March 2016

4th Year Elective Requirements for Urology Visiting Student Rotation

Requirements:

Students must be attending a medical school accredited by the Liaison Committee on Medical Education (LCME). To find out if your medical school is LCME accredited, you may go to website http://www.lcme.org/.

Curriculum vitae and medical school transcript will be obtained via VSAS but applicants must provide the additional information requested below to:

Ashley Myles
Education Programs Coordinator
Department of Urology
2113 Physicians Office Bldg. CB 7235
Chapel Hill NC 27599-7235

Or via email: Ashley_Myles@med.unc.edu

1. Letter or email with dates of rotation request, please give alternative rotation request, and include your USMLE Step 1 score
2. Personal statement
3. Letter of recommendation from urology advisor

Once these items are received, they are reviewed by Dr. Eric Wallen, Program Director. The applicant is informed via email (copy to the UNC Student Affairs Office) of acceptance as soon as a decision is made. If the applicant is approved for a rotation, he or she must contact the UNC’s Student Affairs office, 919-843-7095 and complete all UNC Student Affairs’ requirements.

Due to the popularity of this rotation, we are only able to accommodate two visiting students per rotation. We will accept more than two visiting students if space is available after UNC’s drop/add dates.

The Student Affairs Office will confirm placement in a rotation via VSAS, after the appropriate application process has been completed and the rotation dates have been approved.

Visit our website for information on UNC’s Urology Residency Program at www.med.unc.edu/urology.
