

The Department of Microbiology and Immunology

School of Medicine
University of North Carolina at Chapel Hill

Spring 2018 Seminar Schedule

Revised 3/20/18

All seminars are held on Tuesday at 9:30 a.m. in 1131 Bioinformatics unless otherwise noted.

DATE	SPEAKER AND SEMINAR TITLE	HOST
January 16	Mari Shinohara, Ph.D., Duke University Medical Center, " Balancing between myeloid and lymphoid cell population sizes. "	Roland Tisch
January 23	Andrew Goodman, Ph.D., Yale University, " Modulating the microbiome. " <i>Co-sponsored by the Burroughs Wellcome Fund</i>	Janelle Arthur
January 30	Gwendalyn J. Randolph, Ph.D., Washington University, " Lymphatics and Macrophages: regulators of tissue microenvironment. "	Jenny Ting
February 6	Matthew Evans, Ph.D., Mt. Sinai, " Identifying Zika virus immune evasion and assembly determinants by deep insertional mutagenesis. " <i>Co-sponsored by the Burroughs Wellcome Fund</i>	Blossom Damania
February 13	Francisco Quintana, Ph.D., Harvard, Brigham and Women's Hospital " Regulation of CNS inflammation. "	Roland Tisch
February 20	Gregory D. Ebel, Ph.D., Colorado State University, " Population biology and emergence of arboviruses, the new global pathogens. "	Aravinda de Silva
February 27	Katharina Ribbeck, Ph.D., Massachusetts Institute of Technology, " Probing microbial interactions with the mucus barrier "	Elizabeth Shank
March 6	Russell Vance, Ph.D., University of California, Berkeley, " Strategies for robust and specific detection of pathogens. " <i>Co-sponsored by the Burroughs Wellcome Fund.</i>	Ed Miao
March 20	Thomas J. Silhavy, Ph.D., Princeton University, " Building a membrane on the other side of the wall. "	Miriam Braunstein
March 27	Benjamin Vincent, MD, UNC-Chapel Hill, " Translational Immunogenomics in Immuno-Oncology. " <i>Joint faculty seminar.</i>	Bill Goldman
April 3	Chandra Mohan, MD/Ph.D., University of Houston, " Proteomic Insights On Autoimmunity. "	Barb Vilen
Friday, April 6* 3:10 p.m. G202 MBRB	M&I Postdoc Symposium - Keynote Speaker, David Weiner, Ph.D., The Wistar Institute, " Rapid Development of Synthetic DNA Approaches for Important targets including EID. " <i>Note day, time & location.</i>	M&I Postdoc Association
April 10	Pamela Björkman, Ph.D., California Institute of Technology, " A Molecular Arms Race: HIV versus the immune system. "	Kristina De Paris
April 17	John Schoggins, Ph.D., University of Texas Southwestern Medical Center, " Interferon-stimulated genes in antiviral immunity. "	Helen Lazear
April 24	Deb Hung, MD/Ph.D., Broad Institute of Harvard, " A chemical biological approach to understanding infection. "	Matt Wolfgang
May 1	Hongbo Chi, Ph.D., St. Jude Children's Research Hospital, " Metabolic control and signaling circuits in lymphocyte fate decisions. "	Yisong Wan
May 8	Raul Andino, Ph.D., University of California, San Francisco, " RNA Virus Infection and Evolution. "	Stan Lemon

*M&I Students: *Special seminars are not a part of MCRO 701*
