Morning Session: T and B Cell Immunity
Chair: Jenny Ting PhD:
Opening Remarks 8-8:10 AM
*Gail Bishop PhD (8:10-9:00) TRAF3: A Multi-faceted Regulator of Lymphocyte Signaling & Function
Robert Colbert MD PhD: (9:05-9:45) Genetics and Pathogenesis of Spondyloarthritis
Break 15 minutes
Alan Zajac PhD (10:00-10:40): The inception, exhaustion, and resurrection of CD8 T cells
Lynda Tussey PhD (10:45-11:20) Real time translation is critical for the development of novel vaccine platforms
Ann Reed MD 11:25-12:00 PM
Lunch 12:00-1:15 PM

Afternoon Session: MHC Presentation and Host Pathogen & Tumor Interactions
Chair Jonathan Serody MD
*Jonathan Yewdell PhD (1:20-2:10): Translating Immunology: Literally
Michael Betts PhD (2:15-2:55) Understanding mechanisms of CD8+ T cell control of HIV where it matters
Break 15 minutes
Tom Kawula PhD 3:10-3:50 PM
Ben Vincent MD (3:55-4:25) Immunogenomics for Translational Immuno-Oncology
Bruce Cairns MD (4:30-5:00) Immune Response During Burn Injury

5:15 PM Leave for Dinner

*Keynote Speakers
