4th Year Rotations

The rotations in Family Medicine, Ob-Gyn and General Surgery are only available to students planning to apply to our residency programs. These rotations are located in Asheville, NC.

Due to limited space, MAHEC electives are only offered to students enrolled in LCME accredited United States & Canadian medical schools.

If you have questions regarding the rotations or application process, please contact Lisa Keiber, lisa.keiber@mahec.net, 828-257-4430.

Additional Application Requirements
In addition to the documents required by VSAS, applicants must upload the following documents:

- A personal statement that addresses the following areas: (1) the applicant’s commitment to their chosen specialty area; and (2) why the applicant wants to complete a rotation at MAHEC.
- USMLE or COMLEX Step 1 Scores

Once applicants have met the VSAS application requirements and have been approved by the program director for a rotation, there will be additional onboarding requirements by MAHEC and affiliate hospitals.

Housing is available through MAHEC, contingent on availability, at a modest cost after confirmation of rotation.

Please note that a car is required for these rotations.
