**What the Insurer Pays for Covered Medical Expenses:** If a Covered Person incurs expenses while insured under the Policy due to an Injury or a Sickness, the Insurer will pay the Reasonable Expenses for the Covered Medical Expenses listed below. All Covered Medical Expenses incurred as a result of the same or related cause, including any Complications, shall be considered as resulting from one Sickness or Injury. The amount payable for any one Injury or Sickness will not exceed the Maximum Benefit for the Eligible Participant or the Maximum Benefit for an Eligible Dependent stated in Coverage A—Medical Expenses of Table 1 of the Schedule of Benefits. Benefits are subject to the Deductible Amount, Coinsurance, Copayments, and Maximum Benefits stated in the Schedule of Benefits, specified benefits and limitations set forth under Covered Medical Expenses, the General Policy Exclusions, the Pre Existing Condition Limitation, and to all other limitations and provisions of the Policy.

**Covered General Medical Expenses and Limitations:** Covered Medical Expenses are limited to the Reasonable Expenses incurred for services, treatments and supplies listed below. All benefits are per Injury or Sickness unless stated otherwise.

No Medical Treatment Benefit is payable for Reasonable Expenses incurred after the Covered Person’s insurance terminates as stated in the period of coverage provision. However, if the Covered Person is in a Hospital on the date the insurance terminates, the Insurer will continue to pay the Medical Treatment Benefits until the earlier of the date the Confinement ends or 31 days after the date the insurance terminates.

If the Covered Person was insured under a group policy administered by the Administrator immediately prior to the Coverage Start Date shown on the Identification Card issued to the Participant, the Insurer will pay the Medical Treatment Benefits for a Covered Injury or a Covered Sickness such that there is no interruption in the Covered Person’s insurance.

applies.

- Emergency Hospital Services: Emergency Hospital Services are

The Insurer will pay the benefit stated below if a Covered Person

sustained:

<table>

means the entire and irrecoverable loss of sight in that eye.

If more than one of the losses stated above is due to the same
Accident, the Insurer will pay 100% of the Principal Sum. In no event

Medical Evacuation and Repatriation or Remains
Visit Benefits

Medical evacuation and repatriation expenses for insured student,
scholar, and their dependents must be arranged for and approved in
advance by HTH Worldwide.

MEDICAL EVACUATION BENEFIT If a Covered Person is involved in
an accident or suffers a sudden, unforeseen illness requiring
emergency medical services, while traveling outside of his/her
home country, and adequate medical facilities are not available, the
Administrator will coordinate and pay for a medically-supervised
evacuation, up to the Maximum Limit shown in the Schedule of
Benefits, to the nearest appropriate medical facility. This
medically-supervised evacuation will be to the nearest medical
facility only if the facility is capable of providing adequate care. The
evacuation will only be performed if adequate care is not available
locally and the Injury or Sickness requires immediate emergency
medical treatment, without which there would be a significant risk
of death or serious impairment. The determination of whether a
medical condition constitutes an emergency and whether area
facilities are capable of providing adequate medical care shall be
made by physicians designated by the Administrator after
consultation with the attending physician on the Covered Person’s
medical conditions. The decision of these designated physicians
shall be conclusive in determining the need for medical evacuation
services. Transportation shall not be considered medically
necessary if the physician designated by the Administrator
determines that the Covered Person can continue his/her trip or can
use the original transportation arrangements that he/she purchased.
The Insurer will pay Reasonable Charges for escort services if the
Covered Person is a minor or if the Covered Person is disabled
during a trip and as escort is recommended in writing by the
attending physician.

REPATRIATION OF REMAINS BENEFIT If a Covered Person dies
from a covered Sickness or Injury, while traveling outside of his/
her home country during the school year, the Insurer will pay the
necessary expenses actually incurred, up to the Maximum Limit
shown in the Schedule of Benefits, for the preparation of the body
for burial, or the cremation, and for the transportation of the remains
to his/her Home Country. This benefit covers the legal minimum
requirements for the transportation of the remains. It does not
include the transportation of anyone accompanying the body, urns,
caskets, coffins, visitation, burial or funeral expenses. Any expense
for repatriation of remains requires approval in advance by the Plan
Administrator.
No benefit is payable if the death occurs after the Termination Date of the Policy. However, if the Covered Person is Hospital Confined on the Termination Date, eligibility for this benefit continues until the earlier of the date the Covered Person’s Confinement ends or 31 days after the Termination Date. The Insurer will not pay any claims under this provision unless the expense has been approved by the Plan Administrator before the body is prepared for transportation.

**BEDSIDE VISIT BENEFIT** If a Covered Person is Hospital Confined due to an Injury or Sickness for more than 7 days, is likely to be hospitalized for more than 7 days or is in critical condition, while traveling outside of his/her home country, the Insurer will pay up to the maximum benefit as listed in Table 1 of the Schedule of Benefits for the cost of one economy round trip air fare ticket to, and the hotel accommodations in, the place of the Hospital Confinement for one person designated by the Covered Person. Payment for meals, ground transportation and other incidentals are the responsibility of the family member or friend.

With respect to any one trip, this benefit is payable only once for that trip, regardless of the number of Covered Persons on that trip. The determination of whether the Covered Member will be hospitalized for more than 7 days or is in critical condition shall be made by the Administrator after consultation with the attending physician. No more than one (1) visit may be made during any Period of Coverage. No benefits are payable unless the trip is approved in advance by the Plan Administrator.

**DEFINITIONS**

**Accident (Accidental)** means a sudden, unexpected and unforeseen, identifiable event producing at the time objective symptoms of an Injury. The Accident must occur while the Covered Person is insured under the Policy.

**Covered Medical Expense** means an expense actually incurred by or on behalf of a Covered Person for those services and supplies which are: 1) Administered or ordered by a Physician; 2) Medically Necessary to the diagnosis and treatment of an Injury or Sickness; 3) Not excluded by any provision of the Policy; and incurred while the Covered Person’s insurance is in force under the Policy. A Covered Medical Expense is deemed to be incurred on the date such service or supply which gave rise to the expense or charge was rendered or obtained. Covered Medical Expenses are listed in Table 3 and described in Section 2; 4) Coverage will not be denied for services rendered through a registered nurse acting under the authority of rules and regulations adopted by the North Carolina Medical Board and the Board of Nursing. This will also include direct payment to a registered nurse for conducting examinations or medical procedures for the purpose of collecting evidence from victims of offenses described in NCGS 90-171.38(b) if the registered nurse has completed the program established by said subsection.

**Emergency Hospitalization and Emergency Medical Care** means hospitalization or medical care that is provided for an injury or a Sickness condition manifesting itself by acute symptoms of sufficient severity, including without limitation sudden and unexpected severe pain for which the absence of medical attention could reasonably result in: 1) permanently placing the Covered person’s health in jeopardy; 2) causing other serious medical consequences or 3) causing serious impairment to bodily functions; or 4) causing serious and permanent dysfunctions of any bodily organ or part.

**Injury** means bodily injury caused directly by an Accident. It must be independent of all other causes. To be covered, the Injury must first be treated while the Covered Person is insured under the Policy. A Sickness is not an Injury. A bacterial infection that occurs through an Accidental wound or from a medical or surgical treatment of a Sickness is an injury.

**Medically Necessary** means those covered services or supplies that are: 1) Provided for the diagnosis, treatment, cure, or relief of a health condition, illness, injury, or disease; and, except as allowed under North Carolina law and not for experimental, investigational, or cosmetic purposes; 2) Necessary for and appropriate to the diagnosis, treatment, cure, or relief of a health condition, illness, injury, disease, or its symptoms; 3) Within generally accepted standards of medical care in the community; 4) Not solely for the convenience of the insured, the insured’s family, or the provider.

For medically necessary services, nothing in this subsection precludes an insurer from comparing the cost-effectiveness of alternative services or supplies when determining which of the services or supplies will be covered. If a physician authorizes a service, that does not necessarily make it a medically necessary covered service.

**Reasonable Expense** means the normal charge of the provider, incurred by the Covered Person, in the absence of insurance, 1.) for a medical service or supply, but not more than the prevailing charge in the area for a like service by a provider with similar training or experience, or 2.) for a supply which is identical or substantially equivalent. The final determination of a reasonable and customary charge rests solely with the Insurer.

**Sickness** means an illness, ailment, disease, or physical condition of a Covered Person starting while insured under the Policy.
