carolina, Chapel Hill, NC	Doctor of Philosophy	2008	Epidemiology
Duke University Medical Center, Durham, NC	Master of Health Science	1997	Health Sciences
Bombay University, Bombay, India	Master of Science	1988	Biochemistry
Bombay University, Bombay, India	Bachelor of Science	1986	Chemistry, Botany

A. Positions and Honors.

1990-1995 Clinical Research Microbiologist I/II, Fred Hutchinson Cancer Research Center, Seattle, WA

1998-1999 Clinical Instructor- Department of Medicine, University of North Carolina, Chapel Hill, NC

1999-2001 Research Instructor; Coordinator-Center for AIDS Research (Clinical Core)- Division Of Infectious Diseases, Department of Medicine, University of North Carolina, Chapel Hill, NC

2001-to date Associate Director-Center for AIDS Research (Clinical Core), University of North Carolina, Chapel Hill, NC

2001-2008 Clinical Instructor -Division of Infectious Diseases, Department of Medicine, University of North Carolina, Chapel Hill, NC

2003-to date Adjunct Faculty-Department of Community and Family Medicine, Duke University, Durham, NC

2009- to date Clinical Assistant Professor- Division of Infectious Diseases, Department of Medicine, University of North Carolina, Chapel Hill, NC

2010-to date Adjunct Assistant Professor – Gillings School of Global Public Health, University of North Carolina, Chapel Hill, NC

B. Selected peer-reviewed publications (in chronological order).

Manuscripts

Center for AIDS Research (CFAR)

The main goals of the clinical core are to facilitate and coordinate HIV translational research for basic scientists and clinical investigators. The Clinical Core promotes the development of new areas of HIV research by supporting new and experienced investigators.
