J. Please include any additional information or feedback you would like to include for future students:
   It is absolutely possible to look for and find a global health opportunity outside of UNC if you wish to, and UNC will help you make it work. This was an opportunity I found on my own and I could not have been happier with my summer. Be bold, take chances and ask for help. A summer abroad is so orienting. It reminds you of the people-side of medicine and puts the whole career more into perspective.

K. What could the OIA have done differently or better to support you in your international elective? :
   I was completely safe so this isn’t a personal complaint but more of a precaution issue. It would probably be a good thing for students to check in with someone at the school when they get abroad so UNC knows they had safe travels, and maybe communicate again when they are half-way done with their abroad time just so you know they are alive.

THANK YOU!!! THIS INFORMATION WILL HELP FUTURE STUDENTS !!!!
